PREFACE

This fifth supplement to the 1970 edition of the United States Code has been prepared and published pursuant to section 285b of title 2 of the Code. It contains the additions to and changes in the general and permanent laws of the United States enacted during the Ninety-second and Ninety-third Congresses, and the Ninety-fourth Congress, First Session. This supplement together with the 1970 edition establishes prima facie those laws in effect on January 18, 1976, except that titles 1, 3, 4, 5, 6, 9, 10, 13, 14, 17, 18, 23, 28, 32, 35, 37, 38, 39, and 44, having been enacted into law, establish legal evidence of the law contained in those titles.

In addition to the general and permanent laws found herein, this supplement includes the Bankruptcy Rules and Official Bankruptcy Forms, set out in the Appendix to Title 11; the Rules of Procedure of the Judicial Panel of Multi-district Litigation, set out following section 1407 of Title 28; the amendments to the Federal Rules of Criminal Procedure, effective December 1, 1975; the Federal Rules of Evidence, effective July 1, 1975, set out in the Appendix to Title 28; and the Rules of United States Court of Customs and Patent Appeals, set out in the Appendix to Title 35. These rules are incorporated into the Code to enable the user to locate in one convenient place not only the statutory enactments but also the latest procedural developments in certain specialized areas.

Increased interest in the affairs of the District of Columbia is also evident by new reference material first set out in the third supplement. Two new Tables, Tables III–A and III–B, have been added as aids in determining the relationship between provisions of the United States Code and the District of Columbia Code.

This supplement continues the practice of setting out notes captioned "Section referred to in other sections". These notes have been inserted following each section that is referred to in the text of another section, indicating the section that contains the internal reference. These notes have proved to be useful to the Congress, the bench and bar, and the public.

This supplement has been prepared and published under the supervision of Edward F. Willett, Jr., Law Revision Counsel of the House of Representatives, with the assistance of the West Publishing Company, of St. Paul, Minnesota, which assisted in preparing all prior editions and supplements of the Code. Grateful acknowledgment is made of the cooperation by all who have helped in this work, particularly by the staffs of the publishing company and of the Office of the Law Revision Counsel, and by the several sections of the Government Printing Office.

Speaker of the House of Representatives

The Secretary may make grants to States and, in consultation with the State health authority, to agencies and political subdivisions of States to assist in meeting the costs of communicable and other disease control programs. In making a grant under this section, the Secretary shall give consideration to (1) the relative extent, in the area served by the applicant for the grant, of the problems which relate to one or more of the communicable or other diseases referred to in subsection (h)(1) of this section, and (2) the design of the applicant's communicable or other disease control program to determine its effectiveness.

(c) Method of payment; grant reduction.

(1) Payments under grants under this section may be made in advance on the basis of estimates or by way of reimbursement, with necessary adjustments on account of underpayments or overpayments, and in such installments and on such terms and conditions as the Secretary finds necessary to carry out the purposes of this section.

(b) Research, demonstration, and training projects; authorization of appropriations.

(1) The Secretary is authorized to make grants to States, political subdivisions of States, and any other public or nonprofit private entity for projects for the conduct of research, demonstrations, and training for the prevention and control of venereal disease.

(2) For the purpose of carrying out this subsection, there is authorized to be appropriated $7,500,000 for the fiscal year ending June 30, 1973, and for each of the next two fiscal years.

(1) There is authorized to be appropriated $25,000,000 for the fiscal year ending June 30, 1973, and for each of the next two fiscal years, to enable the Secretary to make grants to State health authorities to assist the States in establishing and maintaining adequate public health programs for the diagnosis and treatment of venereal disease. For purposes of this subsection, the term "State" means each of the several States of the United States, the District of Columbia, the Virgin Islands, Guam, American Samoa, the Trust Territory of the Pacific Islands, and the Commonwealth of Puerto Rico.

(2) Any State desiring to receive a grant under this subsection shall submit to the Secretary a State plan for a public health program for the diagnosis and treatment of venereal disease. Each State plan shall—

(A) provide for the administration or supervision of administration of the State plan by the State health authority;

(B) set forth the policies and procedures to be followed in the expenditure of the funds paid to the State under this subsection;

(C) provide that the public health services furnished under the State plan will include the provision of Statewide laboratory services (including dark field microscope techniques for the diagnosis of both gonorrhea and syphilis), which services will be provided in accordance with standards prescribed by regulations, including standards as to the scope and quality of such services;

(D) contain or be supported by assurances satisfactory to the Secretary that (i) not less than 70 per centum of the funds paid to the State under this subsection will be used to provide and strengthen public health services in its political subdivisions for the diagnosis and treatment of venereal disease; (ii) such funds will be used to supplement and, to the extent practical, to increase the level of funds that would otherwise be made available for the purposes for which the Federal funds are provided under this subsection and will not supplant any non-Federal funds which would otherwise be available for such purposes; and (iii) the plan is compatible with the total health program of the State;

(E) provide that the State health authority will from time to time, but not less often than annually, review and evaluate its State plan approved under this subsection, and submit to the Secretary appropriate modifications thereof;

(3) The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of the recipients of grants under this section that are pertinent to such grants.

(4) The Secretary, at the request of a recipient of a grant under this section, may reduce such grant by the fair market value of any supplies or equipment furnished to such recipient and by the amount of pay, allowances, travel expenses, and any other costs in connection with the detail of an officer or employee of the United States to the recipient when the furnishing of such supplies or equipment or the detail of such an officer or employee is for the convenience of and at the request of such recipient and for the purpose of carrying out the program with respect to which the grant under this section is made. The amount by which any such grant is so reduced shall be available for payment by the Secretary of the costs incurred in furnishing the supplies, equipment, or personal services on which the reduction of such grant is based; and, in the case of a grant under subsection (c) of this section, such amount shall be deemed a part of the grant to such recipient and shall, for the purposes of that subsection, be deemed to have been paid to such recipient.

(5) All information obtained in connection with the examination, care, or treatment of any individual under any program which is being carried out with a grant made under this section shall not, without such individual's consent, be disclosed except as may be necessary to provide service to him. Information derived from any such program may be disclosed—

(A) in summary, statistical, or other form, or

(B) for clinical or research purposes,

but only if the identity of the individuals diagnosed or provided care or treatment under such program is not disclosed.

(f) Conditional limitation on use of funds.

Except as provided in section 247b(d)(4) of this title, no funds appropriated under any provision of this chapter other than this section may be used to make grants in any fiscal year for programs or projects respecting venereal disease if (1) grants for such programs or projects are authorized by this section, and (2) all the funds authorized to be appropriated under this section for that fiscal year have not been appropriated for that fiscal year and obligated in that fiscal year.

(g) Limitations on section 247b grants.

Not to exceed 50 per centum of the amounts appropriated for any fiscal year under subsections (b), (c), and (d) of this section may be used by the Secretary for grants for such fiscal year under section 247b of this title.

(h) Consent of individuals.

EFFECTIVE DATE

Section 108(b) of Pub. L. 93–353 provided that: "Subsection (a) [this section] shall be effective from December 28, 1973."

§ 254b. National Health Service Corps.

(a) Establishment; assignment of personnel; statement of purpose.

There is established, within the Service, the National Health Service Corps (hereinafter in this section referred to as the "Corps") which shall consist of those officers of the Regular and Reserve Corps of the Service and such other personnel as the Secretary may designate and which shall be utilized by the Secretary to improve the delivery of health care and services to persons residing in areas which have critical health manpower shortages.

(b) Powers of Secretary; procedure for assignment of personnel; utilization of appropriate techniques, facilities, and organizational forms, and maximization of care and services by personnel; establishment of fees; collection and deposit of payments; waiver of collection.

(1) The Secretary shall (A) designate those areas which he determines have critical health manpower shortages, (B) provide assistance to persons seeking assignment of Corps personnel to such designated areas to provide under this section health care and services for persons residing in such areas, and (C) conduct such information programs in such designated areas as may be necessary to inform the public and private health entities serving those areas of the assistance available under this section.

(2)(A) The Secretary may assign personnel of the Corps to provide, under regulations prescribed by the Secretary, health care and services for persons residing in an area designated by the Secretary under paragraph (1) if—

(i) the State health agency of each State in which such area is located or the local public health agency or any other public or nonprofit private health entity in such area requests such assignment, and

(ii) the (I) local government of such area, and (II) the State and district medical, dental, or other appropriate health societies (as the case may be), certify to the Secretary that such assignment of Corps personnel is needed for such area.

If with respect to any proposed assignment of Corps personnel to an area the requirements of clauses (i) and (ii) of the preceding sentence are met except for the certification by the State and district medical, dental, or other appropriate health societies required by clause (ii) and if the Secretary finds from all the facts presented that such certification has clearly been arbitrarily and capriciously withheld, the Secretary may, after consultation with appropriate medical, dental, or other health societies, assign such personnel to such area. Corps personnel shall be assigned under this section on the basis of the extent of an area's need for health care and services and without regard to the ability of the residents of an area to pay for health care and services.

(B) In providing health care and services under this section, Corps personnel shall utilize the techniques, facilities, and organizational forms most appropriate for the area and shall, to the maximum extent feasible, provide such care and services (i) to all persons in such area regardless of the ability of such persons to pay for the care and services, and (ii) in connection with (I) direct health care programs carried out by the Service; (II) any direct health care program carried out in whole or in part with Federal financial assistance; or (III) any other health care activity which is in furtherance of the purposes of this section.

(C) Any person who receives health care or services provided under this section shall be charged for such care or service on a fee-for-service or other basis at a rate established by the Secretary, pursuant to regulations, to recover the reasonable cost

of providing such care or service; except that if such person is determined under regulations of the Secretary to be unable to pay such charge, the Secretary shall provide for the furnishing of such care or service at a reduced rate or without charge.

(D) (i) The Secretary shall require as a condition to the approval of an application for the assignment of Corps personnel that the entity which submits the application enter into an appropriate arrangement with the Secretary under which the entity shall take such action as may be reasonable for the collection of payments for health services provided by Corps personnel, including if a Federal agency, an agency of a State or local government, or other third party would be responsible for payment of all or part of the cost of such health services if it had not been provided by Corps personnel under this section, the collection, on a fee-for-service or other basis, from such agency or third party the portion of such cost for which it would be so responsible (and in determining the amount of such cost which such agency or third party would be responsible, the health services provided by Corps personnel shall be considered as being provided by private practitioners).

(ii) Any funds collected by an entity under clause (i) shall be paid to the Secretary for deposit in the Treasury as miscellaneous receipts. Such funds shall be disregarded in determining (I) the amounts of appropriations to be requested under subsection (h) of this section, and (II) the amounts to be made available from appropriations under such subsection to carry out this section. The Secretary may waive in whole or in part the application of the requirement of the first sentence to an entity if he determines that compliance with such requirement would unduly limit the ability of the entity to maintain the quality or level of health services provided by Corps personnel.

(c) Assigned personnel not included within personnel quota of Department of Health, Education, and Welfare; reimbursement of applicants.

Commissioned officers and other personnel of the Corps assigned to areas designated under subsection (b) of this section shall not be included in determining whether any limitation on the number of personnel which may be employed by the Department of Health, Education, and Welfare has been exceeded. The Secretary may reimburse applicants for positions in the Corps for actual expenses incurred in traveling to and from their place of residence to an area in which they would be assigned for the purpose of evaluating such area with regard to being assigned in such area. The Secretary shall not reimburse an applicant for more than one such trip.

(d) Utilization of area health facilities; arrangements by Secretary; use and procurement of equipment, supplies, and temporary services of nurses and allied health professionals; grants for purchase of supplies and equipment; application; number and amount of grants; sales or transfers of supplies and equipment upon expiration of assignment of personnel; fair market value for sales; recruitment of personnel.

(1) Notwithstanding any other provision of law, the Secretary, to the extent feasible, may make such arrangements as he determines necessary to enable officers and other personnel of the Corps in providing care and services under subsection (b) of this section to utilize the health facilities of the area to be served, except that if such area is being served (as determined under regulations of the Secretary) by a hospital or other health care delivery facility of the Service, the Secretary shall, in addition to such other arrangements as the Secretary may make to insure the availability in such area of care and services by Corps personnel, arrange for the utilization of such hospital or facility by Corps personnel in providing care and services in such area but only to the extent that such utilization will not impair the delivery of care and treatment through such hospital or facility to persons who are entitled to care and treatment through such hospital or facility. If there are no health facilities in or serving such area, the Secretary may arrange to have such care and services provided in the nearest health facilities of the Service or the Secretary may lease or otherwise provide facilities in such area for the provision of such care and services. In providing such care and services, the Secretary may (A) make such arrangements as he determines are necessary for the use of equipment and supplies of the Service and for the lease or acquisition of other equipment and supplies, and (B) secure the temporary services of nurses and allied health professionals.

(2) The Secretary may make a grant to any applicant with an approved application for the assignment of Corps personnel to assist the entity in meeting the costs of establishing medical practice management systems for Corps personnel, acquiring supplies and equipment for their use in providing health services, and other expenses related to the provision of health services. Not more than one grant may be made with respect to any one health manpower shortage area designated under subsection (b) (1) of this section. No grant may be made under this paragraph unless an application therefor is submitted to, and approved by, the Secretary. The amount of any grant shall be determined by the Secretary, except that no grant may exceed $25,000.

(3) Upon the expiration of the assignment of Corps personnel to provide health services for the residents of a critical health manpower shortage area, the Secretary (notwithstanding any other provision of law) may (A) sell (at fair market value (as determined by the Secretary)) to the entity which submitted the last approved application for the assignment of Corps personnel for such area equipment and supplies of the United States utilized by such personnel in providing health services or (B) if the Secretary determines that the entity is financially unable to purchase such supplies or equipment at their fair market value, sell to such entity such supplies or equipment at less than fair market value or transfer such supplies or equipment to the entity.

(4) The Secretary shall conduct at medical and nursing schools and other schools of the health professions and training centers for the allied health professions, recruiting programs for the Corps. Such

programs shall include the wide dissemination of written information on the Corps and visits to such schools by personnel of the Corps.

* * * * *

(f) Functions of Secretary.

It shall be the function of the Secretary—

(1) to establish guidelines with respect to how the Corps shall be utilized in areas designated under this section;

(2) to select personnel of the Corps for assignment to the areas designated under this section; and

(3) to determine which communities or areas may receive assistance under this section taking into consideration—

* * * * *

(B) the willingness of the community or area and the appropriate governmental agencies therein to assist and cooperate with the Corps in providing effective health services to residents of the community or area;

* * * * *

(g) Annual report to Congress; contents.

"(3) chronic lung diseases have been gaining steadily in recent years as important causes of disability and death, with emphysema alone being the fastest rising cause of death in the United States;

"(4) chronic respiratory diseases affect an estimated ten million Americans, emphysema an estimated one million, chronic bronchitis an estimated four million, and asthma an estimated five million;

"(5) thrombosis (the formation of blood clots in the vessels) may cause, directly or in combination with other problems, many deaths and disabilities from heart disease and stroke which can now be prevented;

"(6) blood and blood products are essential human resources whose value in saving life and promoting health cannot be assessed in terms of dollars;

"(7) the provision of prompt and effective emergency medical services utilizing to the fullest extent possible advances in transportation and communications and other electronic systems and specially trained professional and paraprofessional health care personnel can reduce substantially the number of fatalities and severe disabilities due to critical illnesses in connection with heart, blood vessel, lung, and blood diseases; and

"(8) the greatest potential for advancement against heart, blood vessel, lung, and blood diseases lies in the National Heart and Lung Institute, but advancement against such diseases depends not only on the research programs of that Institute but also on the research programs of other research institutes of the National Institutes of Health.

"(b) It is the purpose of this Act [see Short Title note under this section] to enlarge the authority of the National Heart and Lung Institute in order to advance the national attack upon heart, blood vessel, lung, and blood diseases."

SHORT TITLE

Section 1 of Pub. L. 93–640 provided that: "This Act [enacting sections 289c–4, 289c–5, and 289c–6 of this title, amending this section and section 289a of this title, and enacting provisions set out as notes under this section] may be cited as the 'National Arthritis Act of 1974'."

CONGRESSIONAL FINDINGS AND DECLARATION OF PURPOSE

Section 2 of Pub. L. 93–640 provided that:

"The Congress makes the following findings—

"(1) Arthritis and related musculoskeletal diseases constitute major health problems in the United States in that they afflict more than twenty million Americans and are the greatest single cause of chronic pain and disability.

"(2) The complications of arthritis lead to many other serious health problems and other severe physical disabilities in persons of all ages with the disease, particularly children and adolescents.

"(3) The annual cost of arthritis to the national economy in 1970, from medical care expenses and lost wages, was $9,200,000,000, and number of workdays lost in that year totaled over 14,500,000.

"(4) Uncontrolled arthritis significantly decreases the quality of life and has a major negative economic, social, and psychological impact on the families of its victims and society generally.

"(5) Athletic and other types of joint injuries involving trauma can lead to arthritis.

"(6) The development of advanced methods of diagnosis and treatment of arthritis and quality trained health professionals in arthritis deserves the highest national priority.

"(7) There is a critical shortage of medical facilities and properly trained health professionals and allied health professionals in the United States for arthritis research, prevention, treatment, care, and rehabilitation programs.

"(8) The citizens of the United States should have a full understanding of the nature of the human, social, and economic impact of arthritis and should be encouraged to seek early diagnosis and treatment to prevent or mitigate physical disability resulting from arthritis.

"(9) There is great potential for making major advances against arthritis in the National Institute of Arthritis, Metabolism, and Digestive Diseases, in concert with other institutes of the National Institutes of Health."

NATIONAL COMMISSION ON ARTHRITIS AND RELATED MUSCULOSKELETAL DISEASES

Section 3 of Pub. L. 93–640 provided that:

"(b) The Commission shall be composed of eighteen members as follows:

"(1) Six members appointed by the Secretary who are scientists, physicans, or other health professionals not in the employment of the Federal Government, who represent the various specialties and disciplines involving arthritis and related musculoskeletal diseases (hereinafter in this section collectively referred to as 'arthritis'), and of whom at least two are practicing clinical rheumatologists, at least one is an orthopedic surgeon, and at least one is an allied health professional.

"(2) Four members appointed by the Secretary from the general public, of whom at least two suffer from arthritis.

"(3) One member appointed by the Secretary, from members of the National Arthritis, Metabolism, Digestive Disease Advisory Council, whose primary interest is in the field of rheumatology.

"(4) The Director of the National Institutes of Health or his designee, the Director of the National Institute of Arthritis, Metabolism, and Digestive Diseases or his designee, the Directors, or their designees, of the National Institute of Allergy and Infectious Diseases and the National Institute of General Medical Science, the Associate Director for Arthritis and Related Musculoskeletal Diseases of such Institute, and the chief medical officer of the Veterans' Administration and the Secretary of Defense or their designees, each of whom shall serve as ex officio, nonvoting members.

"(c) The members of the Commission shall select a chairman from among their own number. The Commission shall first meet on a date specified by the Secretary, not later than 30 days after the Commission is established, and thereafter shall meet at the call of the Chairman of the Commission (but not less often than three times).

SHORT TITLE

Section 1 of Pub. L. 93–354 provided that: "This Act [enacting this section and sections 289c–1a and 289c–3 of this title, amending sections 247b and 289c–1 of this title, and enacting provisions set out as notes under this section] may be cited as the 'National Diabetes Mellitus Research and Education Act'."

CONGRESSIONAL FINDINGS AND DECLARATION OF PURPOSE

Section 2 of Pub. L. 93–354 provided that:

"(a) The Congress makes the following findings:

"(1) Diabetes mellitus is a major health problem in the United States which directly affects perhaps as many as ten million Americans and indirectly affects perhaps as many as fifty million Americans who will pass the tendency to develop diabetes mellitus to their children or grandchildren or to both.

"(2) Diabetes mellitus is a family of diseases that has an impact on virtually all biological systems of the human body.

"(3) Diabetes mellitus is the fifth leading cause of death from disease, and it is the second leading cause of new cases of blindness.

"(4) The severity of diabetes mellitus in children and most adolescents is greater than in adults, which in most cases involves greater problems in the management of the disease.

"(5) The complications of diabetes mellitus, particularly cardiovascular degeneration, lead to many other serious health problems.

"(6) Uncontrolled diabetes mellitus significantly decreases life expectancy.

"(7) There is convincing evidence that the known prevalence of diabetes mellitus has increased dramatically in the past decade.

"(8) The citizens of the United States should have a full understanding of the nature of the impact of diabetes mellitus.

"(9) The attainment of better methods of diagnosis and treatment of diabetes mellitus deserves the highest priority.

"(10) The establishment of regional diabetes research and training centers throughout the country is essential for the development of scientific information and appropriate therapies to deal with diabetes mellitus.

"(11) In order to provide for the most effective program against diabetes mellitus it is important to mobilize the resources of the National Institutes of Health as well as the public and private organizations capable of the necessary research and public education in the disease.

"(b) It is the purpose of this Act [see Short Title note under this section] to—

"(1) expand the authority of the National Institutes of Health to advance the national attack on diabetes mellitus; and

"(2) as part of that attack, to establish a long-range plan to—

"(A) expand and coordinate the national research effort against diabetes mellitus;

"(B) advance activities of patient education, professional education, and public education which will alert the citizens of the United States to the early indications of diabetes mellitus; and

"(C) to emphasize the significance of early detection, proper control, and complications which may evolve from the disease."

An application for an Award shall be in such form, submitted in such manner, and contain such information, as the Secretary may by regulation prescribe.

(2) The award of National Research Service Awards by the Secretary under subsection (a) of this section and the making of grants for such Awards shall be subject to review and approval by the appropriate advisory councils to the entities of the National Institutes of Health and the Alcohol, Drug Abuse, and Mental Health Administration (A) whose activities relate to the research or training under the Awards, or (B) at which such research or training will be conducted.

(ii) serve in his specialty in private practice in a geographic area designated by the Secretary as requiring that specialty, or

(iii) provide services in his specialty for a health maintenance organization to which payments may be made under section 1395mm of this title and which serves a medically underserved population (as defined in section 300e–1(7) of this title),

in lieu of engaging in health research or teaching if the Secretary determines that there are no suitable health research or teaching positions available to such individual.

(C) Where appropriate the Secretary may, upon application, authorize a recipient of a National Research Service Award, who is not trained to provide health care directly to individual patients, to engage in a health-related activity in lieu of engaging in health research or teaching if the Secretary determines that there are no suitable health research or teaching positions available to such individual.

(2) For each year for which an individual receives a National Research Service Award he shall—

(A) for twelve months engage in health research or teaching or, if so authorized, serve as a member of the National Health Service Corps, or

$$\left(A=\phi\frac{t-1/2s}{t}\right)$$

in which "A" is the amount the United States is entitled to recover; "ϕ" is the sum of the total amount paid under one or more National Research Service Awards to such individual and the interest on such amount which would be payable if at the time it was paid it was a loan bearing interest at a rate fixed by the Secretary of the Treasury after taking into consideration private consumer rates of interest prevailing at the time each Award to such individual was made; "t" is the total number of months in such individual's service obligation; and "s" is the number of months of such obligation served by him in accordance with paragraphs (1) and (2) of this subsection.

(B) Any amount which the United States is entitled to recover under subparagraph (A) shall, within the three-year period beginning on the date the United States becomes entitled to recover such amount, be paid to the United States. Until any amount due the United States under subparagraph (A) on account of any National Research Service Award is paid, there shall accrue to the United States interest on such amount at the same rate as that fixed by the Secretary of the Treasury under subparagraph (A) to determine the amount due the United States.

(5)(A) Any obligation of any individual under paragraph (3) shall be canceled upon the death of such individual.

(B) The Secretary shall by regulation provide for the waiver or suspension of any such obligation applicable to any individual whenever compliance by such individual is impossible or would involve extreme hardship to such individual and if enforcement of such obligation with respect to any individual would be against equity and good conscience.

(d) Authorization of appropriations; minimum sums for subsection (a)(1)(A) payments.

There are authorized to be appropriated to make payments under National Research Service Awards and under grants for such Awards $207,947,000 for the fiscal year ending June 30, 1975. Of the sums appropriated under this subsection, not less than 25 per centum shall be made available for payments under National Research Service Awards provided by the Secretary under subsection (a)(1)(A) of this section. § 293a. Applications.

(a) Filing dates.

The Secretary may from time to time set dates (not earlier than in the fiscal year preceding the year for which a grant is sought) by which applications for grants under this part for any fiscal year must be filed.

(b) Eligibility.

(1) To be eligible to apply for a grant to assist in the construction of any facility under this part, the applicant must be (A) a public or other nonprofit school of medicine, dentistry, osteopathy, pharmacy, optometry, podiatry, veterinary medicine, or public health, and (B) accredited by a recognized body or bodies approved for such purpose by the Commissioner of Education, except that a new school which (by reason of no, or an insufficient period of operation), is not, at the time of application for a grant to construct a facility under this part, eligible for accreditation by such a recognized body or bodies, shall be deemed accredited for purposes of this part if the Commissioner of Education finds, after consultation with the appropriate accreditation body or bodies, that there is reasonable assurance that the school will meet the accreditation standards of such body or bodies (i) prior to the beginning of the academic year following the normal graduation date of the first entering class in such school or (ii) if later, upon completion of the project for which assistance is requested and other projects (if

any) under construction or planned and to be commenced with a reasonable time, or (C) any combination of schools which are described in clause (A) and which meet the requirements of clause (B).

(2) Notwithstanding paragraph (1), in the case of an affiliated hospital or affiliated outpatient facility, an application which is approved by the school of medicine, osteopathy, or dentistry with which the hospital or outpatient facility is affiliated and which otherwise complies with the requirements of this part may be filed by any public or other nonprofit agency qualified to file an application under section 291e of this title.

(3) In the case of any application, whether filed by a school or, in the case of an affiliated hospital or affiliated outpatient facility, by any other public or other nonprofit agency, for a grant under this part to assist in the construction of a hospital or outpatient facility, as defined in section 291o of this title—

(A) if the hospital or outpatient facility is needed in connection with a new school, only that portion of the project to construct the hospital or outpatient facility which the Secretary determines to be reasonably attributable to the need of such school for the facility for teaching purposes,

(B) if the construction is in connection with expansion of the training capacity of an existing school, only that portion of the project to construct the hospital or outpatient facility which the Secretary determines to be reasonably attributable to the need of such school for the facility in order to expand its training capacity, or

(C) if the construction is in connection with renovation or rehabilitation of a hospital or outpatient facility used by an existing school, only that portion of the project which the Secretary determines to be reasonably attributable to the need of such school for the hospital or outpatient facility in order to prevent curtailment of enrollment or quality of training of the school or to meet an increase in student enrollment,

shall be regarded as the project with respect to which payments may be made under section 293b of this title.

(c) Approval by Secretary; enrollment increase requirement; waiver; advice of Council.

A grant under this part may be made only if the application therefor is approved by the Secretary upon his determination that—

* * * * *

(2) the application contains or is supported by reasonable assurances that (A) the facility is intended to be used for the purposes for which the application has been made, (B) sufficient funds will be available to meet the non-Federal share of the cost of constructing the facility, (C) sufficient funds will be available, when construction is completed, for effective use of the facility for the training for which it is being constructed, and (D) in the case of an application for construction to expand the training capacity of an existing school of medicine, dentistry, osteopathy, pharmacy, optometry, podiatry, veterinary medicine, or public health, the first-year enrollment at such school during the first full school year after the completion of the construction and for each of the next nine school years thereafter will exceed the highest first-year enrollment at such school for any of the five full school years preceding the year in which the application is made by at least 5 per centum of such highest first-year enrollment, or by five students, whichever is greater, and the requirements of this clause (D) shall be in addition to the requirements of section 295f(f) of this title, where applicable. If a school applies for a grant in a fiscal year for a construction project to expand its training capacity and if under paragraph (2) of section 295f(f) of this title the school is not required to meet in such fiscal year the enrollment increase prescribed by such section because of limitations of physical facilities, the Secretary, after consultation with the National Advisory Council on Health Professions Education, may waive (in whole or in part) the enrollment increase prescribed by clause (D) of the preceding sentence if the application for such construction project contains or is supported by reasonable assurances satisfactory to the Secretary that the number of first-year students enrolled at such school during the first full school year after the completion of such project and for each of the next nine school years thereafter will be not less than the number of first-year students that such school would be required to enroll under section 295f(f) of this title (without regard to paragraph (2) thereof) for a grant under section 295f(a) of this title;

* * * * *

(5) the applicant contains or is supported by adequate assurance that any laborer or mechanic employed by any contractor or subcontractors in the performance of work on the construction of the facility will be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of La-

bor in accordance with the Davis-Bacon Act, as amended. The Secretary of Labor shall have, with respect to the labor standards specified in this paragraph, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267), and section 276c of Title 40;

(6) if the application requests aid in construction of a facility which is a hospital or outpatient facility as defined in section 291o of this title, an application with respect thereto has been filed under subchapter IV of this chapter and has been denied thereunder because (A) the project has no insufficient priority, or (B) funds are not available for the project from the State's allotments under subchapter IV of this chapter; and

(7) in the case of an application for a project for the construction of a facility intended, at least in part, for the provision of health services, an opportunity has been provided for comment on the project by (A) the State agency administering or supervising the administration of the State plan approved under section 246(a) of this title, and (B) the public or nonprofit private agency or organization responsible for the plan or plans referred to in section 246(b) of this title and covering the area in which such project is to be located or if there is no such agency, such other public or nonprofit private agency or organization (if any) as performs, as determined in accordance with criteria of the Secretary, similar functions.

Before approving or disapproving an application under this part, the Secretary shall secure the advice of the National Advisory Council on Health Professions Education established by section 293e of this title (hereinafter in this part referred to as the "Council").

(d) Matters considered.

In considering applications for grants, the Council and the Secretary shall take into account—

* * * * *

(e) Special consideration for certain projects.

In the case of applications to aid in the construction of new schools of medicine, osteopathy, or dentistry, the Secretary shall give special consideration to those applications which contain or are reasonably supported by assurances that, because of the use that will be made of existing facilities (including Federal medical or dental facilities), the school will be able to accelerate the date on which it will begin its teaching program. (As amended Nov. 18, 1971, Pub. L. 92–157, title I, §§ 102(e), (f)(1), (2)(A), (g), (h), (j) (2), (3), (7)(A), 108(b)(1), 85 Stat. 434–437, 461.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 293a of this title.

§ 293i. Loan guarantees and interest subsidies.

(a) Eligibility of private entity; commitments; percentage limitation.

To assist nonprofit private entities to carry out approved construction projects for teaching facilities, the Secretary may, during the period beginning July 1, 1971, and ending with the close of June 30, 1974, guarantee (in accordance with this section and subject to subsection (f) of this section) to any non-Federal lender which makes a loan to such an entity for such a project payment when due of the principal of and interest on such loan if such entity is eligible (as determined under regulations of the Secretary) for a grant under this part for such project. The Secretary may make commitments, on behalf of the United States, to make such loan guarantees prior to the making of such loans. No such loan guarantee (1) may, except under such special circumstances and under such conditions as are prescribed by regulations, apply to any amount which, when added to any grant under this part or any other law of the United States, exceeds 90 per centum of the cost of construction of the project, or (2) may apply to more than 90 per centum of the loss of principal of and interest on the loan.

(b) Amount of interest subsidy.

In the case of any nonprofit private entity which is eligible (as determined under regulations of the Secretary) for a grant under this part to assist it in carrying out an approved construction project for teaching facilities after June 30, 1971, and to whom a loan has been made by a non-Federal lender to assist it in carrying out such project, the Secretary, during the period beginning July 1, 1971, and ending with the close of June 30, 1974, may, subject to subsection (f) of this section, pay to the holder of such loan (and for and on behalf of the entity which received such loan) amounts sufficient to reduce by not to exceed 3 per centum per annum the net effective interest rate otherwise payable on such loan.

(c) Application; contents; approval by Secretary; terms, conditions, security, and repayments schedule; interest rate; loan not otherwise available.

A loan guarantee or interest subsidy payment may be made under this section only upon an application (submitted in such manner and containing such information as the Secretary may by regulations require) approved by the Secretary. The Secretary may not approve an application for a loan guarantee or interest subsidy payment unless he determines that the terms, conditions, security (if any), and schedule and amount of repayments with respect to the loan are sufficient to protect the financial interests of the United States and are otherwise reasonable, including a determination that the rate of interest does not exceed such per centum per annum on the principal obligation outstanding as the Secretary determines to be reasonable, taking into account the range of interest rates prevailing in the private market for similar loans and the risks assumed by the United States. The Secretary may not approve an application for a loan guarantee, unless he determines that the loan would not be available on reasonable terms and conditions without the guarantee under this section.

(d) Recovery right; waiver; subrogation; modification of terms and conditions; incontestability: fraud or misrepresentation exceptions.

(1) The United States shall be entitled to recover from the applicant for a loan guarantee under this section the amount of any payment made pursuant to such guarantee, unless the Secretary for good cause waives such right of recovery; and, upon making any such payment, the United States shall be subrogated to all of the rights of the recipient of the payments with respect to which the guarantee was made.

(2) To the extent permitted by paragraph (3), any terms and conditions applicable to a loan guarantee under this section may be modified by the Secretary to the extent he determines it to be consistent with the financial interest of the United States.

(3) Any loan guarantee made by the Secretary pursuant to this section shall be incontestable in the hands of an applicant on whose behalf such guarantee is made, and as to any person who makes or contracts to make a loan to such applicant in reliance thereon, except for fraud or misrepresentation on the part of such applicant or such other person.

(e) Loan guarantee and interest subsidy fund; establishment; fiscal year availability; sources of moneys: appropriations authorization; operations under section; notes or obligations: issuance by Secretary, forms and denominations, maturities, terms and conditions, interest rate, purchase and sale by Secretary of Treasury: conditions and restrictions, redemption.

There is established in the Treasury a loan guarantee and interest subsidy fund (hereinafter in this subsection referred to as the "fund") which shall be available to the Secretary without fiscal year limitation, in such amounts as may be specified from time to time in appropriation Acts, (1) to enable him to discharge his responsibilities under guarantees issued by him under this section, and (2) for interest subsidy payments authorized by this section. There are authorized to be appropriated from time to time

such amounts as may be necessary to provide the sums required for the fund; except that the amount appropriated for interest subsidy payments may not exceed $8,000,000 in the fiscal year ending June 30, 1972, $16,000,000 in the fiscal year ending June 30, 1973, and $24,000,000 in the fiscal year ending June 30, 1974. There shall also be deposited in the fund amounts received by the Secretary or other property or assets derived by him from his operations under this section, including any money derived from the sale of assets. If at any time the sums in the fund are insufficient to enable the Secretary to discharge his responsibilities under guarantees issued by him under this section or to make interest subsidy payments authorized by this section, he is authorized to issue to the Secretary of the Treasury notes or other obligations in such forms and denominations, bearing such maturities, and subject to such terms and conditions, as may be prescribed by the Secretary with the approval of the Secretary of the Treasury, but only in such amounts as may be specified from time to time in appropriation Acts. Such notes or other obligations shall bear interest at a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States of comparable maturities during the month preceding the issuance of the notes or other obligations. The Secretary of the Treasury shall purchase any notes and other obligations issued hereunder and for that purpose he may use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, and the purposes for which the securities may be issued under that Act are extended to include any purchase of such notes and obligations. The Secretary of the Treasury may at any time sell any of the notes or other obligations acquired by him under this subsection. All redemptions, purchases, and sales by the Secretary of the Treasury of such notes or other obligations shall be treated as public debt transactions of the United States. Sums borrowed under this subsection shall be deposited in the fund and redemption of such notes and obligations shall be made by the Secretary from the fund.

(f) Limitations.

(1) The cumulative total of the principal of the loans outstanding at any time with respect to which guarantees have been issued under this section may not exceed such limitations as may be specified in appropriation Acts.

(2) In any fiscal year no loan guarantee may be made under subsection (a) of this section and no agreement to make interest subsidy payments may be entered into under subsection (b) of this section if the making of such guarantee or the entering into of such agreement would cause the cumulative total of—

(A) the principal of the loans guaranteed under subsection (a) of this section in such fiscal year, and

(B) the principal of the loans for which no guarantee has been made under subsection (a) of this section and with respect to which an agreement to make interest subsidy payments is entered into under subsection (b) of this section in such fiscal year,

to exceed the amount of grant funds obligated under this part in such fiscal year; except that this paragraph shall not apply if the amount of grant funds obligated under this part in such fiscal year equals the sums appropriated for such fiscal year under section 293 of this title.

(g) Administrative assistance.

The Secretary, with the consent of the Secretary of Housing and Urban Development, may obtain from the Department of Housing and Urban Development such assistance with respect to the administration of this section as will promote efficiency and economy thereof. (July 1, 1944, ch. 373, title VII, § 729, as added Nov. 18, 1971, Pub. L. 92–157, title I, § 102(d), 85 Stat. 432.)

(B) the application of such school for a grant under this section in the fiscal year ending June 30, 1972, must contain or be supported by reasonable assurances that, for the first school year beginning after June 30, 1972 and for each school year thereafter, the number of students enrolled in such school as class of first-year students will not be less than a number equal to the sum of—

(i) the minimum enrollment of first-year students required under subparagraph (A); and

(ii) 10 per centum of the number of first-year students enrolled for the first school year beginning after June 30, 1970, if such number was not more than 100 or, if such number was more than 100, 5 per centum of such number of ten students, whichever is greater.

(ii) if such school has previously qualified for a bonus enrollment grant under this section, must be not less than the sum of (I) the minimum number of students which such school was required, pursuant to paragraph (1)(B) or (2)(B) (as the case may be), to assure the Secretary would be enrolled for such school year, and (II) 5 per centum of that number or 5 students, whichever is greater; or

(B) the application of such school for a grant under this section for the fiscal year in which such school year begins contains or is supported by reasonable assurances that, for the first school year beginning after the close of such fiscal year and for each fiscal year thereafter, the number of students enrolled in such school as a class of first-year students will not be less than the minimum number of students such school was required under subparagraph (A) to enroll as first-year students.

The requirements of subparagraph (A) shall be in addition to the requirements of section 293a(c)(2) of this title, where applicable.

(2) The Secretary is authorized to waive (in whole or in part) the provisions of paragraph (1)(A) if he determines, after consultation with the National Advisory Council on Health Professions Education, that the required increase in first-year enrollment of full-time students in a school cannot, because of limitations of physical facilities available to the school for training or because of other relevant factors, be accomplished without lowering the quality of training provided therein.

(3) In those instances where enrollment increases proposed exceed the requirements of paragraph (1)(A), the Secretary shall satisfy himself, after consultation with the appropriate accreditation body or bodies (as defined in section 293a(b)(1) of this title), that there is reasonable assurance that such expanded program will meet the accreditation standards of such body or bodies.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 293a, 295f–5 of this title.

§ 295f–1. Start-up assistance.

(a) New schools eligible; conditions; amount of grant; new school status; payments: advances or reimbursement, intervals, conditions; authorization of appropriations.

(1) In the case of any new school of medicine, osteopathy or dentistry which begins instruction after November 18, 1971, the Secretary may, after taking into account—

(A) the ability of such school to use a grant under this section to (i) accelerate the date it will begin instruction, or (ii) increase the number of students in its entering class, and

(B) the other resources available to such school, make a grant to such school for each year such school is a new school (as determined under paragraph (4)). No school may receive a grant under this subsection unless the Secretary estimates that the number of full-time students enrolled in its first academic year of operation will exceed twenty-three.

(2) The Secretary shall determine the amount of any grant under this subsection; but no such grant to any school may exceed—

(A) in the case of the year preceding the first year in which such school has students enrolled, an amount equal to the product of $10,000 and the number of full-time students which the Secretary estimates will enroll in such school in such first year;

(B) in the case of the first year in which such school has students enrolled, an amount equal to the product of $7,500 and the number of full-time students enrolled in such school in such year;

(C) in the case of the second year in which such school has students enrolled, an amount equal to the product of $5,000 and the number of full-time students enrolled in such school in such year;

(D) in the case of the third year in which such school has students enrolled, an amount equal to the product of $2,500 and the number of full-time students enrolled in such school in such year.

Estimates by the Secretary under this subsection of the number of full-time students enrolled in a school may be made on the basis of assurances provided by the school.

(3) The Secretary shall give special consideration to each application of a school for grant assistance under this subsection which contains or is reasonably supported by assurances, that, because of the use that the school will make of existing facilities (including Federal medical or dental facilities), it will be able to accelerate the date on which it will begin its teaching program.

(4) For purposes of this subsection, any school of medicine, osteopathy, or dentistry shall be considered a new school for any year if such year is the year preceding the first year in which such school has students enrolled, such first year, and the next two years.

(5) Payments under grants under this subsection may be made in advance or by way of reimbursement, and at such intervals and on such conditions, as the Secretary finds necessary.

(6) There is authorized to be appropriated to make grants under this subsection not to exceed $10,000,000 for the fiscal year ending June 30, 1972, and a like amount for each of the next two fiscal years. Sums appropriated under this paragraph shall remain available until expended.

(b) Two-year schools of medicine with prospective accredited status; amount of grant; year of expenditure; limitation of funds; applications: filing date, approval by Secretary; enrollment date for third-year students; payments: advances or reimbursement; intervals, conditions.

(1) The Secretary shall make a grant to any public or nonprofit private two-year school of medicine (or any school accredited as such a two-year school) which intends to become a school accredited to grant the degree of doctor of medicine. The amount of the grant to a school under this subsection shall be equal to the product of $50,000 and the number of third-year students which the Secretary determines will be initially enrolled in such school. Upon application by the school, the Secretary shall (if the school so requests) make a grant to such school for expenditure in the year preceding the initial enrollment of third-year students in such school, or thereafter. No school may receive more than one grant under this subsection.

(2) No grant may be made under this subsection unless an application therefor has been submitted before July 1, 1974, and the school enrolls third-year students not later than the school year beginning in the fiscal year ending June 30, 1975. The Secretary may not approve an application for a grant under this subsection unless he determines it contains or is supported by reasonable assurances that the school for which the application is made will be affiliated with an accredited hospital in the fiscal year for which such grant is made. Payments under grants under this subsection may be made in advance or by way of reimbursement, and at such intervals and on such conditions, as the Secretary finds necessary. (As amended Nov. 18, 1971, Pub. L. 92–157, title I, § 104, 85 Stat. 443.)

AMENDMENTS

1971—Pub. L. 92–157, in revising the text, substituted provisions incorporated in subsecs. (C) such student has not been accepted, before the date of approval of his application for a scholarship grant under this subpart, by a medical school located in the United States.

1971—Pub. L. 92–157, title I, § 106(c), Nov. 18, 1971, 85 Stat. 455, added the heading of subpart III.

§ 295g–21. Scholarship grants.

(a) Eligible students; "physician shortage area" and "primary care" defined.

In order to promote the more adequate provision of medical care for persons who—

(1) reside in a physician shortage area;

(2) are migratory agricultural workers or members of the families of such workers;

the Secretary may, in accordance with the provisions of this subpart, make scholarship grants to individuals who are medical students and who agree to engage in the practice of primary care after completion of their professional training (A) in a physician shortage area, or (B) at such place or places, such facility or facilities, and in such manner, as may be necessary to assure that, of the patients receiving medical care in such practice, a substantial portion will consist of persons referred to in clause (2). For purposes of this subpart, (1) the term "physician shortage area" means an area determined by the Secretary under section 294a(f)(1)(C) of this title to have a shortage of and a need for physicians, and (2) the term "primary care" has the meaning prescribed for it by the Secretary under section 295e–2(c)(3)(B) of this title.

(b) Academic year period; maximum grant to an individual; order of priority for awards.

(1) Scholarship grants under this subpart shall be made with respect to academic years.

(2) The amount of any scholarship grant under this subpart to any individual for any full academic year shall not exceed $5,000.

(3) The Secretary shall, in awarding scholarship grants under this subpart, accord priority to applicants as follows—

(A) first, to any applicant who (i) is from a low-income background (as determined under regulations of the Secretary), (ii) resides in a physician shortage area, and (iii) agrees that, upon completion of his professional training, he will return to such area and will engage in such area in the practice of primary care;

(B) second, to any applicant who meets all the criteria set forth in subparagraph (A) except that prescribed in clause (i);

(C) third, to any applicant who meets the criterion set forth in clause (i); and

(D) fourth, to any other applicant.

(c) Conditions; recovery upon breach of conditions; accrued interest; cancellation of liability for repayment; waiver or suspension of obligation.

(1) Any scholarship grant awarded to any individual under this subpart shall be awarded upon the condition that such individual will, upon completion of his professional training, engage in the practice of primary care—

(A) in the case of any individual who, in applying for a scholarship grant under this subpart, met the criteria set forth in subparagraph (A) or (B) of subsection (b)(3) of this section, in the physician shortage area in which he agreed (pursuant to such subparagraph) to engage in such practice; and

(B) in the case of any individual who did not agree (pursuant to such subparagraph (A) or (B)) to engage in such practice in any particular physician shortage area (or who is not, under a waiver under paragraph (4) of this subsection, required to engage in such practice in any particular physician shortage area)—

(i) in any physician shortage area, or

(ii) at such place or places, in such facility or facilities, and in such manner, as may be necessary to assure that, of the patients receiving medical care provided by such individual, a substantial portion will consist of persons who are migratory agricultural workers or are members of the families of such workers;

for a twelve-month period for each full academic year with respect to which he receives such a scholarship grant. For purposes of the preceding sentence, any individual, who has received a scholarship grant under this subpart for four full academic years, shall be deemed to have received such a grant for only three full academic years if such individual serves all of his internship or residency in a public or private hospital, which is located in a physician shortage area, or a substantial portion of the patients of which consists of persons who are migratory agricultural workers (or are members of the families of such workers) and, if, while so serving, such individual receives training or professional experience designed to prepare him to engage in the practice of primary care.

(2) The condition imposed by paragraph (1) shall be complied with by any individual to whom it applies within such reasonable period of time, after the completion of such individual's professional training, as the Secretary shall by regulations prescribe.

(3) If any individual to whom the condition referred to in paragraph (1) is applicable fails, within the period prescribed pursuant to regulations under paragraph (2), to comply with such condition for the full number of months with respect to which such condition is applicable, the United States shall be entitled to recover from such individual an amount equal to the amount produced by multiplying—

(A) the aggregate of (i) the amounts of the scholarship grant or grants (as the case may be) made to such individual under this subpart, and (ii) the sums of the interest which would be payable on each such scholarship grant if, at the time such grant was made, such grant were a loan bearing interest at a rate fixed by the Secretary of the Treasury, after taking into consideration private consumer rates of interest prevailing at the time such grant was made, and if the interest one each such grant had been compounded annually, by

(B) a fraction the numerator of which is the number obtained by subtracting from the number of months to which such condition is applicable a number equal to one-half of the number of months with respect to which compliance by such individual with such condition was made, and the denominator of which is a number equal to the number of months with respect to which such condition is applicable.

Any amount which the United States is entitled to recover under this paragraph shall, within the three-year period beginning on the date the United States becomes entitled to recover such amount, be paid to the United States. Until any amount due the United States under this paragraph on account of any grant under this subpart is paid, there shall accrue to the United States interest on such amount at the same rate as that fixed by the Secretary of the Treasury pursuant to clause (A) with respect to the grant on account of which such amount is due the United States.

(4) (A) Any obligation of any individual to comply with the condition applicable to him under the preceding provisions of this subsection shall be canceled upon the death of such individual.

(B) The Secretary shall by regulations provide for the waiver or suspension of any such obligation applicable to any individual whenever compliance by such individual is impossible or would involve extreme hardship to such individual and if enforcement of such obligation with respect to any individual would be against equity and good conscience. (July 1, 1944, ch. 373, title VII, § 784, as added Nov. 18, 1971, Pub. L. 92–157, title I, § 106(c), 85 Stat. 455.)

§ 295g–22. Administration; contractual arrangements.

The Secretary may enter into agreements with schools of medicine, hospitals, or other appropriate public or nonprofit private agencies under which such schools, hospitals, or other agencies will, as agents of the Secretary, perform such functions in the administration of this subpart, as the Secretary may specify. Any such agreement with any school, hospital, or other agency may provide for payment by the Secretary of amounts equal to the expenses actually and necessarily incurred by such school, hospital, or other agency in carrying out such agreement. (July 1, 1944, ch. 373, title VII, § 785, as added Nov. 18, 1971, Pub. L. 92–157, title I, § 106(c), 85 Stat. 457.)

L. 92–157 and is classified to section 295g–11 of this title.

(b) A grant for a construction project under this subpart may be made only if the application therefor is approved by the Secretary upon his determination that—

* * * * *

(2) the application contains or is supported by reasonable assurances that (A) for not less than twenty years (or in the case of interim facilities, within such shorter period as the Secretary shall by regulation prescribe) after completion of construction, the facility will be used for the purposes of the training for which it is to be constructed, and will not be used for sectarian instruction or as a place for religious worship, (B) sufficient funds will be available to meet the non-Federal share of the cost of constructing the facility, (C) sufficient funds will be available, when construction is completed, for effective use of the facility for the training for which it is being constructed and (D) in the case of an application for a grant for construction to expand the training capacity of a school of nursing, the first-year enrollment at such school during the first full school year after the completion of the construction and for each of the nine years thereafter will exceed the highest first-year enrollment at such school for any of the five full school years preceding the year in which the application is made by at least 5 per centum of such highest first-year enrollment, or by five students, whichever is greater, and the requirements of this clause (D) shall be in addition to the requirements of section 296e(c) of this title, where applicable;

* * * * *

(5) the application contains or is supported by adequate assurances that all laborers and mechanics employed by contractors or subcontractors in the performance of work on a project will be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Act of March 3, 1931 (sections 276a to 276a–5 of Title 40, known as the Davis-Bacon Act), and the Secretary of Labor shall have with respect to such labor standards the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176) and section 276c of Title 40.

(1) (A) in the case of a project for a new school or for expansion of the facilities of an existing school, the relative effectiveness of the proposed facilities (i) in expanding the capacity for the training of first-year students of nursing in the field involved and in promoting an equitable geographical distribution of opportunities for such training (giving due consideration to population, relative unavailability of nurses of the kind to be trained by such school, and available resources in various areas of the Nation for training such nurses), or (ii) in expanding the capacity of the school to provide graduate training; or

(B) in the case of a project for replacement or rehabilitation of existing facilities of a school, the relative need for such replacement or rehabilitation to prevent curtailment of the school's enrollment or deterioration of the quality of the training provided by the school, and the relative size of any such curtailment and its effect on the geographical distribution of opportunities for training in the field of nursing involved (giving consideration to the factors mentioned in subparagraph (A)); and

EFFECTIVE DATE OF 1975 AMENDMENT

Amendment by Pub. L. 94–63 effective July 1, 1975, see section 942 of Pub. L. 94–63, set out as a note under section 296a of this title.

§ 296d. Loan guarantees and interest subsidies for constructions of training facilities by nonprofit nursing schools.

(a) Eligible applicants; amount of loan guarantee.

In order to assist nonprofit private schools of nursing to carry out construction projects for training facilities, the Secretary may, during the period beginning July 1, 1971, and ending with the close of September 30, 1978, guarantee (in accordance with this section and subject to subsection (f) of this section) to non-Federal lenders or the Federal Financing Bank making loans to such schools for such construction projects payment when due of the principal of and interest on any loan for construction of such facilities if the loan was made to a school which is eligible (as determined under regulations of the Secretary) for a grant under this subpart to assist a construction project for such facilities. The Secretary may make commitments, on behalf of the United States, to make such loan guarantees prior to the making of such loans. No such loan guarantee may, except under such special circumstances and under such conditions as are prescribed by regulations, apply to any amount which, when added to any grant for construction under this subpart or any other law of the United States, exceeds 90 per centum of the cost of construction of the project.

(b) Restrictions on interest subsidy payments.

In the case of any nonprofit private school of nursing which is eligible (as determined under regulations of the Secretary) for a grant under this subpart to assist a construction project for training facilities, and to whom a loan has been made by a non-Federal lender or the Federal Financing Bank to assist it in carrying out such project, the Secretary, during the period beginning July 1, 1971, and ending with the close of September 30, 1978, may, subject to subsection (f) of this section, pay to the holder of such loan (and for and on behalf of the school which received such loan) amounts sufficient to reduce by not to exceed 3 per centum per annum the net effective interest rate otherwise payable on such loan.

(c) Submission and approval of applications for loan guarantees or interest subsidy payments.

A loan guarantee or interest subsidy payment may be made under this section only upon an application (submitted in such manner and containing such information as the Secretary may by regulations require) approved by the Secretary. The Secretary may not approve an application for a loan guarantee or interest subsidy payment unless he determines that the terms, conditions, security (if any), and schedule and amount of repayments with respect to the loan are sufficient to protect the financial interests of the United States and are otherwise reasonable, including a determination that the rate of interest does not exceed such per centum per annum on the principal obligation outstanding as the Secretary determines to be reasonable, taking into account the range of interest rates prevailing in the private market for similar loans and the risks assumed by the United States. The Secretary may not approve an application for a loan guarantee, unless he determines that the loan would not be available on reasonable terms and conditions without the guarantee under this section.

(d) Recovery by United States; modification of terms and conditions by Secretary; incontestability of loan guarantee except for fraud or misrepresentations.

(1) The United States shall be entitled to recover from any school of nursing for whom a loan guarantee was made under this section the amount of any payment made pursuant to such guarantee, unless the Secretary for good cause waives such right of recovery; and, upon making any such payment, the United States shall be subrogated to all of the rights of the recipient of the payments with respect to which the guarantee was made.

(2) To the extent permitted by paragraph (3), any terms and conditions applicable to a loan guarantee under this section may be modified by the Secretary

to the extent he determines it to be consistent with the financial interest of the United States.

(3) Any loan guarantee made by the Secretary pursuant to this section shall be incontestable in the hands of an applicant on whose behalf such guarantee is made, and as to any person who makes or contracts to make a loan to such applicant in reliance thereon, except for fraud or misrepresentation on the part of such applicant or such other person.

(e) Establishment of loan guaranty and interest subsidy fund; authorization of appropriations; insufficient sums in fund.

There is established in the Treasury a loan guarantee and interest subsidy fund (hereinafter in this subsection referred to as the "fund") which shall be available to the Secretary without fiscal year limitation, in such amounts as may be specified from time to time in appropriation Acts, (1) to enable him to discharge his responsibilities under guarantees issued by him under this section, and (2) for interest subsidy payments authorized by this section. There are authorized to be appropriated from time to time such amounts as may be necessary to provide the sums required for the fund; except that the amount appropriated for interest subsidy payments may not exceed $1,000,000 in the fiscal year ending June 30, 1972, $2,000,000 in the fiscal year ending June 30, 1973, $4,000,000 in the fiscal year ending June 30, 1974, or in the next fiscal year, $1,000,000 in fiscal year 1976, $1,000,000 in fiscal year 1977, and $1,000,000 in fiscal year 1978. There shall also be deposited in the fund amounts received by the Secretary or other property or assets derived by him from his operations under this section, including any money derived from the sale of assets. If at any time the sums in the fund are insufficient to enable the Secretary to discharge his responsibilities under guarantees issued by him under this section or to make interest subsidy payments authorized by this section, he is authorized to issue to the Secretary of the Treasury notes or other obligations in such forms and denominations, bearing such maturities, and subject to such terms and conditions, as may be prescribed by the Secretary with the approval of the Secretary of the Treasury, but only in such amounts as may be specified from time to time in appropriation Acts. Such notes or other obligations shall bear interest at a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States of comparable maturities during the month preceding the issuance of the notes or other obligations. The Secretary of the Treasury shall purchase any notes and other obligations issued hereunder and for that purpose he may use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, and the purposes for which the securities may be issued under that Act are extended to include any purchase of such notes and obligations. The Secretary of the Treasury may at any time sell any of the notes or other obligations acquired by him under this subsection. All redemptions, purchases, and sales by the Secretary of the Treasury of such notes or other obligations shall be treated as public debt transactions of the United States. Sums borrowed under this subsection shall be deposited in the fund and redemption of such notes and obligations shall be made by the Secretary from the fund.

(f) Limitation on cumulative total of principal of loans governed by amounts specified in appropriation acts.

(1) The cumulative total of the principal of the loans outstanding at any time with respect to which guarantees have been issued under this section may not exceed such limitations as may be specified in appropriation Acts.

(2) In any fiscal year no loan guarantee may be made under subsection (a) of this section and no agreement to make interest subsidy payments may be entered into under subsection (b) of this section if the making of such guarantee or the entering into of such agreement would cause the cumulative total of—

(A) the principal of the loans guaranteed under subsection (a) of this section in such fiscal year, and

(B) the principal of the loans for which no guarantee has been made under subsection (a) of this section and with respect to which an agreement to make interest subsidy payments is entered into under subsection (b) of this section in such fiscal year,

to exceed the amount of grant funds obligated under this subpart in such fiscal year for construction grants; except that this paragraph shall not apply if the amount of grant funds so obligated in such fiscal year equals the sums appropriated for such fiscal year under section 296 of this title.

(g) Administrative assistance from the Department of Housing and Urban Development.

The Secretary, with the consent of the Secretary of Housing and Urban Development, may obtain from the Department of Housing and Urban Development such assistance with respect to the administration of this section as will promote efficiency and economy thereof. (July 1, 1944, ch. 373, title VIII, § 805, formerly § 809, as added Nov. 18, 1971, Pub. L. 92–158, § 2(c), 85 Stat. 465, and renumbered and amended July 29, 1975, Pub. Subpart II.—Capitation Grants

§ 296e. Grants for institutional support.

(a) Computation.

The Secretary shall make annual grants to schools of nursing for the support of the education programs of such schools. The amount of the annual grant to each such school with an approved application shall be computed as follows:

(1) Each collegiate school of nursing shall receive $400 for each undergraduate full-time student enrolled in each of the last two years of such school in such year.

(2) Each associate degree school of nursing shall receive (A) the product of $275 and one-half of the number of full-time students enrolled in the first year of such school in such year, and (B) $275 for each full-time student enrolled in the last year of such school in such year.

(3) Each diploma school of nursing shall receive $250 for each full-time student enrolled in such school in such year.

(b) Apportionment of appropriations.

If the total of the grants to be made under subsection (a) of this section for any fiscal year to schools with approved applications exceeds the amounts appropriated under subsection (f) of this section for such grants, the amount of the grant for that fiscal year to each such school shall be an amount which bears the same ratio to the amount determined for the school for that fiscal year under subsection (a) of this section as the total of the amounts appropriated under subsection (f) of this section for that year bears to the amount required to make grants to each school in accordance with subsection (a) of this section.

(c) Requirements.

(1) The Secretary shall not make a grant under subsection (a) of this section to any school of nursing in a fiscal year beginning after June 30, 1975, unless the application for such grant contains or is supported by reasonable assurances satisfactory to the Secretary that—

(A) the first-year enrollment of full-time students in the school in the school year beginning after the fiscal year in which the grant applied for is to be made will not be less than the first-year enrollment of such students in the school in the preceding school year; and

(B) that the school will expend in carrying out its function as a school of nursing, during the fiscal year for which such grant is sought, an amount of funds (other than funds for construction as determined by the Secretary) from non-Federal sources which is at least as great as the average amount of funds expended by such applicant for such purposes (excluding expenditures of a nonrecurring nature) in the three fiscal years immediately preceding the fiscal year for which such grant is sought.

The requirement of subparagraph (A) shall be in addition to the requirements of section 296a(b)(2)(D) of this title, where applicable.

(2) The Secretary shall not make a grant under subsection (a) of this section to any school of nursing in a fiscal year beginning after June 30, 1975, unless one of the following requirements is met:

(A) The application for such grant shall contain or be supported by reasonable assurances satisfactory to the Secretary that for the school year beginning after the close of the fiscal year in which such grant is to be made and for each school year thereafter beginning in a fiscal year in which such a grant is made the first year enrollment of full-time students in such school will exceed the number of such students enrolled in the school year beginning during the fiscal year ending June 30, 1975—

(i) by 10 per centum of such number if such number was not more than one hundred, or

(ii) by 5 per centum of such number, or ten students, whichever is greater, if such number was more than one hundred.

(B) The school has provided reasonable assurance satisfactory to the Secretary that it will carry out, in accordance with a plan submitted by the school to the Secretary and approved by him, at least two of the following programs in the school year beginning after the close of the fiscal year in which such grant is to be made and in each school year thereafter beginning in a fiscal year in which such a grant is made:

(i) In the case of collegiate schools of nursing, a program for the training of nurse practioners (as defined in section 296m of this title).

(ii) A program under which students enrolled in a school of nursing will receive a significant portion of their clinical training in community health centers, long-term care facilities, and

ambulatory care facilities geographically remote from the main site of the teaching facilities of the school.

(iii) A program for the continuing education of nurses which meets needs identified by appropriate State, regional, or local health or educational entities (including health systems agencies).

(iv) A program to identify, recruit, enroll, retain, and graduate individuals from disadvantaged backgrounds (as determined in accordance with criteria prescribed by the Secretary) under which program at least 10 per centum of each year's entering class (or ten students, whichever is greater) is comprised of such individuals.

(d) Enrollment and graduation determinations; full-time students defined.

(1) For purposes of this part and part D, regulations of the Secretary shall include provisions relating to determination of the number of students enrolled in a school, or in a particular year-class in a school, or the number of graduates, as the case may be, on the basis of estimates or on the basis of the number of students who were enrolled in a school, or in a particular year-class in a school, or were graduates, in an earlier year, as the case may be, or on such basis as he deems appropriate for making such determination, and shall include methods of making such determination when a school or a year-class was not in existence in an earlier year at a school.

(2) For purposes of this part and part D, the term "full-time students" (whether such term is used by itself or in connection with a particular year-class) means students pursuing a full-time course of study in an accredited program in a school of nursing.

(e) Applications for new schools.

In the case of a new school of nursing which applies for a grant under this section in the fiscal year preceding the fiscal year in which it will admit its first class, the enrollment for purposes of subsection (a) of this section shall be the number of full-time students which the Secretary determines, on the basis of assurances provided by the school, will be enrolled in the school, in the fiscal year after the fiscal year in which the grant is made.

(f) Authorization of appropriations.

(1) There are authorized to be appropriated $78,000,000 for the fiscal year ending June 30, 1972, $82,000,000 for the fiscal year ending June 30, 1973, $88,000,000 each for the fiscal years ending June 30, 1974 and June 30, 1975, $50,000,000 for fiscal year 1976, $55,000,000 for fiscal year 1977, and $55,000,000 for fiscal year 1978 for grants under this section.

(July 1, 1944, ch. 373, title VIII, § 810, formerly § 806, as added Sept. 4, 1964, Pub. L. 88–581, § 2, 78 Stat. 912, and amended Dec. 5, 1967, Pub. The total of the loans for any academic year (or its equivalent, as determined under regulations of the Secretary) made by schools of nursing from loan funds established pursuant to agreements under this subpart may not exceed $2,500 in the case of any student. The aggregate of the loans for all years from such funds may not exceed $10,000 for any student. In the granting of such loans, a school shall give preference to licensed practical nurses and to persons who enter as first-year students after enactment of this subchapter.

(b) Terms and conditions.

Loans from any such student loan fund by any school shall be made on such terms and conditions as the school may determine; subject, however, to such conditions, limitations, and requirements as the Secretary may prescribe (by regulation or in the agreement with the school) with a view to preventing impairment of the capital of such fund to the maximum extent practicable in the light of the objective of enabling the student to complete his course of study; and except that—

(1) such a loan may be made only to a student who (A) is in need of the amount of the loan to pursue a full-time or half-time course of study at the school leading to a baccalaureate or associate degree in nursing or an equivalent degree, or a diploma in nursing, or a graduate degree in nursing, and (B) is capable, in the opinion of the school, of maintaining good standing in such course of study;

(2) such a loan shall be repayable in equal or graduated periodic installments (with the right of the borrower to accelerate repayment) over the ten-year period which begins nine months after the student ceases to pursue a full-time or half-time course of study at a school of nursing, excluding from such 10-year period all (A) periods (up to three years) of (i) active duty performed by the borrower as a member of a uniformed service, or (ii) service as a volunteer under the Peace Corps Act, and (B) periods (up to five years) during which the borrower is pursuing a full-time course of study at a collegiate school of nursing leading to baccalaureate degree in nursing or an equivalent degree, or to graduate degree in nursing, or is otherwise pursuing advanced professional training in nursing (or training to be a nurse anesthetist);

(3) an amount up to 85 per centum of any such loan (plus interest thereon) shall be canceled for full-time employment as a professional nurse (including teaching in any of the fields of nurse training and service as an administrator, supervisor, or consultant in any of the fields of nursing) in any public or nonprofit private agency, institution, or organization (including neighborhood health centers), at the rate of 15 per centum of the amount of such loan (plus interest) unpaid on the first day of such service for each of the first, second, and third complete year of such service, and 20 per centum of such amount (plus interest) for each complete fourth and fifth year of such service;

* * * * *

(7) no note or other evidence of any such loan may be transferred or assigned by the school making the loan except that, if the borrower transfers to another school participating in the program under this subpart such note or other evidence of a loan may be transferred to such other school.

(c) Cancellation.

Where all or any part of a loan, or interest, is canceled under this section, the Secretary shall pay to the school an amount equal to the school's proportionate share of the canceled portion, as determined by the Secretary.

(d) Installments.

Any loan for any year by a school from a student loan fund established pursuant to an agreement under this subpart shall be made in such installments as may be provided in regulations of the Secretary or such agreement and, upon notice to the Secretary by the school that any recipent of a loan is failing to maintain satisfactory standing, any or all further installments of his loan shall be withheld, as may be appropriate.

(e) Availability to eligible students in need.

An agreement under this subpart with any school shall include provisions designed to make loans from the student loan fund established thereunder reasonably available (to the extent of the available funds in such fund) to all eligible students in the school in need thereof.

(f) Penalty for late payment.

Subject to regulations of the Secretary, a school may assess a charge with respect to a loan from the loan fund established pursuant to an agreement under this subpart for failure of the borrower to pay all or any part of an installment when it is due and, in the case of a borrower who is entitled to deferment of the loan under subsection (b)(2) of this section or cancellation of part or all of the loan under subsection (b)(3) of this section, for any failure to file timely and satisfactory evidence for such entitlement. The amount of any such charge may not exceed $1 for the first month or part of a month by which such installment or evidence is late and $2 for each such month or part of a month thereafer. The school may elect to add the amount of any such charge to the principal amount of the loan as of the first day after the day on which such installment or evidence was due, or to make the amount of the

charge payable to the school not later than the due date of the next installment after receipt by the borrower of notice of the assessment of the charge.

(g) Minimum monthly repayment.

A school may provide in accordance with regulations of the Secretary, that during the repayment period of a loan from a loan fund established pursuant to an agreement under this subpart payments of principal and interest by the borrower with respect to all the outstanding loans made to him from loan funds so established shall be at a rate equal to not less than $15 per month.

the Secretary shall make payments in accordance with paragraph (2), for and on behalf of that individual, on the principal of and interest on any loan of that individual described in subparagraph (B) of this paragraph which is outstanding on the date the individual begins the service specified in the agreement described in subparagraph (C) of this paragraph.

(2) The payments described in paragraph (1) shall be made by the Secretary as follows:

(A) Upon completion by the individual for whom the payments are to be made of the first year of the service specified in the agreement entered into with the Secretary under paragraph (1), the Secretary shall pay 30 per centum of the principal of, and the interest on each loan of such individual described in paragraph (1) (B) which is outstanding on the date he began such practice.

(B) Upon completion by that individual of the second year of such service, the Secretary shall pay another 30 per centum of the principal of, and the interest on each such loan.

(C) Upon completion by that individual of a third year of such service, the Secretary shall pay another 25 per centum of the principal of, and the interest on each such loan.

(3) Notwithstanding the requirement of completion of practice specified in paragraph (2), the Secretary shall, on or before the due date thereof, pay any loan or loan installment which may fall due within the period of service for which the borrower may receive payments under this subsection, upon the declaration of such borrower, at such times and in such manner as the Secretary may prescribe (and supported by such other evidence as the Secretary may reasonably require), that the borrower is then engaged as described by paragraph (1) or paragraph (2) (C), and that the borrower will continue to be so engaged for the period required (in the absence of this paragraph) to entitle the borrower to have made the payments provided by this subsection for such period; except that not more than 85 per centum of the principal of any such loan shall be paid pursuant to this paragraph.

(4) A borrower who fails to fulfill an agreement with the Secretary entered into under paragraph (1) or assurances provided pursuant to paragraph (2) (C) shall be liable to reimburse the Secretary for any payments made pursuant to paragraph (2) (A) or paragraph (3) in consideration of such agreement.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 297d of this title.

§ 297d. Allotments and payments of Federal capital contributions.

(a) Determination of amount of allotment.

From the sums appropriated pursuant to section 297c of the title for any fiscal year, the Secretary shall allot to each school an amount which bears the same ratio to the amount so appropriated as the number of persons enrolled on a full-time basis in such school bears to the total number of persons enrolled on a full-time basis in all schools of nursing in all the States. The number of persons enrolled on a full-time basis in schools of nursing for purposes of this section shall be determined by the Secretary for the most recent year for which satisfactory data are available to him. For purposes of allotments under this section, a school of nursing also includes any school with which the Secretary has, prior to the time the allotment is made, entered into an agreement for establishment of a student loan fund under this subpart. Funds available in any fiscal year for payment to schools under this subpart which are in excess of the amount appropriated pursuant to section 297c of this title for that year shall be allotted among States and among schools within States in such manner as the Secretary determines will best carry out the purposes of this subpart.

(b) Application for allotment; adjustment or reduction of amount requested in application; reallotment of amount.

(1) The Secretary shall from time to time set dates by which schools of nursing in a State must file applications for Federal capital contributions from the allotment of such State under the first two sentences of subsection (a) of this section.

(2) If the total of the amounts requested for any fiscal year in such applications which are made by schools in a State exceeds the amount of the allotment of such State for that fiscal year, the amounts to be paid to the loan fund of each such school shall be reduced to whichever of the following is the smaller: (A) the amount requested in its application or (B) an amount which bears the same ratio to the amount of the allotment of such State as the number of students who will be enrolled full time in such school during such fiscal year bears to the total number of students who will be enrolled full time in all such schools in such State during such year. Amounts remaining after allotment under the preceding sentence shall be redistributed in accordance with clause (B) of such sentence among schools which in their applications requested more than the amounts so paid to their loan funds, but with such adjustments as may be necessary to prevent the total paid to any such school's loan fund from exceeding the total so requested by it. If the total of the amounts requested for any fiscal year in such applications which are made by schools in a State is less than the amount of the allotment of such State for that fiscal year, the Secretary may reallot the remaining amount from time to time, on such date or dates as he may fix, to other States in proportion to the original allotments to such States under subsection (a) of this section for such year. For the purpose of this section, the number of students who graduated from secondary schools in each State during a fiscal year and the number of students who will be enrolled full time in schools of nursing in each State shall be estimated by the Secretary on the basis of the best information available to him; and in making such estimates, the number of students enrolled full time in any collegiate school of nursing shall be deemed to be twice their actual number.

(c) Manner of payment.

The Federal capital contributions to a loan fund of a school under this subpart shall be paid to it from time to time in such installments as the Secretary determines will not result in unnecessary accumulations in the loan fund at such school. (July 1, 1944, ch. 373, title VIII, § 938, formerly § 825, as added Sept. 4, 1964, Pub. L. 88–581, § 2, 78 Stat. 915, and amended Nov. 3, 1966, Pub. L. 89–751, § 6(c), 80 Stat. 1235; Aug. 16, 1968, Pub. L. 90–490, title II, § 222(e), 82 Stat. 785; renumbered and amended July 29, 1975, Pub. L. 94–63, title IX, § 941(h)(1), (2), (4)(A), (i)(1), (4), 89 Stat. 365, 366.)

AMENDMENTS

1975—Subsec. (a). Pub. L. 94–63, § 941(h)(1), (4)(A)(i), (i)(4), substituted "subpart" for "part" wherever appearing therein, struck out "(whether as Federal capital contributions or as loans to schools under section 297f of this title)" preceding "which are in excess", and substituted references to section 847 of the Act for references to section 824, which had previously been translated as section 297c of this title, requiring no further translations in the text as a result of the renumbering of the Public Health Service Act.

Subsec. (b)(1). Pub. L. 94–63, § 941(h)(4)(A)(ii), struck out ", and for loans pursuant to section 297f of this title," following "contributions".

Subsec. (b)(2). Pub. L. 94–63, § 941(h)(2), struck out "of Health, Education, and Welfare" following "Secretary".

Subsec. (c). Pub. L. 94–63, § 941(h)(1), substituted "subpart" for "part".

EFFECTIVE DATE OF 1975 AMENDMENT

Amendment by Pub. L. 94–63 effective July 1, 1975, see section 942 of Pub. L. 94–63, set out as a note under section 296a of this title.

(B)(i) The period within which an emergency medical services system must meet each of the requirements specified in subparagraph (A) is the period of the grant or contract for which application is made; except that if the applicant demonstrates to the satisfaction of the Secretary the inability of the applicant's emergency medical services system to meet one or more of such requirements within such period, the period (or periods) within which the system must meet such requirement (or requirements) is such period (or periods) as the Secretary may require.

(5) The Secretary shall provide technical assistance, as appropriate, to eligible entities as necessary for the purpose of their preparing applications or otherwise qualifying for or carrying out grants or contracts under sections 300d–1, 300d–2, or 300d–3 of this title, with special consideration for applicants in rural areas.

SUBCHAPTER XI.—HEALTH MAINTENANCE ORGANIZATIONS [NEW]

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in section 300n–1 of this title; title 12 section 1721.

§ 300e. Requirements of health maintenance organizations.

(a) Definition of health maintenance organization.

For purposes of this subchapter, the term "health maintenance organization" means a legal entity which (1) provides basic and supplemental health services to its members in the manner prescribed by subsection (b) of this section, and (2) is organized and operated in the manner prescribed by subsection (c) of this section.

(b) Manner of supplying basic and supplemental health services to members.

A health maintenance organization shall provide, without limitations as to time or cost other than those prescribed by or under this subchapter, basic and supplemental health services to its members in the following manner:

(1) Each member is to be provided basic health services for a basic health services payment which (A) is to be paid on a periodic basis without regard to the dates health services (within the basic health services) are provided; (B) is fixed without regard to the frequency, extent, or kind of health service (within the basic health services) actually furnished; (C) is fixed under a community rating system; and (D) may be supplemented by additional nominal payments which may be required for the provision of specific services (within the basic health services), except that such payments may not be required where or in such a manner that they serve (as determined under regulations of the Secretary) as a barrier to the delivery of health services. Such additional nominal payments shall be fixed in accordance with the regulations of the Secretary.

(2) For such payment or payments (hereinafter in this subchapter referred to as "supplemental health services payments") as the health maintenance organization may require in addition to the basic health services payment, the organization shall provide to each of its members each health service (A) which is included in supplemental health services (as defined in section 300e–1 (2) of this title), (B) for which the required health manpower are available in the area served by the organization, and (C) for the provision of which the member has contracted with the organization. Supplemental health services payments which are fixed on a prepayment basis shall be fixed under a community rating system.

(3) The services of health professionals which are provided as basic health services shall be provided through health professionals who are members of the staff of the health maintenance organization, or through a medical group (or groups) or individual practice association (or associations), except that this paragraph shall not apply in the case of (A) health professionals' services which the organization determines, in conformity with regulations of the Secretary, are unusual or infrequently used, or (B) any basic health service provided a member of the health maintenance organization other than by such a health professional because it was medically necessary that the service be provided to the member before he could have it provided by such a health professional. For purposes of this paragraph, the term "health professionals" means physicians, dentists, nurses, podiatrists, optometrists, and such other individuals engaged in the delivery of health services as the Secretary may by regulation designate.

(4) Basic health services (and supplemental health services in the case of the members who have contracted therefor) shall within the area served by the health maintenance organization be available and accessible to each of its members promptly as appropriate and in a manner which assures continuity, and when medically necessary be available and accessible twenty-four hours a day and seven days a week. A member of a health maintenance organization shall be reimbursed by the organization for his expenses in securing basic or supplemental health services other than through the organization if it was medically necessary that the services be provided before he could secure them through the organization.

(c) Organization, practices, and activities.

Each health maintenance organization shall—

(1) have a fiscally sound operation and adequate provision against the risk of insolvency which is satisfactory to the Secretary;

(2) assume full financial risk on a prospective basis for the provision of basic health services, except that a health maintenance organization may obtain insurance or make other arrangements (A) for the cost of providing to any member basic health services the aggregate value of which exceeds $5,000 in any year, (B) for the cost of basic health services provided to its members other than through the organization because medical necessity required their provision before they could be secured through the organization, and (C) for not more than 90 per centum of the amount by which its costs for any of its fiscal years exceed 115 per centum of its income for such fiscal year;

(3) enroll persons who are broadly representative of the various age, social, and income groups within the area it serves, except that in the case of a health maintenance organization which has a medically underserved population located (in whole or in part) in the area it serves, not more than 75 per centum of the members of that organization may be enrolled from the medically underserved population unless the area in which such population resides is also a rural area (as designated by the Secretary);

(4) have an open enrollment period of not less than thirty days at least once during each consecutive twelve-month period during which enrollment period it accepts, up to its capacity, individuals in the order in which they apply for enrollment, except that if the organization demonstrates to the satisfaction of the Secretary that—

(A) it has enrolled, or will be compelled to enroll, a disproportionate number of individuals who are likely to utilize its services more often than an actuarially determined average (as determined under regulations of the Secretary) and enrollment during an open enrollment period of an additional number of such individuals will jeopardize its economic viability, or

(B) if it maintained an open enrollment period it would not be able to comply with the requirements of paragraph (3),

the Secretary may waive compliance by the organization with the open enrollment requirement of this paragraph for not more than three consecutive twelve-month periods and may provide additional waivers to that organization if it makes the demonstration required by subparagraph (A) or (B);

(5) not expel or refuse to re-enroll any member because of his health status or his requirements for health services;

(6) be organized in such a manner that assures that (A) at least one-third of the membership of the policymaking body of the health maintenance organization will be members of the organization, and (B) there will be equitable representation on such body of members from medically underserved populations served by the organization;

(7) be organized in such a manner that provides meaningful procedures for hearing and resolving grievances between the health maintenance organization (including the medical group or groups and other health delivery entities providing health services for the organization) and the members of the organization;

(8) have organizational arrangements, established in accordance with regulations of the Secretary, for an ongoing quality assurance program for its health services which program (A) stresses health outcomes, and (B) provides review by physicians and other health professionals of the process followed in the provision of health services;

(9) provide medical social services for its members and encourage and actively provide for its members health education services, education in the appropriate use of health services, and education in the contribution each member can make to the maintenance of his own health;

(10) provide, or make arrangements for, continuing education for its health professional staff; and

(11) provide, in accordance with regulations of the Secretary (including safeguards concerning the confidentiality of the doctor-patient relationship), an effective procedure for developing, compiling, evaluating, and reporting to the Secretary, statistics and other information (which the Secretary shall publish and disseminate on an annual basis and which the health maintenance organization shall disclose, in a manner acceptable to the Secretary, to its members and the general public) relating to (A) the cost of its operations, (B) the patterns of utilization of its services, (C) the availability, accessibility, and acceptability of its services, (D) to the extent practical, developments in the health status of its members, and (E) such other matters as the Secretary may require.

(July 1, 1944, ch. 373, title XIII, § 1301, as added Dec. 29, 1973, Pub. L. 93–222, § 2, 87 Stat. 914.)

(f) Payments.

(1) The amount to be paid by the United States under a grant made or contract entered into, under subsection (a) of this section for a planning project, and (except as provided in paragraph (3) of this subsection) the amount of principal of a loan for a planning project which may be guaranteed under such subsection, shall be determined by the Secretary, except that (A) the amount to be paid by the United States under any single grant or contract, and the amount of principal of any single loan guaranteed under such subsection, may not exceed $125,000, and (B) the aggregate of the amounts to be paid for any project by the United States under grants or contracts, or both, under such subsection, and the aggregate amount of principal of loans guaranteed under such subsection for any project, may not exceed the greater of (i) 90 per centum of the cost of such project (as determined under regulations of the Secretary), or (ii) in the case of a project for a health maintenance organization which will serve a medically underserved population, such greater percentage (up to 100 per centum) of such cost as the Secretary may prescribe if he determines that the ceiling on the grants, contracts, and loan guarantees (or any combination thereof) for such project should be determined by such greater percentage.

§ 300e–7. General provisions relating to loan guarantees and loans.

(a) Conditions.

(1) The Secretary may not approve an application for a loan guarantee under this subchapter unless he determines that (A) the terms, conditions, security (if any), and schedule and amount of repayments with respect to the loan are sufficient to protect the financial interests of the United States and are otherwise reasonable, including a determination that the rate of interest does not exceed such per centum per annum on the principal obligation outstanding as the Secretary determines to be reasonable, taking into account the range of interest rates prevailing in the private market for similar loans and the risks assumed by the United States, and (B) the loan would not be available on reasonable terms and conditions without the guarantee under this subchapter.

(2)(A) The United States shall be entitled to recover from the applicant for a loan guarantee under this subchapter the amount of any payment made pursuant to such guarantee, unless the Secretary for good cause waives such right of recovery; and, upon making any such payment, the United States shall be subrogated to all of the rights of the recipient of the payments with respect to which the guarantee was made.

(B) To the extent permitted by subparagraph (C), any terms and conditions applicable to a loan guarantee under this subchapter (including terms and conditions imposed under subparagraph (D)) may be modified by the Secretary to the extent he determines it to be consistent with the financial interest of the United States.

(C) Any loan guarantee made by the Secretary under this subchapter shall be incontestable (i) in the hands of an applicant on whose behalf such guarantee is made unless the applicant engaged in fraud or misrepresentation in securing such guarantee, and (ii) as to any person (or his successor in interest) who makes or contracts to make a loan to such applicant in reliance thereon unless such person (or his successor in interest) engaged in fraud or misrepresentation in making or contracting to make such loan.

(D) Guarantees of loans under this subchapter shall be subject to such further terms and conditions as the Secretary determines to be necessary to assure that the purposes of this subchapter will be achieved.

(b) Application requirements.

(1) The Secretary may not approve an application for a loan under this subchapter unless—

(A) the Secretary is reasonably satisfied that the applicant therefor will be able to make payments of principal and interest thereon when due, and

(B) the applicant provides the Secretary with reasonable assurances that there will be available to it such additional funds as may be necessary to complete the project or undertaking with respect to which such loan is requested.

(2) Any loan made under this subchapter shall (A) have such security, (B) have such maturity date, (C) be repayable in such installments, (D) bear interest at a rate comparable to the current rate of interest prevailing, on the date the loan is made, with respect to loans guaranteed under this subchapter, and (E) be subject to such other terms and conditions (including provisions for recovery in case of default) as the Secretary determines to be necessary to carry out the purposes of this subchapter while adequately protecting the financial interests of the United States.

(3) The Secretary may, for good cause but with due regard to the financial interests of the United States, waive any right of recovery which he has by reason of the failure of a borrower to make payments of principal of and interest on a loan made under this subchapter except that if such loan is sold and guaranteed, any such waiver shall have no effect upon the Secretary's guarantee of timely payment of principal and interest.

(c) Sale of loans.

(1) The Secretary may from time to time, but with due regard to the financial interests of the United States, sell loans made by him under this subchapter.

(2) The Secretary may agree, prior to his sale of any such loan, to guarantee to the purchaser (and any successor in interest of the purchaser) compliance by the borrower with the terms and conditions of such loan. Any such agreement shall contain such terms and conditions as the Secretary considers necessary to protect the financial interests of the United States or as otherwise appropriate. Any such agreement may (A) provide that the Secretary shall act as agent of any such purchaser for the purpose of collecting from the borrower to which such loan was made and paying over to such purchaser, any payments of principal and interest payable by such organization under such loan; and (B) provide for the repurchase by the Secretary of any such loan on such terms and conditions as may be specified in the agreement. The full faith and credit of the United States is pledged to the payment of all amounts which may be required to be paid under any guarantee under this paragraph.

(3) After any loan under this subchapter to a public health maintenance organization has been sold and guaranteed under this subsection, interest paid on such loan which is received by the purchaser thereof (or his successor in interest) shall be included in the gross income of the purchaser of the loan (or his successor in interest) for the purpose of chapter 1 of the Internal Revenue Code of 1954.

(4) Amounts received by the Secretary as proceeds from the sale of loans under this subsection shall be deposited in the loan fund established under subsection (e) of this section.

(d) Loan guarantee fund.

(1) There is established in the Treasury a loan guarantee fund (hereinafter in this subsection referred to as the "fund") which shall be available to the Secretary without fiscal year limitation, in such amounts as may be specified from time to time in appropriation Acts, to enable him to discharge his responsibilities under loan guarantees issued by him under this subchapter. There are authorized to be appropriated from time to time such amounts as may be necessary to provide the sums required for the fund. To the extent authorized in appropriation Acts, there shall also be deposited in the fund amounts received by the Secretary in connection with loan guarantees under this subchapter and other property or assets derived by him from his operations respecting such loan guarantees, including any money derived from the sale of assets.

(2) If at any time the sums in the funds are insufficient to enable the Secretary to discharge his responsibilities under guarantees issued by him under this subchapter, he is authorized to issue to the Secretary of the Treasury notes or other obligations in such forms and denominations, bearing such maturities, and subject to such terms and conditions, as may be prescribed by the Secretary with the approval of the Secretary of the Treasury. Such notes or other obligations shall bear interest at a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States of comparable maturities during the month preceding the issuance of the notes or other obligations. The Secretary of the Treasury shall purchase any notes and other obligations issued under this paragraph and for that purpose he may use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, and the purposes for which the securities may be issued under that Act are extended to include any purchase of such notes and obligations. The Secretary of the Treasury may at any time sell any of the notes or other obligations acquired by him under this paragraph. All redemptions, purchases, and sales by the Secretary of the Treasury of such notes or other obligations shall be treated as public transactions of the United States. Sums borrowed under this paragraph shall be deposited in the fund and redemption of such notes and obligations shall be made by the Secretary from the fund.

(e) Loan fund.

There is established in the Treasury a loan fund (hereinafter in this subsection referred to as the "fund") which shall be available to the Secretary without fiscal year limitation, in such amounts as may be specified from time to time in appropriation Acts, to enable him to make loans under this subchapter. There shall also be deposited in the fund amounts received by the Secretary as interest payments and repayment of principal on loans made under this subchapter and other property or assets derived by him from his operations respecting such loans, from the sale of loans under subsection (c) of this section, or from the sale of assets. (3) The interim primary regulations first promulgated under paragraph (1) shall take effect eighteen months after the date of their promulgation.

(b) Recommended maximum contaminant levels and list of contaminants with adverse effect but of undetermined levels: publication of proposals in Federal Register and establishment of recommended levels and list; revised primary regulations: publication of proposed regulations in Federal Register, promulgation, requirements, "feasible" defined, amendments, triennial review, effective date, supersedure of interim primary regulations.

(1)(A) Within 10 days of the date the report on the study conducted pursuant to subsection (e) of this section is submitted to Congress, the Administrator shall publish in the Federal Register, and provide opportunity for comment on, the—

(i) proposals in the report for recommended maximum contaminant levels for national primary drinking water regulations, and

(ii) list in the report of contaminants the levels of which in drinking water cannot be determined but which may have an adverse effect on the health of persons.

(B) Within 90 days after the date the Administrator makes the publication required by subparagraph (A), he shall by rule establish recommended maximum contaminant levels for each contaminant which, in his judgment based on the report on the study conducted pursuant to subsection (e) of this section, may have any adverse effect on the health of persons. Each such recommended maximum contaminant level shall be set at a level at which, in the Administrator's judgment based on such report, no known or anticipated adverse effects on the health of persons occur and which allows an adequate margin of safety. In addition, he shall, on the basis of the report on the study conducted pursuant to subsection (e) of this section, list in the rules under this subparagraph any contaminant the level of which cannot be accurately enough measured in drinking water to establish a recommended maximum contaminant level and which may have any adverse effect on the health of persons. Based on information available to him, the Administrator

may by rule change recommended levels established under this subparagraph or change such list.

(2) On the date the Administrator establishes pursuant to paragraph (1)(B) recommended maximum contaminant levels he shall publish in the Federal Register proposed revised national primary drinking water regulations (meeting the requirements of paragraph (3)). Within 180 days after the date of such proposed regulations, he shall promulgate such revised drinking water regulations with such modifications as he deems appropriate.

(3) Revised national primary drinking water regulations promulgated under paragraph (2) of this subsection shall be primary drinking water regulations which specify a maximum contaminant level or require the use of treatment techniques for each contaminant for which a recommended maximum contaminant level is established or which is listed in a rule under paragraph (1)(B). The maximum contaminant level specified in a revised national primary drinking water regulation for a contaminant shall be as close to the recommended maximum contaminant level established under paragraph (1)(B) for such contaminant as is feasible. A required treatment technique for a contaminant for which a recommended maximum contaminant level has been established under paragraph (1)(B) shall reduce such contaminant to a level which is as close to the recommended maximum contaminant level for such contaminant as is feasible. A required treatment technique for a contaminant which is listed under paragraph (1)(B) shall require treatment necessary in the Administrator's judgment to prevent known or anticipated adverse effects on the health of persons to the extent feasible. For purposes of this paragraph, the term "feasible" means feasible with the use of the best technology, treatment techniques, and other means, which the Administrator finds are generally available (taking cost into consideration).

(4) Revised national primary drinking water regulations shall be amended whenever changes in technology, treatment techniques, and other means permit greater protection of the health of persons, but in any event such regulations shall be reviewed at least once every 3 years.

(5) Revised national primary drinking water regulations promulgated under this subsection (and amendments thereto) shall take effect eighteen months after the date of their promulgation. Regulations under subsection (a) of this section shall be superseded by regulations under this subsection to the extent provided by the regulations under this subsection.

(6) No national primary drinking water regulation may require the addition of any substance for preventive health care purposes unrelated to contamination of drinking water.

(c) Secondary regulations; publication of proposed regulations; promulgation; amendments.

The Administrator shall publish proposed national secondary drinking water regulations within 270 days after December 16, 1974. Within 90 days after publication of any such regulation, he shall promulgate such regulation with such modifications as he deems appropriate. Regulations under this subsection may be amended from time to time.

(d) Regulations; public hearings; administrative consultations.

Regulations under this section shall be prescribed in accordance with section 553 of Title 5 (relating to rulemaking), except that the Administrator shall provide opportunity for public hearing prior to promulgation of such regulations. In proposing and promulgating regulations under this section, the Administrator shall consult with the Secretary and the National Drinking Water Advisory Council.

(e) Study; maximum contaminant level determination; adverse effect of contaminants of undetermined levels; report to Congress; funds.

(1) The Administrator shall enter into appropriate arrangements with the National Academy of Sciences (or with another independent scientific organization if appropriate arrangements cannot be made with such Academy) to conduct a study to determine (A) the maximum contaminant levels which should be recommended under subsection (b)(2) of this section in order to protect the health of persons from any known or anticipated adverse effects, and (B) the existence of any contaminants the levels of which in drinking water cannot be determined but which may have an adverse effect on the health of persons.

(2) The result of the study shall be reported to Congress no later than 2 years after December 16, 1974. The report shall contain (A) a summary and evaluation of relevant publications and unpublished studies; (B) a statement of methodologies and assumptions for estimating the levels at which adverse health effects may occur; (C) a statement of methodologies and assumptions for estimating the margin of safety which should be incorporated in the national primary drinking water regulations; (D) proposals for recommended maximum contaminant levels for national primary drinking water regulations, based on the methodologies, assumptions, and studies referred to in clauses (A), (B), and (C) and in paragraph (4); (E) a list of contaminants the level of which in drinking water cannot be determined but which may have an adverse effect on the health of persons; and (F) recommended studies and test protocols for future research on the health effects of drinking water contaminants, including a list of the major research priorities and estimated costs necessary to conduct such priority research.

(3) In developing its proposals for recommended maximum contaminant levels under paragraph (2)(D) the National Academy of Sciences (or other organization preparing the report) shall evaluate and explain (separately and in composite) the impact of the following considerations:

(A) The existence of groups or individuals in the population which are more susceptible to adverse effects than the normal healthy adult.

(B) The exposure to contaminants in other media than drinking water (including exposures in food, in the ambient air, and in occupational settings) and the resulting body burden of contaminants.

(C) Synergistic effects resulting from exposure to or interaction by two or more contaminants.

(D) The contaminant exposure and body burden levels which alter physiological function or structure in a manner reasonably suspected of increasing the risk of illness.

(4) In making the study under this subsection, the National Academy of Sciences (or other organization) shall collect and correlate (A) morbidity and mortality data and (B) monitored data on the quality of drinking water. Any conclusions based on such correlation shall be included in the report of the study.

(5) Neither the report of the study under this subsection nor any draft of such report shall be submitted to the Office of Management and Budget or to any other Federal agency (other than the Environmental Protection Agency) prior to its submission to Congress.

(6) Of the funds authorized to be appropriated to the Administrator by this subchapter, such amounts as may be required shall be available to carry out the study and to make the report directed by paragraph (2) of this subsection. (July 1, 1944, ch. 373, title XIV, § 1412, as added Dec. 16, 1974, Pub. L. 93–523, § 2(a), 88 Stat. 1662.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 300f, 300g–2, 300g–3, 300g–4, 300g–5, 300j–1, 300j–2, 300j–3, 300j–4, 300j–6, 300j–7 of this title; title 21 section 349.

§ 300g–2. State primary enforcement responsibility; regulations; notice and hearing; publication in Federal Register; applications.

(a) For purposes of this subchapter, a State has primary enforcement responsibility for public water systems during any period for which the Administrator determines (pursuant to regulations prescribed under subsection (b) of this section) that such State—

(1) has adopted drinking water regulations which (A) in the case of the period beginning on the date the national interim primary drinking water regulations are promulgated under section 300g–1 of this title and ending on the date such regulations take effect are no less stringent than such regulations, and (B) in the case of the period after such effective date are no less stringent than the interim and revised national primary drinking water regulations in effect under such section;

(2) has adopted and is implementing adequate procedures for the enforcement of such State regulations, including conducting such monitoring and making such inspections as the Administrator may require by regulation;

(3) will keep such records and make such reports with respect to its activities under paragraphs (1) and (2) as the Administrator may require by regulation;

(4) if it permits variances or exemptions, or both, from the requirements of its drinking water regulations which meet the requirements of paragraph (1), permits such variances and exemptions under conditions and in a manner which is not less stringent than the conditions under, and the manner in which variances and exemptions may be granted under sections 300g–4 and 300g–5 of this title;

(5) has adopted and can implement an adequate plan for the provision of safe drinking water under emergency circumstances.

(b)(1) The Administrator shall, by regulation (proposed within 180 days of December 16, 1974), prescribe the manner in which a State may apply to the Administrator for a determination that the requirements of paragraphs (1), (2), (3), and (4) of subsection (a) of this section are satisfied with respect to the State, the manner in which the determination is made, the period for which the determination will be effective, and the manner in which the Administrator may determine that such requirements are no longer met. Such regulations shall require that before a determination of the Administrator that such requirements are met or are no longer met with respect to a State may become effective, the Administrator shall notify such State of the determination and the reasons therefor and shall provide an opportunity for public hearing on the determination. Such regulations shall be promulgated (with such modifications as the Administrator deems appropriate) within 90 days of the publication of the proposed regulations in the Federal Register. The Administrator shall promptly notify in writing the chief executive officer of each State of the promulgation of regulations under this paragraph. Such notice shall contain a copy of the regulations and shall specify a State's authority under this subchapter when it is determined to have primary enforcement responsibility for public water systems.

(2) When an application is submitted in accordance with the Administrator's regulations under paragraph (1), the Administrator shall within 90 days of the date on which such application is submitted (A) make the determination applied for, or (B) deny the application and notify the applicant in writing of the reasons for his denial. (July 1, 1944, ch. 373, title XIV, § 1413, as added Dec. 16, 1974, Pub. L. 93–523, § 2(a), 88 Stat. 1665.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 300g–3, 300j–2, 300j–7 of this title.

§ 300g–3. Failure of State to assure enforcement of drinking water regulations.

(a) Notice to State; public notice; civil action, conditions.

(1)(A) Whenever the Administrator finds during a period during which a State has primary enforcement responsibility for public water systems (within the meaning of section 300g–2(a) of this title) that any public water system—

(i) for which a variance under section 300g–4 or an exemption under section 300g–5 of this title is not in effect, does not comply with any national primary drinking water regulation in effect under section 300g–1 of this title, or

(ii) for which a variance under section 300g–4 or an exemption under section 300g–5 of this title is in effect, does not comply with any schedule or other requirement imposed pursuant thereto,

he shall so notify the State and provide such advice and technical assistance to such State and public water system as may be appropriate to bring the

system into compliance with such regulation or requirement by the earliest feasible time.

(B) If the Administrator finds such failure to comply extends beyond the thirtieth day after the date of the notice given pursuant to subparagraph (A), he shall give public notice of such finding and request the State to report within fifteen days from the date of such public notice as to the steps being taken to bring the system into compliance (including reasons for anticipated steps to be taken to bring the system into compliance and for any failure to take steps to bring the system into compliance). If—

(i) such failure to comply extends beyond the sixtieth day after the date of the notice given pursuant to subparagraph (A); and

(ii) (α) the State fails to submit the report requested by the Administrator within the time period prescribed by the preceding sentence; or

(β) The State submits such report within such period but the Administrator, after considering the report, determines that the State abused its discretion in carrying out primary enforcement responsibility for public water systems by both—

(I) failing to implement by such sixtieth day adequate procedures to bring the system into compliance by the earliest feasible time, and

(II) failing to assure by such day the provision through alternative means of safe drinking water by the earliest feasible time;

the Administrator may commence a civil action under subsection (b) of this section.

(2) Whenever, on the basis of information available to him, the Administrator finds during a period during which a State does not have primary enforcement responsibility for public water systems that a public water system in such State—

(A) for which a variance under section 300g–4(a)(2) or an exemption under section 300g–5(f) of this title is not in effect, does not comply with any national primary drinking water regulation in effect under section 300g–1 of this title, or

(B) for which a variance under section 300g–4(a)(2) or an exemption under section 300g–5 of this title is in effect, does not comply with any schedule or other requirement imposed pursuant thereto,

he may commence a civil action under subsection (b) of this section.

(b) Judicial determinations in appropriate Federal district courts; civil penalties; separate violations.

The Administrator may bring a civil action in the appropriate United States district court to require compliance with a national primary drinking water regulation or with any schedule or other requirement imposed pursuant to a variance or exemption granted under section 300g–4 or 300g–5 of this title if—

(1) authorized under paragraph (1) or (2) of subsection (a), or

(2) if requested by (A) the chief executive officer of the State in which is located the public water system which is not in compliance with such regulation or requirement, or (B) the agency of such State which has jurisdiction over compliance by public water systems in the State with national primary drinking water regulations or State drinking water regulations.

The court may enter, in an action brought under this subsection, such judgment as protection of public health may require, taking into consideration the time necessary to comply and the availability of alternative water supplies; and, if the court determines that there has been a willful violation of the regulation or schedule or other requirement with respect to which the action was brought, the court may, taking into account the seriousness of the violation, the population at risk, and other appropriate factors, impose on the violator a civil penalty of not to exceed $5,000 for each day in which such violation occurs.

(c) Notice of owner or operator of public water system to persons served; regulations for form and manner of notice; penalties.

Each owner or operator of a public water system shall give notice to the persons served by it—

(1) of any failure on the part of the public water system to—

(A) comply with an applicable maximum contaminant level or treatment technique requirement of, or a testing procedure prescribed by, a national primary drinking water regulation, or

(B) perform monitoring required by section 300j–4(a) of this title, and

(2) if the public water system is subject to a variance granted under section 300g–4(a)(1)(A) or 300g–4(a)(2) of this title for an inability to meet a maximum contaminant level requirement or is subject to an exemption granted under section 300g–5 of this title, of—

(A) the existence of such variance or exemption, and

(B) any failure to comply with the requirements of any schedule prescribed pursuant to the variance or exemption.

The Administrator shall by regulation prescribe the form and manner for giving such notice. Such notice shall be given not less than once every 3 months, shall be given by publication in a newspaper of general circulation serving the area served by each such water system (as determined by the Administrator), shall be furnished to the other communications media serving such area, and shall be furnished to the communications media as soon as practicable after the discovery of the violation with respect to which the notice is required. If the water bills of a public water system are issued more often than once every 3 months, such notice shall be included in at least one water bill of the system every 3 months, and if a public water system issues its water bills less often than once every 3 months, such notice shall be included in each of the water bills issued by the system. Any person who willfully violates this subsection or regulations thereunder shall be fined not more than $5,000.

(d) Notice of noncompliance with secondary drinking water regulations.

Whenever, on the basis of information available to him, the Administrator finds that within a reasonable time after national secondary drinking water regulations have been promulgated, one or more

public water systems in a State do not comply with such secondary regulations, and that such noncompliance appears to result from a failure of such State to take reasonable action to assure that public water systems throughout such State meet such secondary regulations, he shall so notify the State.

(e) State authority to adopt or enforce laws or regulations respecting drinking water regulations or public water systems unaffected.

Nothing in this subchapter shall diminish any authority of a State or political subdivision to adopt or enforce any law or regulation respecting drinking water regulations or public water systems, but no such law or regulation shall relieve any person of any requirement otherwise applicable under this subchapter.

(f) Notice and public hearing; availability of recommendations transmitted to State and public water system.

If the Administrator makes a finding of noncompliance (described in subparagraph (A) or (B) of subsection (a)(1) of this section) with respect to a public water system in a State which has primary enforcement responsibility, the Administrator may, for the purpose of assisting that State in carrying out such responsibility and upon the petition of such State or public water system or persons served by such system, hold, after appropriate notice, public hearings for the purpose of gathering information from technical or other experts, Federal, State, or other public officials, representatives of such public water system, persons served by such system, and other interested persons on—

(1) the ways in which such system can within the earliest feasible time be brought into compliance with the regulation or requirement with respect to which such finding was made, and

(2) the means for the maximum feasible protection of the public health during any period in which such system is not in compliance with a national primary drinking water regulation or requirement applicable to a variance or exemption.

On the basis of such hearings the Administrator shall issue recommendations which shall be sent to such State and public water system and shall be made available to the public and communications media. (July 1, 1944, ch. 373, title XIV, § 1414, as added Dec. 16, 1974, Pub. L. 93–523, § 2(a), 88 Stat. 1666.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 300g–4, 300g–5, 300j–7 of this title.

§ 300g–4. Variances.

(a) Characteristics of raw water sources; specific treatment technique; notice to Administrator, reasons for variance; compliance, enforcement; approval or revision of schedules and revocation of variances; review of variances and schedules; publication in Federal Register, notice and results of review; notice to State; considerations respecting abuse of discretion in granting variances or failing to prescribe schedules; State corrective action; authority of Administrator in a State without primary enforcement responsibility; alternative treatment techniques.

Notwithstanding any other provision of this part, variances from national primary drinking water regulations may be granted as follows:

(1)(A) A State which has primary enforcement responsibility for public water systems may grant one or more variances from an applicable national primary drinking water regulation to one or more public water systems within its jurisdiction which, because of characteristics of the raw water sources which are reasonably available to the systems, cannot meet the requirements respecting the maximum contaminant levels of such drinking water regulation despite application of the best technology, treatment techniques, or other means, which the Administrator finds are generally available (taking costs into consideration). Before a State may grant a variance under this subparagraph, the State must find that the variance will not result in an unreasonable risk to health. If a State grants a public water system a variance under this subparagraph, the State shall prescribe within one year of the date the variance is granted, a schedule for—

(i) compliance (including increments of progress) by the public water system with each containment level requirement with respect to which the variance was granted, and

(ii) implementation by the public water system of such control measures as the State may require for each contaminant, subject to such contaminant level requirement, during the period ending on the date compliance with such requirement is required.

Before a schedule prescribed by a State pursuant to this subparagraph may take effect, the State shall provide notice and opportunity for a public hearing on the schedule. A notice given pursuant to the preceding sentence may cover the prescribing of more than one such schedule and a hearing held pursuant to such notice shall include each of the schedules covered by the notice. A schedule prescribed pursuant to this subparagraph for a public water system granted a variance shall require compliance by the system with each contaminant level requirement with respect to which the variance was granted as expeditiously as practicable (as the State may reasonably determine).

(B) A State which has primary enforcement responsibility for public water systems may grant to one or more public water systems within its jurisdiction one or more variances from any provision of a national primary drinking water regulation which requires the use of a specified treatment technique with respect to a contaminant if the public water system applying for the variance demonstrates to the satisfaction of the State that such treatment technique is not necessary to protect the health of persons because of the nature of the raw water source of such system. A variance granted under this subparagraph shall be conditioned on such monitoring and other requirements as the Administrator may prescribe.

(C) Before a variance proposed to be granted by a State under subparagraph (A) or (B) may take effect, such State shall provide notice and opportunity for public hearing on the proposed variance. A notice given pursuant to the preceding sentence may cover the granting of more than one variance and a hearing held pursuant to such

notice shall include each of the variances covered by the notice. The State shall promptly notify the Administrator of all variances granted by it. Such notification shall contain the reason for the variance (and in the case of a variance under subparagraph (A), the basis for the finding required by that subparagraph before the granting of the variance) and documentation of the need for the variance.

(D) Each public water system's variance granted by a State under subparagraph (A) shall be conditioned by the State upon compliance by the public water system with the schedule prescribed by the State pursuant to that subparagraph. The requirements of each schedule prescribed by a State pursuant to that subparagraph shall be enforceable by the State under its laws. Any requirement of a schedule on which a variance granted under that subparagraph is conditioned may be enforced under section 300g–3 of this title as if such requirement was part of a national primary drinking water regulation.

(E) Each schedule prescribed by a State pursuant to subparagraph (A) shall be deemed approved by the Administrator unless the variance for which it was prescribed is revoked by the Administrator under subparagraph (G) or the schedule is revised by the Administrator under such subparagraph.

(F) Not later than 18 months after the effective date of the interim national primary drinking water regulations the Administrator shall complete a comprehensive review of the variances granted under subparagraph (A) (and schedules prescribed pursuant thereto) and under subparagraph (B) by the States during the one-year period beginning on such effective date. The Administrator shall conduct such subsequent reviews of variances and schedules as he deems necessary to carry out the purposes of this subchapter, but each subsequent review shall be completed within each 3-year period following the completion of the first review under this subparagraph. Before conducting any review under this subparagraph, the Administrator shall publish notice of the proposed review in the Federal Register. Such notice shall (i) provide information respecting the location of data and other information respecting the variances to be reviewed (including data and other information concerning new scientific matters bearing on such variances), and (ii) advise of the opportunity to submit comments on the variances reviewed and on the need for continuing them. Upon completion of any such review, the Administrator shall publish in the Federal Register the results of his review together with findings responsive to comments submitted in connection with such review.

(G)(i) If the Administrator finds that a State has, in a substantial number of instances, abused its discretion in granting variances under subparagraph (A) or (B) or that in a substantial number of cases the State has failed to prescribe schedules in accordance with subparagraph (A), the Administrator shall notify the State of his findings. In determining if a State has abused its discretion in granting variances in a substantial number of instances, the Administrator shall consider the number of persons who are affected by the variances and if the requirements applicable to the granting of the variances were complied with. A notice under this clause shall—

(I) identify each public water system with respect to which the finding was made,

(II) specify the reasons for the finding, and

(III) as appropriate, propose revocations of specific variances or propose revised schedules or other requirements for specific public water systems granted variances, or both.

(ii) The Administrator shall provide reasonable notice and public hearing on the provisions of each notice given pursuant to clause (i) of this subparagraph. After a hearing on a notice pursuant to such clause, the Administrator shall (I) rescind the finding for which the notice was given and promptly notify the State of such rescission, or (II) promulgate (with such modifications as he deems appropriate) such variance revocations and revised schedules or other requirements proposed in such notice as he deems appropriate. Not later than 180 days after the date a notice is given pursuant to clause (i) of this subparagraph, the Administrator shall complete the hearing on the notice and take the action required by the preceding sentence.

(iii) If a State is notified under clause (i) of this subparagraph of a finding of the Administrator made with respect to a variance granted a public water system within that State or to a schedule or other requirement for a variance and if, before a revocation of such variance or a revision of such schedule or other requirement promulgated by the Administrator takes effect, the State takes corrective action with respect to such variance or schedule or other requirement which the Administrator determines makes his finding inapplicable to such variance or schedule or other requirement, the Administrator shall rescind the application of his finding to that variance on schedule or other requirement. No variance revocation or revised schedule or other requirement may take effect before the expiration of 90 days following the date of the notice in which the revocation or revised schedule or other requirement was proposed.

(2) If a State does not have primary enforcement responsibility for public water systems, the Administrator shall have the same authority to grant variances in such State as the State would have under paragraph (1) if it had primary enforcement responsibility.

(3) The Administrator may grant a variance from any treatment technique requirement of a national primary drinking water regulation upon a showing by any person that an alternative treatment technique not included in such requirement is at least as efficient in lowering the level of the contaminant with respect to which such requirement was prescribed. A variance under this paragraph shall be conditioned on the use of the alternative treatment technique which is the basis of the variance.

(b) Enforcement of schedule or other requirement.

Any schedule or other requirement on which a variance granted under paragraph (1)(B) or (2) of subsection (a) of this section is conditioned may be enforced under section 300g–3 of this title as if such schedule or other requirement was part of a national primary drinking water regulation.

(c) Applications for variances; regulations: reasonable time for acting.

If an application for a variance under subsection (a) of this section is made, the State receiving the application or the Administrator, as the case may be, shall act upon such application within a reasonable period (as determined under regulations prescribed by the Administrator) after the date of its submission.

(d) "Treatment technique requirement" defined.

For purposes of this section, the term "treatment technique requirement" means a requirement in a national primary drinking water regulation which specifies for a contaminant (in accordance with section 300f(1)(C)(ii) of this title) each treatment technique known to the Administrator which leads to a reduction in the level of such contaminant sufficient to satisfy the requirements of section 300g–1(b)(3) of this title. (July 1, 1944, ch. 373, title XIV, § 1415, as added Dec. 16, 1974, Pub. L. 93–523, § 2(a), 88 Stat. 1669.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 300g, 300g–2, 300g–3, 300j–2, 300j–7, 300j–8 of this title.

§ 300g–5. Exemptions.

(a) Requisite findings.

A State which has primary enforcement responsibility may exempt any public water system within the State's jurisdiction from any requirement respecting a maximum contaminant level or any treatment technique requirement, or from both, of an applicable national primary drinking water regulation upon a finding that—

(1) due to compelling factors (which may include economic factors), the public water system is unable to comply with such contaminant level or treatment technique requirement.

(2) the public water system was in operation on the effective date of such contaminant level or treatment technique requirement, and

(3) the granting of the exemption will not result in an unreasonable risk to health.

(b) Compliance schedule and implementation of control measures; notice and hearing; dates for compliance with schedule; compliance, enforcement; approval or revision of schedules and revocation of exemptions.

(1) If a State grants a public water system an exemption under subsection (a) of this section, the State shall prescribe, within one year of the date the exemption is granted, a schedule for—

(A) compliance (including increments of progress) by the public water system with each containment level requirement and treatment technique requirement with respect to which the exemption was granted, and

(B) implementation by the public water system of such control measures as the State may require for each contaminent, subject to such contaminant level requirement or treatment technique requirement, during the period ending on the date compliance with such requirement is required.

Before a schedule prescribed by a State pursuant to this subsection may take effect, the State shall provide notice and opportunity for a public hearing on the schedule. A notice given pursuant to the preceding sentence may cover the prescribing of more than one such schedule and a hearing held pursuant to such notice shall include each of the schedules covered by the notice.

(2)(A) A schedule prescribed pursuant to this subsection for a public water system granted an exemption under subsection (a) of this section shall require compliance by the system with each contaminant level and treatment technique requirement with respect to which the exemption was granted as expeditiously as practicable (as the State may reasonably determine) but (except as provided in subparagraph (B))—

(i) in the case of an exemption granted with respect to a contaminant level or treatment technique requirement prescribed by the interim national primary drinking water regulations promulgated under section 300g–1(a) of this title, not later than January 1, 1981; and

(ii) in the case of an exemption granted with respect to a contaminant level or treatment technique requirement prescribed by revised national primary drinking water regulations, not later than seven years after the date such requirement takes effect.

(B) Notwithstanding clauses (i) and (ii) of subparagraph (A) of this paragraph, the final date for compliance prescribed in a schedule prescribed pursuant to this subsection for an exemption granted for a public water system which (as determined by the State granting the exemption) has entered into an enforceable agreement to become a part of a regional public water system shall—

(i) in the case of a schedule prescribed for an exemption granted with respect to a contaminant level or treatment technique requirement prescribed by interim national primary drinking water regulations, be not later than January 1, 1983; and

(ii) in the case of a schedule prescribed for an exemption granted with respect to a contaminant level or treatment technique requirement prescribed by revised national primary drinking water regulations, be not later than nine years after such requirement takes effect.

(3) Each public water system's exemption granted by a State under subsection (a) of this section shall be conditioned by the State upon compliance by the public water system with the schedule prescribed by the State pursuant to this subsection. The requirements of each schedule prescribed by a State pursuant to this subsection shall be enforceable by the State under its laws. Any requirement of a schedule on which an exemption granted under this section is conditioned may be enforced under section 300g–3 of this title as if such requirement was part of a national primary drinking water regulation.

(4) Each schedule prescribed by a State pursuant to this subsection shall be deemed approved by the Administrator unless the exemption for which it was prescribed is revoked by the Administrator under subsection (d)(2) of this section or the schedule is revised by the Administrator under such subsection.

(c) Notice to Administrator; reasons for exemption.

Each State which grants an exemption under subsection (a) of this section shall promptly notify the Administrator of the granting of such exemption. Such notification shall contain the reasons for the exemption (including the basis for the finding required by subsection (a)(3) of this section before the exemption may be granted) and document the need for the exemption.

(d) Review of exemptions and schedules; publication in Federal Register, notice and results of review; notice to State; considerations respecting abuse of discretion in granting exemptions or failing to prescribe schedules; State corrective action.

(1) Not later than 18 months after the effective date of the interim national primary drinking water regulations the Administrator shall complete a comprehensive review of the exemptions granted (and schedules prescribed pursuant thereto) by the States during the one-year period beginning on such effective date. The Administrator shall conduct such subsequent reviews of exemptions and schedules as he deems necessary to carry out the purposes of this subchapter, but each subsequent review shall be completed within each 3-year period following the completion of the first review under this subparagraph. Before conducting any review under this subparagraph, the Administrator shall publish notice of the proposed review in the Federal Register. Such notice shall (A) provide information respecting the location of data and other information respecting the exemptions to be reviewed (including data and other information concerning new scientific matters bearing on such exemptions), and (B) advise of the opportunity to submit comments on the exemptions reviewed and on the need for continuing them. Upon completion of any such review, the Administrator shall publish in the Federal Register the results of his review, together with findings responsive to comments submitted in connection with such review.

(2)(A) If the Administrator finds that a State has, in a substantial number of instances, abused its discretion in granting exemptions under subsection (a) of this section or failed to prescribe schedules in accordance with subsection (b) of this section, the Administrator shall notify the State of his finding. In determining if a State has abused its discretion in granting exemptions in a substantial number of instances, the Administrator shall consider the number of persons who are affected by the exemptions and if the requirements applicable to the granting of the exemptions were complied with. A notice under this subparagraph shall—

(i) identify each exempt public water system with respect to which the finding was made,

(ii) specify the reasons for the finding, and

(iii) as appropriate, propose revocations of specific exemptions or propose revised schedules for specific exempt public water systems, or both.

(B) The Administrator shall provide reasonable notice and public hearing on the provisions of each notice given pursuant to subparagraph (A). After a hearing on a notice pursuant to subparagraph (A), the Administrator shall (i) rescind the finding for which the notice was given and promptly notify the State of such rescission, or (ii) promulgate (with such modifications as he deems appropriate) such exemption revocations and revised schedules proposed in such notice as he deems appropriate. Not later than 180 days after the date notice is given pursuant to subparagraph (A), the Administrator shall complete the hearing on the notice and take the action required by the preceding sentence.

(C) If a State is notified under subparagraph (A) of a finding of the Administrator made with respect to an exemption granted a public water system within that State or to a schedule prescribed pursuant to such an exemption and if before a revocation of such exemption or a revision of such schedule promulgated by the Administrator takes effect the State takes corrective action with respect to such exemption or schedule which the Administrator determines makes his finding inapplicable to such exemption or schedule, the Administrator shall rescind the application of his finding to that exemption or schedule. No exemption revocation or revised schedule may take effect before the expiration of 90 days following the date of the notice in which the revocation or revised schedule was proposed.

(e) "Treatment technique requirement" defined.

For purposes of this section, the term "treatment technique requirement" means a requirement in a national primary drinking water regulation which specifies for a contaminant (in accordance with section 300f(1)(C)(ii) of this title) each treatment technique known to the Administrator which leads to a reduction in the level of such contaminant sufficient to satisfy the requirements of section 300g–1(b)(3) of this title.

(f) Authority of Administrator in a State without primary enforcement responsibility.

If a State does not have primary enforcement responsibility for public water systems, the Administrator shall have the same authority to exempt public water systems in such State from maximum contaminant level requirements and treatment technique requirements under the same conditions and in the same manner as the State would be authorized to grant exemptions under this section if it had primary enforcement responsibility.

(g) Applications for exemptions; regulations: reasonable time for acting.

If an application for an exemption under this section is made, the State receiving the application or the Administrator, as the case may be, shall act upon such application within a reasonable period (as determined under regulations prescribed by the Administrator) after the date of its submission. (July 1, 1944, ch. 373, title XIV, § 1416, as added Dec. 16, 1974, Pub. L. 93–523, § 2(a), 88 Stat. 1672.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 300g, 300g–2, 300g–3, 300j–2, 300j–7, 300j–8 of this title.

PART C.—PROTECTION ON UNDERGROUND SOURCES OF DRINKING WATER

§ 300h. Regulations for State programs.

(a) Publication of proposed regulations; promulgation; amendments; public hearings; administrative consultations.

(1) The Administrator shall publish proposed regulations for State underground injection control programs within 180 days after December 16, 1974. Within 180 days after publication of such proposed regulations, he shall promulgate such regulations with such modifications as he deems appropriate. Any regulation under this subsection may be amended from time to time.

(2) Any regulation under this section shall be proposed and promulgated in accordance with section 553 of Title 5 (relating to rulemaking), except that the Administrator shall provide opportunity for public hearing prior to promulgation of such regulations. In proposing and promulgating regulations under this section the Administrator shall consult with the Secretary, the National Drinking Water Advisory Council, and other appropriate Federal entities and with interested State entities.

(b) Minimum requirements; restrictions.

(1) Regulations under subsection (a) of this section for State underground injection programs shall contain minimum requirements for effective programs to prevent underground injection which endangers drinking water sources within the meaning of subsection (d) (2) of this section. Such regulations shall require that a State program, in order to be approved under section 300h–1 of this title—

(A) shall prohibit, effective three years after December 16, 1974, any underground injection in such State which is not authorized by a permit issued by the State (except that the regulations may permit a State to authorize underground injection by rule);

(B) shall require (i) in the case of a program which provides for authorization of underground injection by permit, that the applicant for the permit to inject must satisfy the State that the underground injection will not endanger drinking water sources, and (ii) in the case of a program which provides for such an authorization by rule, that no rule may be promulgated which authorizes any underground injection which endangers drinking water sources;

(C) shall include inspection, monitoring, recordkeeping, and reporting requirements; and

(D) shall apply (i) as prescribed by section 300j–6 (b) of this title, to underground injections by Federal agencies, and (ii) to underground injections by any other person whether or not occurring on property owned or leased by the United States.

(2) Regulations of the Administrator under this section for State underground injection control programs may not prescribe requirements which interfere with or impede—

(A) the underground injection of brine or other fluids which are brought to the surface in connection with oil or natural gas production, or

(B) any underground injection for the secondary or tertiary recovery of oil or natural gas,

unless such requirements are essential to assure that underground sources of drinking water will not be endangered by such injection.

(c) Temporary permits; notice and hearing.

(1) The Administrator may, upon application of the Governor of a State which authorizes underground injection by means of permits, authorize such State to issue (without regard to subsection (b) (1) (B) (i) of this section) temporary permits for underground injection which may be effective until the, expiration of four years after December 16, 1974, if—

(A) the Administrator finds that the State has demonstrated that it is unable and could not reasonably have been able to process all permit applications within the time available;

(B) the Administrator determines the adverse effect on the environment of such temporary permits is not unwarranted;

(C) such temporary permits will be issued only with respect to injection wells in operation on the date on which such State's permit program approved under this part first takes effect and for which there was inadequate time to process its permit application; and

(D) the Administrator determines the temporary permits require the use of adequate safeguards established by rules adopted by him.

(2) The Administrator may, upon application of the Governor of a State which authorizes underground injection by means of permits, authorize such State to issue (without regard to subsection (b) (1) (B) (i) of this section), but after reasonable notice and hearing, one or more temporary permits each of which is applicable to a particular injection well and to the underground injection of a particular fluid and which may be effective until the expiration of four years after December 16, 1974, if the State finds, on the record of such hearing—

(A) that technology (or other means) to permit safe injection of the fluid in accordance with the applicable underground injection control program is not generally available (taking costs into consideration);

(B) that injection of the fluid would be less harmful to health than the use of other available means of disposing of waste or producing the desired product; and

(C) that available technology or other means have been employed (and will be employed) to reduce the volume and toxicity of the fluid and to minimize the potentially adverse effect of the injection on the public health.

(d) "Underground injection" defined; underground injection endangerment of drinking water sources.

For purposes of this part:

(1) The term "underground injection" means the subsurface emplacement of fluids by well injection.

(2) Underground injection endangers drinking water sources if such injection may result in the presence in underground water which supplies or

can reasonably be expected to supply any public water system of any contaminant, and if the presence of such contaminant may result in such system's not complying with any national primary drinking water regulation or may otherwise adversely affect the health of persons.

(July 1, 1944, ch. 373, title XIV, § 1421, as added Dec. 16, 1974, Pub. L. 93–523, § 2(a), 88 Stat. 1674.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 300h–1, 300j–2, 300j–7 of this title.

§ 300h–1. State primary enforcement responsibility.

(a) List of States in need of a control program; amendment of list.

Within 180 days after December 16, 1974, the Administrator shall list in the Federal Register each State for which in his judgment a State underground injection control program may be necessary to assure that underground injection will not endanger drinking water sources. Such list may be amended from time to time.

(b) State applications; notice to Administrator of compliance with revised or added requirements; approval or disapproval by Administrator; duration of State primary enforcement responsibility; public hearing.

(1)(A) Each State listed under subsection (a) of this section shall within 270 days after the date of promulgation of any regulation under section 300h of this title (or, if later, within 270 days after such State is first listed under subsection (a) of this section) submit to the Administrator an application which contains a showing satisfactory to the Administrator that the State—

(i) has adopted after reasonable notice and public hearings, and will implement, an underground injection control program which meets the requirements of regulations in effect under section 300h of this title; and

(ii) will keep such records and make such reports with respect to its activities under its underground injection control program as the Administrator may require by regulation.

(B) Within 270 days of any amendment of a regulation under section 300h of this title revising or adding any requirement respecting State underground injection control programs, each State listed under subsection (a) of this section shall submit (in such form and manner as the Administrator may require) a notice to the Administrator containing a showing satisfactory to him that the State underground injection control program meets the revised or added requirement.

(2) Within ninety days after the State's application under paragraph (1)(A) or notice under paragraph (1)(B) and after reasonable opportunity for presentation of views, the Administrator shall by rule either approve, disapprove, or approve in part and disapprove in part, the State's underground injection control program.

(3) If the Administrator approves the State's program under paragraph (2), the State shall have primary enforcement responsibility for underground water sources until such time as the Administrator determines, by rule, that such State no longer meets the requirements of clause (i) or (ii) of paragraph (1)(A) of this subsection.

(4) Before promulgating any rule under paragraph (2) or (3) of this subsection, the Administrator shall provide opportunity for public hearing respecting such rule.

(c) Program by Administrator for State without primary enforcement responsibility; restrictions.

If the Administrator disapproves a State's program (or part thereof) under subsection (b)(2) of this section, if the Administrator determines under subsection (b)(3) of this section that a State no longer meets the requirements of clause (i) or (ii) of subsection (b)(1)(A) of this section, or if a State fails to submit an application or notice before the date of expiration of the period specified in subsection (b)(1) of this section, the Administrator shall by regulation within 90 days after the date of such disapproval, determination, or expiration (as the case may be) prescribe (and may from time to time by regulation revise) a program applicable to such State meeting the requirements of section 300h(b) of this title. Such program may not include requirements which interfere with or impede—

(1) the underground injection of brine or other fluids which are brought to the surface in connection with oil or natural gas production, or

(2) any underground injection for the secondary or tertiary recovery of oil or natural gas,

unless such requirements are essential to assure that underground sources of drinking water will not be endangered by such injection. Such program shall apply in such State to the extent that a program adopted by such State which the Administrator determines meets such requirements is not in effect. Before promulgating any regulation under this section, the Administrator shall provide opportunity for public hearing respecting such regulation.

(d) "Applicable underground injection control program" defined.

For purposes of this subchapter, the term "applicable underground injection control program" with respect to a State means the program (or most recent amendment thereof) (1) which has been adopted by the State and which has been approved under subsection (b) of this section, or (2) which has been prescribed by the Administrator under subsection (c) of this section. (July 1, 1944, ch. 373, title XIV, § 1422, as added Dec. 16, 1974, Pub. L. 93–523, § 2(a), 88 Stat. 1676.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 300h, 300h–2, 300j–2, 300j–4 of this title.

§ 300h–2. Failure of State to assure enforcement of program.

(a) Notice to State and violator; public notice; civil action, conditions.

(1) Whenever the Administrator finds during a period during which a State has primary enforcement responsibility for underground water sources (within the meaning of section 300h–1(b)(3) of this title) that any person who is subject to a requirement of an applicable underground injection control program in such State is violating such re-

quirement, he shall so notify the State and the person violating such requirement. If the Administrator finds such failure to comply extends beyond the thirtieth day after the date of such notice, he shall give public notice of such finding and request the State to report within 15 days after the date of such public notice as to the steps being taken to bring such person into compliance with such requirement (including reasons for anticipated steps to be taken to bring such person into compliance with such requirement and for any failure to take steps to bring such person into compliance with such requirement). If—

(A) such failure to comply extends beyond the sixtieth day after the date of the notice given pursuant to the first sentence of this paragraph, and

(B) (i) the State fails to submit the report requested by the Administrator within the time period prescribed by the preceding sentence, or

(ii) the State submits such report within such period but the Administrator, after considering the report, determines that by failing to take necessary steps to bring such person into compliance by such sixtieth day the State abused its discretion in carrying out primary enforcement responsibility for underground water sources,

the Administrator may commence a civil action under subsection (b) (1) of this section.

(2) Whenever the Administrator finds during a period during which a State does not have primary enforcement responsibility for underground water sources that any person subject to any requirement of any applicable underground injection control program in such State is violating such requirement, he may commence a civil action under subsection (b) (1) of this section.

(b) Judicial determinations in appropriate Federal district courts; civil penalties; separate violations; penalties for willfull violations.

(1) When authorized by subsection (a) of this section, the Administrator may bring a civil action under this paragraph in the appropriate United States district court to require compliance with any requirement of an applicable underground injection control program. The court may enter such judgment as protection of public health may require, including, in the case of an action brought against a person who violates an applicable requirement of an underground injection control program and who is located in a State which has primary enforcement responsibility for underground water sources, the imposition of a civil penalty of not to exceed $5,000 for each day such person violates such requirement after the expiration of 60 days after receiving notice under subsection (a) (1) of this section.

(2) Any person who violates any requirement of an applicable underground injection control program to which he is subject during any period for which the State does not have primary enforcement responsibility for underground water sources (A) shall be subject to a civil penalty of not more than $5,000 for each day of such violation, or (B) if such violation is willful, such person may, in lieu of the civil penalty authorized by clause (B), be fined not more than $10,000 for each day of such violation.

(c) State authority to adopt or enforce laws or regulations respecting underground injection unaffected.

Nothing in this subchapter shall diminish any authority of a State or political subdivision to adopt or enforce any law or regulation respecting underground injection but no such law or regulation shall relieve any person of any requirement otherwise applicable under this subchapter. (July 1, 1944, ch. 373, title XIV, § 1423, as added Dec. 16, 1974, Pub. L. 93–523, § 2(a), 88 Stat. 1677.)

§ 300h–3. Interim regulation of underground injections.

(a) Necessity for well operation permit; designation of one aquifer areas.

(1) Any person may petition the Administrator to have an area of a State (or States) designated as an area in which no new underground injection well may be operated during the period beginning on the date of the designation and ending on the date on which the applicable underground injection control program covering such area takes effect unless a permit for the operation of such well has been issued by the Administrator under subsection (b) of this section. The Administrator may so designate an area within a State if he finds that the area has one aquifer which is the sole or principal drinking water source for the area and which, if contaminated, would create a significant hazard to public health.

(2) Upon receipt of a petition under paragraph (1) of this subsection, the Administrator shall publish it in the Federal Register and shall provide an opportunity to interested persons to submit written data, views, or arguments thereon. Not later than the 30th day following the date of the publication of a petition under this paragraph in the Federal Register, the Administrator shall either make the designation for which the petition is submitted or deny the petition.

(b) Well operation permits; publication in Federal Register; notice and hearing; issuance or denial; conditions for issuance.

(1) During the period beginning on the date an area is designated under subsection (a) of this section and ending on the date the applicable underground injection control program covering such area takes effect, no new underground injection well may be operated in such area unless the Administrator has issued a permit for such operation.

(2) Any person may petition the Administrator for the issuance of a permit for the operation of such a well in such an area. A petition submitted under this paragraph shall be submitted in such manner and contain such information as the Administrator may require by regulation. Upon receipt of such a petition, the Administrator shall publish it in the Federal Register. The Administrator shall give notice of any proceeding on a petition and shall provide opportunity for agency hearing. The Administrator shall act upon such petition on the record of any hearing held pursuant to the preceding sentence respecting such petition. Within 120 days of the publication in the Federal Register of a petition

submitted under this paragraph, the Administrator shall either issue the permit for which the petition was submitted or shall deny its issuance.

(3) The Administrator may issue a permit for the operation of a new underground injection well in an area designated under subsection (a) of this section only, if he finds that the operation of such well will not cause contamination of the aquifer of such area so as to create a significant hazard to public health. The Administrator may condition the issuance of such a permit upon the use of such control measures in connection with the operation of such well, for which the permit is to be issued, as he deems necessary to assure that the operation of the well will not contaminate the aquifer of the designated area in which the well is located so as to create a significant hazard to public health.

(c) Civil penalties; separate violations; penalties for willful violations; temporary restraining order or injunction.

Any person who operates a new underground injection well in violation of subsection (b) of this section, (1) shall be subject to a civil penalty of not more than $5,000 for each day in which such violation occurs, or (2) if such violation is willful, such person may, in lieu of the civil penalty authorized by clause (1), be fined not more than $10,000 for each day in which such violation occurs. If the Administrator has reason to believe that any person is violating or will violate subsection (b) of this section, he may petition the United States district court to issue a temporary restraining order or injunction (including a mandatory injunction) to enforce such subsection.

(d) "New underground injection well" defined.

For purposes of this section, the term "new underground injection well" means an underground injection well whose operation was not approved by appropriate State and Federal agencies before December 16, 1974.

(e) Areas with one aquifer; publication in Federal Register; commitments for Federal financial assistance.

If the Administrator determines, on his own initiative or upon petition, that an area has an aquifer which is the sole or principal drinking water source for the area and which, if contaminated, would create a significant hazard to public health, he shall publish notice of that determination in the Federal Register. After the publication of any such notice, no commitment for Federal financial assistance (through a grant, contract, loan guarantee, or otherwise) may be entered into for any project which the Administrator determines may contaminate such aquifer through a recharge zone so as to create a significant hazard to public health, but a commitment for Federal financial assistance may, if authorized under another provision of law, be entered into to plan or design the project to assure that it will not so contaminate the aquifer. (July 1, 1944, ch. 373, title XIV, § 1424, as added Dec. 16, 1974, Pub. L. 93–523, § 2(a), 88 Stat. 1678.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 300j–4 of this title.

PART D.—EMERGENCY POWERS

§ 300i. Emergency powers.

(a) Actions authorized against imminent and substantial endangerment to health.

Notwithstanding any other provision of this subchapter the Administrator, upon receipt of information that a contaminant which is present in or is likely to enter a public water system may present an imminent and substantial endangerment to the health of persons, and that appropriate State and local authorities have not acted to protect the health of such persons, may take such actions as he may deem necessary in order to protect the health of such persons. To the extent he determines it to be practicable in light of such imminent endangerment, he shall consult with the State and local authorities in order to confirm the correctness of the information on which action proposed to be taken under this subsection is based and to ascertain the action which such authorities are or will be taking. The action which the Administrator may take may include (but shall not be limited to) (1) issuing such orders as may be necessary to protect the health of persons who are or may be users of such system (including travelers), and (2) commencing a civil action for appropriate relief, including a restraining order or permanent or temporary injunction.

(b) Penalties for violations; separate offenses.

Any person who willfully violates or fails or refuses to comply with any order issued by the Administrator under subsection (a)(1) of this section may, in an action brought in the appropriate United States district court to enforce such order, be fined not more than $5,000 for each day in which such violation occurs or failure to comply continues. (July 1, 1944, ch. 373, title XIV, § 1431, as added Dec. 16, 1974, Pub. L. 93–523, § 2(a) 88 Stat. 1680.)

PART E.—GENERAL PROVISIONS

§ 300j. Assurances of availability of adequate supplies of chemicals necessary for treatment of water.

(a) Certification of need application.

If any person who uses chlorine activated carbon, lime, ammonia, soda ash, potassium permanganate, caustic soda, or other chemical or substance for the purpose of treating water in any public water system or in any public treatment works determines that the amount of such chemical or substance necessary to effectively treat such water is not reasonably available to him or will not be so available to him when required for the effective treatment of such water, such person may apply to the Administrator for a certification (hereinafter in this section referred to as a "certification of need") that the amount of such chemical or substance which such person requires to effectively treat such water is not reasonably available to him or will not be so available when required for the effective treatment of such water.

(b) Application requirements; publication in Federal Register; waiver; certification, issuance or denial.

(1) An application for a certification of need shall be in such form and submitted in such manner as the Administrator may require and shall (A) specify the

persons the applicant determines are able to provide the chemical or substance with respect to which the application is submitted, (B) specify the persons from whom the applicant has sought such chemical or substance, and (C) contain such other information as the Administrator may require.

(2) Upon receipt of an application under this section, the Administrator shall (A) publish in the Federal Register a notice of the receipt of the application and a brief summary of it, (B) notify in writing each person whom the President or his delegate (after consultation with the Administrator) determines could be made subject to an order required to be issued upon the issuance of the certification of need applied for in such application, and (C) provide an opportunity for the submission of written comments on such application. The requirements of the preceding sentence of this paragraph shall not apply when the Administrator for good cause finds (and incorporates the finding with a brief statement of reasons therefor in the order issued) that waiver of such requirements is necessary in order to protect the public health.

(3) Within 30 days after—

(A) the date a notice is published under paragraph (2) in the Federal Register with respect to an application submitted under this section for the issuance of a certification of need, or

(B) the date on which such application is received if as authorized by the second sentence of such paragraph no notice is published with respect to such application,

the Administrator shall take action either to issue or deny the issuance of a certification of need.

(c) Certification of need; issuance; executive orders; implementation of orders; equitable apportionment of orders; factors considered.

(1) If the Administrator finds that the amount of a chemical or substance necessary for an applicant under an application submitted under this section to effectively treat water in a public water system or in a public treatment works is not reasonably available to the applicant or will not be so available to him when required for the effective treatment of such water, the Administrator shall issue a certification of need. Not later than seven days following the issuance of such certification, the President or his delegate shall issue an order requiring the provision to such person of such amounts of such chemical or substance as the Administrator deems necessary in the certification of need issued for such person. Such order shall apply to such manufacturers, producers, processors, distributors, and repackagers of such chemical or substance as the President or his delegate deems necessary and appropriate, except that such order may not apply to any manufacturer, producer, or processor of such chemical or substance who manufactures, produces, or processes (as the case may be) such chemical or substance solely for its own use. Persons subject to an order issued under this section shall be given a reasonable opportunity to consult with the President or his delegate with respect to the implementation of the order.

(2) Orders which are to be issued under paragraph (1) to manufacturers, producers, and processors of a chemical or substance shall be equitably apportioned, as far as practicable, among all manufacturers, producers, and processors of such chemical or substance; and orders which are to be issued under paragraph (1) to distributors and repackagers of a chemical or substance shall be equitably apportioned, as far as practicable, among all distributors and repackagers of such chemical or substance. In apportioning orders issued under paragraph (1) to manufacturers, producers, processors, distributors, and repackagers of chlorine, the President or his delegate shall, in carrying out the requirements of the preceding sentence, consider—

(A) the geographical relationships and established commercial relationships between such manufacturers, producers, processors, distributors, and repackagers and the persons for whom the orders are issued;

(B) in the case of orders to be issued to producers of chlorine, the (i) amount of chlorine historically supplied by each such producer to treat water in public water systems and public treatment works, and (ii) share of each such producer of the total annual production of chlorine in the United States; and

(C) such other factors as the President or his delegate may determine are relevant to the apportionment of orders in accordance with the requirements of the preceding sentence.

(3) Subject to subsection (f) of this section, any person for whom a certification of need has been issued under this subsection may upon the expiration of the order issued under paragraph (1) upon such certification apply under this section for additional certifications.

(d) Breach of contracts; defense.

There shall be available as a defense to any action brought for breach of contract in a Federal or State court arising out of delay or failure to provide, sell, or offer for sale or exchange a chemical or substance subject to an order issued pursuant to subsection (c)(1) of this section, that such delay or failure was caused solely by compliance with such order.

(e) Penalties for noncompliance with orders; temporary restraining orders and preliminary or permanent injunctions.

(1) Whoever knowingly fails to comply with any order issued pursuant to subsection (c)(1) of this section shall be fined not more than $5,000 for each such failure to comply.

(2) Whoever fails to comply with any order issued pursuant to subsection (c)(1) of this section shall be subject to a civil penalty of not more than $2,500 for each such failure to comply.

(3) Whenever the Administrator or the President or his delegate has reason to believe that any person is violating or will violate any order issued pursuant to subsection (c)(1) of this section, he may petition a United States district court to issue a temporary restraining order or preliminary or permanent injunction (including a mandatory injunction) to enforce the provision of such order.

(f) Termination dates.

No certification of need or order issued under this section may remain in effect—

(1) for more than one year, or

(2) after June 30, 1977,

whichever occurs first. (July 1, 1944, ch. 373, title XIV, § 1441, as added Dec. 16, 1974, Pub. L. 93–523, § 2(a), 88 Stat. 1680.)

EX. ORD. NO. 11879. DELEGATION OF FUNCTIONS TO SECRETARY OF COMMERCE RELATING TO ORDERS FOR PROVISION OF CHEMICALS OR SUBSTANCES NECESSARY FOR TREATMENT OF WATER

Ex. Ord. No. 11879, Sept. 17, 1975, 40 F.R. 43197, provided:

By virtue of the authority vested in me by Section 1441 of the Public Health Service Act, as amended by the Safe Drinking Water Act (88 Stat. 1680, 42 U.S.C. 300j), and as President of the United States, the Secretary of Commerce is hereby delegated, with power to redelegate to agencies, officers and employees of the Government, the functions of the President contained in said section 1441 [this section]. Those functions shall be administered under regulations or agreements which are identical or compatible with other regulations and agreements, including those provided pursuant to Executive Order No. 10480, as amended [set out as a note under section 2153 of Title 50, Appendix, War and National Defense], for the allocation of similar chemicals or substances.

GERALD R. FORD.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 300j–4 of this title.

§ 300j–1. Research, technical assistance, information, training of personnel.

(a) Specific powers and duties of Administrator.

(1) The Administrator may conduct research, studies, and demonstrations relating to the causes, diagnosis, treatment, control, and prevention of physical and mental diseases and other impairments of man resulting directly or indirectly from contaminants in water, or to the provision of a dependably safe supply of drinking water, including—

(A) improved methods (i) to identify and measure the existence of contaminants in drinking water (including methods which may be used by State and local health and water officials), and (ii) to identify the source of such contaminants;

(B) improved methods to identify and measure the health effects of contaminants in drinking water;

(C) new methods of treating raw water to prepare it for drinking, so as to improve the efficiency of water treatment and to remove contaminants from water;

(D) improved methods for providing a dependably safe supply of drinking water, including improvements in water purification and distribution, and methods of assessing the health related hazards of drinking water; and

(b) Entry of establishments, facilities, or other property; inspections; conduct of certain tests; audit and examination of records; entry restrictions; prohibition against informing of a proposed entry.

(2) No entry may be made under the first sentence of paragraph (1) in an establishment, facility, or other property of a supplier of water or other person subject to a national primary drinking water regulation if the establishment, facility, or other property is located in a State which has primary enforcement responsibility for public water systems unless, before written notice of such entry is made, the Administrator (or his representative) notifies the State agency charged with responsibility for safe drinking water of the reasons for such entry. The Administrator shall, upon a showing by the State agency that such an entry will be detrimental to the administration of the State's program of primary enforcement responsibility, take such showing into consideration in determining whether to make such entry. No State agency which receives notice under this paragraph of an entry proposed to be made under paragraph (1) may use the information contained in the notice to inform the person whose property is proposed to be entered of the proposed entry; and if a State agency so uses such information, notice to the agency under this paragraph is not required until such time as the Administrator determines the agency has provided him satisfactory assurances that it will no longer so use information contained in a notice under this paragraph.

(c) Penalty.

(A) commenced, caused to be commenced, or is about to commence or cause to be commenced a proceeding under this subchapter or a proceeding for the administration or enforcement of drinking water regulations or underground injection control programs of a State,

(B) testified or is about to testify in any such proceeding, or

(C) assisted or participated or is about to assist or participate in any manner in such a proceeding or in any other action to carry out the purposes of this subchapter.

(2)(A) Any employee who believes that he has been discharged or otherwise discriminated against by any person in violation of paragraph (1) may, within 30 days after such violation occurs, file (or have any person file on his behalf) a complaint with the Secretary of Labor (hereinafter in this subsection referred to as the "Secretary") alleging such discharge or discrimination. Upon receipt of such a complaint, the Secretary shall notify the person named in the complaint of the filing of the complaint.

(B)(i) Upon receipt of a complaint filed under subparagraph (A), the Secretary shall conduct an investigation of the violation alleged in the complaint. Within 30 days of the receipt of such complaint, the Secretary shall complete such investigation and shall notify in writing the complainant (and any person acting in his behalf) and the person alleged to have committed such violation of the results of the investigation conducted pursuant to this subparagraph. Within 90 days of the receipt of such complaint the Secretary shall, unless the proceeding on the complaint is terminated by the Secretary on the basis of a settlement entered into by the Secretary and the person alleged to have committed such violation, issue an order either providing the relief prescribed by clause (ii) or denying the complaint. An order of the Secretary shall be made on the record after notice and opportunity for agency hearing. The Secretary may not enter into a settlement terminating a proceeding on a complaint without the participation and consent of the complainant.

(ii) If in response to a complaint filed under subparagraph (A) the Secretary determines that a violation of paragraph (1) has occurred, the Secretary

shall order (I) the person who committed such violation to take affirmative action to abate the violation, (II) such person to reinstate the complainant to his former position together with the compensation (including back pay), terms, conditions, and privileges of his employment, (III) compensatory damages, and (IV) where appropriate, exemplary damages. If such an order is issued, the Secretary, at the request of the complainant, shall assess against the person against whom the order is issued a sum equal to the aggregate amount of all costs and expenses (including attorneys' fees) reasonably incurred, as determined by the Secretary, by the complainant for, or in connection with, the bringing of the complaint upon which the order was issued.

(3)(A) Any person adversely affected or aggrieved by an order issued under paragraph (2) may obtain review of the order in the United States Court of Appeals for the circuit in which the violation, with respect to which the order was issued, allegedly occurred. The petition for review must be filed within sixty days from the issuance of the Secretary's order. Review shall conform to chapter 7 of Title 5. The commencement of proceedings under this subparagraph shall not, unless ordered by the court, operate as a stay of the Secretary's order.

(B) An order of the Secretary with respect to which review could have been obtained under subparagraph (A) shall not be subject to judicial review in any criminal or other civil proceeding.

(4) Whenever a person has failed to comply with an order issued under paragraph (2)(B), the Secretary shall file a civil action in the United States District Court for the district in which the violation was found to occur to enforce such order. In actions brought under this paragraph, the district courts shall have jurisdiction to grant all appropriate relief including, but not limited to, injunctive relief, compensatory, and exemplary damages. Civil actions filed under this paragraph shall be heard and decided expeditiously.

(5) Any nondiscretionary duty imposed by this section is enforceable in mandamus proceeding brought under section 1361 of Title 28.

(6) Paragraph (1) shall not apply with respect to any employee who, acting without direction from his employer (or the employer's agent), deliberately causes a violation of any requirement of this subchapter. (July 1, 1944, ch. 373, title XIV, § 1450, as added Dec. 16, 1974, Pub. L. 93–523, § 2(a), 88 Stat. 1691.)

SUBCHAPTER XIII.—NATIONAL HEALTH PLANNING AND DEVELOPMENT [NEW]

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in section 300s–3 of this title.

§ 300k. Congressional findings.

(a) The Congress makes the following findings:

(1) The achievement of equal access to quality health care at a reasonable cost is a priority of the Federal Government.

(2) The massive infusion of Federal funds into the existing health care system has contributed to inflationary increases in the cost of health care and failed to produce an adequate supply or distribution of health resources, and consequently has not made possible equal access for everyone to such resources.

(3) The many and increasing responses to these problems by the public sector (Federal, State, and local) and the private sector have not resulted in a comprehensive, rational approach to the present—

(A) lack of uniformly effective methods of delivering health care;

(B) maldistribution of health care facilities and manpower; and

(C) increasing cost of health care.

(4) Increases in the cost of health care, particularly of hospital stays, have been uncontrollable and inflationary, and there are presently inadequate incentives for the use of appropriate alternative levels of health care, and for the substitution of ambulatory and intermediate care for inpatient hospital care.

(5) Since the health care provider is one of the most important participants in any health care delivery system, health policy must address the legitimate needs and concerns of the provider if it is to achieve meaningful results; and, thus, it is imperative that the provider be encouraged to play an active role in developing health policy at all levels.

(6) Large segments of the public are lacking in basic knowledge regarding proper personal health care and methods for effective use of available health services.

(b) In recognition of the magnitude of the problems described in subsection (a) of this section and the urgency placed on their solution, it is the purpose of this Act to facilitate the development of recommendations for a national health planning policy, to augment areawide and State planning for health service, manpower, and facilities, and to authorize financial assistance for the development of resources to further that policy. (1) The provision of primary care services for medically underserved populations, especially those which are located in rural or economically depressed areas.

(2) The development of multi-institutional systems for coordination or consolidation of institutional health services (including obstetric, pediatric, emergency medical, intensive and coronary care, and radiation therapy services).

PART B.—HEALTH SYSTEMS AGENCIES

PART REFERRED TO IN OTHER SECTIONS

This part is referred to in sections 300k–1, 300k–3, 300*l* of this title.

§ 300*l*. Health service areas.

(a) Requirements; factors considered in establishing boundaries.

There shall be established, in accordance with this section, health service areas throughout the United States with respect to which health systems agencies shall be designated under section 300*l*–4 of this title. Each health service area shall meet the following requirements:

(1) The area shall be a geographic region appropriate for the effective planning and development of health services, determined on the basis of factors including population and the availability of resources to provide all necessary health services for residents of the area.

(2) To the extent practicable, the area shall include at least one center for the provision of highly specialized health services.

(3) The area, upon its establishment, shall have a population of not less than five hundred thousand or more than three million; except that—

(A) the population of an area may be more than three million if the area includes a standard metropolitan statistical area (as determined by the Office of Management and Budget) with a population of more than three million, and

(B) the population of an area may—

(i) be less than five hundred thousand if the area comprises an entire State which has a population of less than five hundred thousand, or

(ii) be less than—

(I) five hundred thousand (but not less than two hundred thousand) in unusual circumstances (as determined by the Secretary), or

(II) two hundred thousand in highly unusual circumstances (as determined by the Secretary),

if the Governor of each State in which the area is located determines, with the approval of the Secretary, that the area meets the other requirements of this subsection.

(4) To the maximum extent feasible, the boundaries of the area shall be appropriately coordinated with the boundaries of areas designated under section 1320c–1 of this title for Professional Standards Review Organizations, existing regional planning areas, and State planning and administrative areas.

The boundaries of a health service area shall be established so that, in the planning and development of health services to be offered within the health service area, any economic or geographic barrier to the receipt of such services in nonmetropolitan areas is taken into account. The boundaries of health service areas shall be established so as to recognize the differences in health planning and

health services development needs between nonmetropolitan and metropolitan areas. Each standard metropolitan statistical area shall be entirely within the boundaries of one health service area, except that if the Governor of each State in which a standard metropolitan statistical area is located determines, with the approval of the Secretary, that in order to meet the other requirements of this subsection a health service area should contain only part of the standard metropolitan statistical area, then such statistical area shall not be required to be entirely within the boundaries of such health service area.

(b) Notice to state governors; publication in Federal Register; boundary designations; revision; review by Secretary; adoption of comprehensive area plans already developed.

(1) Within thirty days following January 4, 1975, the Secretary shall simultaneously give to the Governor of each State written notice of the initiation of proceedings to establish health service areas throughout the United States. Each notice shall contain the following:

(A) A statement of the requirement (in subsection (a) of this section) of the establishment of health service areas throughout the United States.

(B) A statement of the criteria prescribed by subsection (a) of this section for health service areas and the procedures prescribed by this subsection for the designation of health service area boundaries.

(C) A request that the Governor receiving the notice (i) designate the boundaries of health service areas within his State, and, where appropriate and in cooperation with the Governors of adjoining States, designate the boundaries within his State of health service areas located both in his State and in adjoining States, and (ii) submit (in such form and manner as the Secretary shall specify) to the Secretary, within one hundred and twenty days of January 4, 1975, such boundary designations together with comments, submitted by the entities referred to in paragraph (2), with respect to such designations.

At the time such notice is given under this paragraph to each Governor, the Secretary shall publish as a notice in the Federal Register a statement of the giving of his notice to the Governor and the criteria and procedures contained in such notice.

(2) Each State's Governor shall in the development of boundaries for health service areas consult with and solicit the views of the chief executive officer or agency of the political subdivisions within the State, the State agency which administers or supervises the administration of the State's health planning functions under a State plan approved under section 246(a) of this title, each entity within the State which has developed a comprehensive regional, metropolitan, or other local area plan or plans referred to in section 246(b) of this title, and each regional medical program established in the State under subchapter VII of this chapter.

(3)(A) Within two hundred and ten days after January 4, 1975, the Secretary shall publish as a notice in the Federal Register the health service area boundary designations. The boundaries for health service areas submitted by the Governors shall, except as otherwise provided in subparagraph (B), constitute upon their publication in the Federal Register the boundaries for such health service areas.

(B)(i) If the Secretary determines that a boundary submitted to him for a health service area does not meet the requirements of subsection (a) of this section, he shall, after consultation with the Governor who submitted such boundary, make such revision in the boundary for such area (and as necessary, in the boundaries for adjoining health service areas) as may be necessary to meet such requirements and publish such revised boundary (or boundaries); and the revised boundary (or boundaries) shall upon publication in the Federal Register constitute the boundary (or boundaries) for such health service area (or areas). The Secretary shall notify the Governor of each State in which is located a health service area whose boundary is revised under this clause of the boundary revision and the reasons for such revision.

(ii) In the case of areas of the United States not included within the boundaries for health service areas submitted to the Secretary as requested under the notice under paragraph (1), the Secretary shall establish and publish in the Federal Register, health service area boundaries which include such areas. The Secretary shall notify the Governor of each State in which is located a health service area the boundary for which is established under this clause of the boundaries established. In carrying out the requirement of this clause, the Secretary may make such revisions in boundaries submitted under subparagraph (A) as he determines are necessary to meet the requirement of subsection (a) of this section for the establishment of health service areas throughout the United States.

(4) The Secretary shall review on a continuing basis and at the request of any Governor or designated health systems agency the appropriateness of the boundaries of the health service areas established under paragraph (3) and, if he determines that a boundary for a health service area no longer meets the requirements of subsection (a) of this section, he may revise the boundaries in accordance with the procedures prescribed by paragraph (3)(B)(ii) for the establishment of boundaries of health service areas which include areas not included in boundaries submitted by the Governors. If the Secretary acts on his own initiative to revise the boundaries of any health service area, he shall consult with the Governor of the appropriate State or States, the entities referred to in paragraph (2), the appropriate health systems agency or agencies designated under part B of this subchapter and the appropriate Statewide Health Coordinating Council established under part C of this subchapter. A request for boundary revision shall be made only after consultation with the Governor of the appropriate State or States, the entities referred to in paragraph (2), the appropriate designated health systems agencies, and the appropriate established Statewide Health Coordinating Council and shall include the com-

ments concerning the revision made by the entities consulted in requesting the revision.

(5) Within one year after January 4, 1975, the Secretary shall complete the procedures for the initial establishment of the boundaries of health service areas which (except as provided in section 300n–4 of this title) include the geographic area of all the States.

(c) Waiver of requirements.

Notwithstanding any other requirement of this section, an area—

(1) for which has been developed a comprehensive regional, metropolitan area, or other local area plan referred to in section 246(b) of this title, and

(2) which otherwise meets the requirements of subsection (a) of this section,

shall be designated by the Secretary as a health service area unless the Governor of any State in which such area is located, upon a finding that another area is a more appropriate region for the effective planning and development of health resources, waives such requirement. (July 1, 1944, ch. 373, title XV, § 1511, as added Jan. 4, 1975, Pub. L. 93–641, § 3, 88 Stat. 2229.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 300*l*–4 of this title.

§ 300*l*–1. Health systems agency.

(a) Definition.

For purposes of this subchapter, the term "health systems agency" means an entity which is organized and operated in the manner described in subsection (b) of this section and which is capable, as determined by the Secretary, of performing each of the functions described in section 300*l*–2 of this title. The Secretary shall by regulation establish standards and criteria for the requirements of subsection (b) of this section and section 300*l*–2 of this title.

(b) Legal structure; staff; governing body; responsibilities; composition; limitation of individual liability; acceptance of contributions; reports.

(1) A health systems agency for a health service area shall be—

(A) a nonprofit private corporation (or similar legal mechanism such as a public benefit corporation) which is incorporated in the State in which the largest part of the population of the health service area resides, which is not a subsidiary of, or otherwise controlled by, any other private or public corporation or other legal entity, and which only engages in health planning and development functions;

(B) a public regional planning body if (i) it has a governing board composed of a majority of elected officials of units of general local government or it is authorized by State law (in effect before January 4, 1975) to carry out health planning and review functions such as those described in section 300*l*–2 of this title, and (ii) its planning area is identical to the health service area; or

(C) a single unit of general local government if the area of the jurisdiction of that unit is identical to the health service area.

A health systems agency may not be an educational institution or operate such an institution.

(2)(A) A health systems agency shall have a staff which provides the agency with expertise in at least the following: (i) Administration, (ii) the gathering and analysis of data, (iii) health planning, and (iv) development and use of health resources. The functions of planning and of development of health resources shall be conducted by staff with skills appropriate to each function.

(B) The size of the professional staff of any health systems agency shall be not less than five, except that if the quotient of the population (rounded to the next highest one hundred thousand) of the health service area which the agency serves divided by one hundred thousand is greater than five, the minimum size of the professional staff shall be the lesser of (i) such quotient, or (ii) twenty-five. The members of the staff shall be selected, paid, promoted, and discharged in accordance with such system as the agency may establish, except that the rate of pay for any position shall not be less than the rate of pay prevailing in the health service area for similar positions in other public or private health service entities. If necessary for the performance of its functions, a health systems agency may employ consultants and may contract with individuals and entities for the provision of services. Compensation for consultants and for contracted services shall be established in accordance with standards established by regulation by the Secretary.

(3)(A) A health systems agency which is a public regional planning body or unit of general local government shall, in addition to any other governing body, have a governing body for health planning, which is established in accordance with subparagraph (C), which shall have the responsibilities prescribed by subparagraph (B), and which has exclusive authority to perform for the agency the functions described in section 300*l*–2 of this title. Any other health systems agency shall have a governing body composed, in accordance with subparagraph (C), of not less than ten members and of not more than thirty members, except that the number of members may exceed thirty if the governing body has established another unit (referred to in this paragraph as an "executive committee") composed, in accordance with subparagraph (C), of not more than twenty-five members of the governing body and has delegated to that unit the authority to take such action (other than the establishment and revision of the plans referred to in subparagraph (B)(ii)) as the governing body is authorized to take.

(B) The governing body—

(i) shall be responsible for the internal affairs of the health systems agency, including matters relating to the staff of the agency, the agency's budget, and procedures and criteria (developed and published pursuant to section 300n–1 of this

title) applicable to its functions under subsections (e), (f), and (g) of section 300*l*–2 of this title;

(ii) shall be responsible for the establishment of the health systems plan and annual implementation plan required by section 300*l*–2(b) of this title;

(iii) shall be responsible for the approval of grants and contracts made and entered into under section 300*l*–2(c)(3) of this title;

(iv) shall be responsible for the approval of all actions taken pursuant to subsections (e), (f), (g), and (h), of section 300*l*–2 of this title;

(v) shall (I) issue an annual report concerning the activities of the agency, (II) include in that report the health systems plan and annual implementation plan developed by the agency, and a listing of the agency's income, expenditures, assets, and liabilities, and (III) make the report readily available to the residents of the health service area and the various communications media serving such area;

(vi) shall reimburse its members for their reasonable costs incurred in attending meetings of the governing body;

(vii) shall meet at least once in each calendar quarter of a year and shall meet at least two additional times in a year unless its executive committee meets at least twice in that year; and

(viii) shall (I) conduct its business meetings in public, (II) give adequate notice to the public of such meetings, and (III) make its records and data available, upon request, to the public.

The governing body (and executive committee (if any)) of a health systems agency shall act only by vote of a majority of its members present and voting at a meeting called upon adequate notice to all of its members and at which a quorum is in attendance. A quorum for a governing body and executive committee shall be not less than one-half of its members.

(C) The membership of the governing body and the executive committee (if any) of an agency shall meet the following requirements:

(i) A majority (but not more than 60 per centum of the members) shall be residents of the health service area served by the entity who are consumers of health care and who are not (nor within the twelve months preceding appointment been) providers of health care and who are broadly representative of the social, economic, linguistic and racial populations, geographic areas of the health service area, and major purchasers of health care.

(ii) The remainder of the members shall be residents of the health service area served by the agency who are providers of health care and who represent (I) physicians (particularly practicing physicians) dentists, nurses, and other health professionals, (II) health care institutions (particularly hospitals, long-term care facilities, and health maintenance organizations), (III) health care insurers, (IV) health professional schools, and (V) the allied health professions. Not less than one-third of the providers of health care who are members of the governing body or executive committee of a health systems agency shall be direct providers of health care (as described in section 300n(3) of this title).

(iii) The membership shall—

(I) include (either through consumer or provider members) public elected officials and other representatives of governmental authorities in the agency's health service area and representatives of public and private agencies in the area concerned with health,

(II) include a percentage of individuals who reside in nonmetropolitan areas within the health service area which percentage is equal to the percentage of residents of the area who reside in nonmetropolitan areas, and

(III) if the health systems agency serves an area in which there is located one or more hospitals or other health care facilities of the Veterans' Administration, include, as an ex officio member, an individual whom the Chief Medical Director of the Veterans' Administration shall have designated for such purpose, and if the agency serves an area in which there is located one or more qualified health maintenance organizations (within the meaning of section 300e–9 of this title), include at least one member who is representative of such organizations.

(iv) If, in the exercise of its functions, a governing body or executive committee appoints a subcommittee of its members or an advisory group, it shall to the extent practicable, make its appointments to any such subcommittee or group in such a manner as to provide the representation on such subcommittee or group described in this subparagraph.

(4) No individual who, as a member or employee of a health systems agency, shall, by reason of his performance of any duty, function, or activity required of, or authorized to be undertaken by, the agency under this subchapter be liable for the payment of damages under any law of the United States or any State (or political subdivision thereof) if he has acted within the scope of such duty, function, or activity, has exercised due care, and has acted, with respect to that performance, without malice toward any person affected by it.

(5) No health systems agency may accept any funds or contributions of services or facilities from any individual or private entity which has a financial, fiduciary, or other direct interest in the development, expansion, or support of health resources unless, in the case of an entity, it is an organization described in section 509(a) of Title 26 and is not directly engaged in the provision of health care in the health service area of the agency. For purposes of this paragraph, an entity shall not be considered to have such an interest solely on the basis of its providing (directly or indirectly) health care for its employees.

The Secretary, after taking into consideration such State agency's comments (if any), may make such Federal funds available for such use, notwithstanding the disapproval of the health systems agency. Each such decision by the Secretary to make funds available shall be submitted to the appropriate health systems agency and State health planning and development agency and shall contain a detailed statement of the reasons for the decision.

(a) Agreements; time limitation.

At the earliest practicable date after the establishment under section 300*l* of this title of health service areas (but not later than eighteen months after January 4, 1975) the Secretary shall enter into agreements in accordance with this section for the designation of health systems agencies for such areas.

(b) Conditional designation.

(1) The Secretary may enter into agreements with entities under which the entities would be designated as the health systems agencies for health service areas on a conditional basis with a view to determining their ability to meet the requirements of section 300*l*–1(b) of this title, and their capacity to perform the functions prescribed by section 300*l*–2 of this title.

(2) During any period of conditional designation (which may not exceed 24 months), the Secretary may require that the entity conditionally designated meet only such of the requirements of section 300*l*–1(b) of this title and perform only such of the functions prescribed by section 300*l*–2 of this title as he determines such entity to be capable of meeting and performing. Any such agreement under this subsection with an entity may be renewed in accordance with paragraph (3), shall contain such provisions respecting the requirements of sections 300l–1(b) and 300l–2 of this title and such conditions designed to carry out the purpose of this subchapter, as the Secretary may prescribe, and shall be for a term of not to exceed twelve months; except that, prior to the expiration of such term, such agreement may be terminated—

(d) Substitution on termination of agreements.

If a designation under subsection (b) or (c) of this section of a health systems agency for a health services area is terminated before the date prescribed for its expiration, the Secretary shall, upon application and in accordance with subsection (b) or (c) of this section (as the Secretary determines appropriate), enter into a designation agreement with another entity to be the health system agency for such area. (July 1, 1944, ch. 373, title XV, § 1515, as added Jan. 4, 1975, Pub. L. 93–641, § 3, 88 Stat. 2239.)

(a) Conditions; restriction on use of funds.

The Secretary shall make in each fiscal year a grant to each health systems agency with which there is in effect a designation agreement under subsection (b) or (c) of section 300*l*–4 of this title. A grant under this subsection shall be made on such conditions as the Secretary determines is appropriate, shall be used by a health systems agency for compensation of agency personnel, collection of data, planning, and the performance of the functions of the agency, and shall be available for obligation for a period not to exceed the period for which its designation agreement is entered into or renewed (as the case may be). A health systems agency may use funds under a grant under this subsection to make payments under contracts with other entities to assist the health systems agency in the performance of its functions; but it shall not use funds under such a grant to make payments under a grant or contract with another entity for the development or delivery of health services or resources.

(b) Maximum and minimum grants.

(1) The amount of any grant under subsection (a) of this section to a health systems agency designated under section 300*l*–4(b) of this title shall be determined by the Secretary. The amount of any grant under subsection (a) of this section to any health systems agency designated under section 300*l*–4(c) of this title shall be the lesser of—

(2)(A) If the application of a health systems agency for such a grant contains assurances satisfactory to the Secretary that the agency will expend or obligate in the period in which such grant will be available for obligation non-Federal funds meeting the requirements of subparagraph (B) for the purposes for which such grant may be made, the amount of such grant shall be the sum of—

(i) the amount determined under paragraph (1), and

(ii) be funds which are not paid to the agency for the performance of particular services by it and which are otherwise contributed to the agency without conditions as to their use other than the condition that the funds shall be used for the purposes for which a grant made under this section may be used.

(3) The amount of a grant under subsection (a) of this section to a health systems agency designated under section 300*l*–4(c) of this title may not be less than $175,000.

(c) Authorization of appropriations.

(July 1, 1944, ch. 373, title XV, § 1516, as added Jan. 4, 1975, Pub. L. 93–641, § 3, 88 Stat. 2241.)

PART C.—STATE HEALTH PLANNING AND DEVELOPMENT

PART REFERRED TO IN OTHER SECTIONS

This part is referred to in sections 300k–1, 300*l* of this title.

§ 300m. Designation of State health planning and development agencies.

(a) Authority of Secretary to enter into agreements.

For the purpose of the performance within each State of the health planning and development functions prescribed by section 300m–2 of this title, the Secretary shall enter into and renew agreements (described in subsection (b) of this section) for the designation of a State health planning and development agency for each State other than a State for which the Secretary may not under subsection (d) of this section enter into, continue in effect, or renew such an agreement.

(b) State administrative program; Governor as the authority to select agency; requirements; conditional designation; period of agreement; termination; designation of State agency for the State; termination and renewal.

(1) A designation agreement under subsection (a) of this section is an agreement with the Governor of a State for the designation of an agency (selected by the Governor) of the government of that State as the State health planning and development agency (hereinafter in this part referred to as the "State Agency") to administer the State administrative program prescribed by section 300m–1 of this title and to carry out the State's health planning and development functions prescribed by section 300m–2 of this title. The Secretary may not enter into such an agreement with the Governor of a State unless—

(A) there has been submitted by the State a State administrative program which has been approved by the Secretary,

(B) an application has been made to the Secretary for such an agreement and the application contains assurances satisfactory to the Secretary that the agency selected by the Governor for designation as the State Agency has the authority and resources to administer the State administrative program of the State and to carry out the health planning and development functions prescribed by section 300m–2 of this title, and

(C) in the case of an agreement entered into under paragraph (3), there has been established for the State a Statewide Health Coordinating Council meeting the requirements of section 300m—3 of this title.

(2)(A) The agreement entered into with a Governor of a State under subsection (a) of this section may provide for the designation of a State Agency on a conditional basis with a view to determining the capacity of the designated State Agency to administer the State administrative program of the State and to carry out the health planning and development functions prescribed by section 300m–2 of this title. The Secretary shall require as a condition to the entering into of such an agreement that the Governor submit on behalf of the agency to be designated a plan for the agency's orderly assumption and implementation of such functions.

(B) The period of an agreement described in subparagraph (A) may not exceed twenty-four months. During such period the Secretary may require that the designated State Agency perform only such of the functions of a State Agency prescribed by section 300m–2 of this title as he determines it is capable of performing. The number and type of such functions shall, during such period, be progressively increased as the designated State Agency becomes capable of added responsibility, so that by the end of such period the designated State Agency may be considered for designation under paragraph (3).

(C) Any agreement with a Governor of a State entered into under subparagraph (A) may be terminated by the Governor upon ninety days' notice to the Secretary or by the Secretary upon ninety days' notice to the Governor.

(3) If, on the basis of an application for designation as a State Agency (and, in the case of an agency conditionally designated under paragraph (2), on the the basis of its performance under an agreement with a Governor of a State entered into under such paragraph), the Secretary determines that the agency is capable of fulfilling, in a satisfactory manner, the responsibilities of a State Agency, he shall enter into an agreement with the Governor of the State designating the agency as the State Agency for the State. No such agreement may be made unless an application therefor is submitted to, and approved by, the Secretary. Any such agreement shall be for a term of not to exceed twelve months, except that, prior to the expiration of such term, such agreement may be terminated—

(A) by the Governor at such time and upon such notice to the Secretary as he may by regulation prescribe, or

(B) by the Secretary, at such time and upon such notice to the Governor as the Secretary may by regulation prescribe, if the Secretary determines that the designated State Agency is not complying with or effectively carrying out the provisions of such agreement.

An agreement under this paragraph shall contain such provisions as the Secretary may require to assure that the requirements of this part respecting State Agencies are complied with.

(4) An agreement entered into under paragraph (3) for the designation of a State Agency may be renewed by the Secretary for a period not to exceed twelve months if he determines that it has fulfilled, in a satisfactory manner, the responsibilities of a State Agency during the period of the agreement to be renewed and if the applicable State administrative program continues to meet the requirements of section 300m–1 of this title.

(c) Agreements for substitution.

If a designation agreement with the Governor of a State entered into under subsection (b)(2) or (b)(3) of this section is terminated before the date prescribed for its expiration, the Secretary shall, upon application and in accordance with subsection (b)(2), or (b)(3) of this section (as the Secretary determines appropriate), enter into another agreement with the Governor for the designation of a State Agency.

(d) Suspension of grants.

If after such review the Secretary decides to make such funds available, the decision by the Secretary to make such funds available shall be submitted to the SHCC and shall contain a detailed statement of the reasons for the decision.

(2) Notwithstanding paragraph (1), if the amount appropriated under section 300p–3 of this title for any fiscal year is less than the amount required to provide allotments in accordance with paragraph (1), the amount of the allotment to any State for such fiscal year shall be an amount which bears the same ratio to the amount prescribed for such State by paragraph (1) as the amount appropriated for such fiscal year bears to the amount of appropriations needed to make allotments to all the States in accordance with paragraph (1).

(c) Availability of unobligated amounts; reallotment.

Any amount allotted to a State for a fiscal year under subsection (a) of this section and remaining unobligated at the end of such year shall remain available to such State, for the purpose for which made, for the next two fiscal years (and for such years only), in addition to the amounts alloted to such State for such purposes for such next two fiscal years; except that any such amount which is unobligated at the end of the first of such next two years and which the Secretary determines will remain unobligated at the close of the second of such next two years may be reallotted by the Secretary, to be available for the purposes for which made until the close of the second of such next two years, to

other States which have need therefor, on such basis as the Secretary deems equitable and consistent with the purposes of this subchapter. Any amount so reallotted to a State shall be in addition to the amounts allotted and available to the State for the same period. (July 1, 1944, ch. 373, title XVI, § 1610, as added Jan. 4, 1975, Pub. SECTIONS REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 300p–2, 300p–3 of this title.

§ 300p–1. Payments to States for projects.

(a) Authorization; certification by State Agency.

If with respect to any medical facility project approved under section 300o–3 of this title the State Agency certifies (upon the basis of inspection by it) to the Secretary that, in accordance with approved plans and specifications, work has been performed upon the project or purchases have been made for it and that payment from the applicable allotment of the State in which the project is located is due for the project, the Secretary shall, except as provided in subsection (b) of this section, make such payment to the State.

(b) Withholding of amounts; maximum amounts.

The Secretary is authorized to not make payments to a State pursuant to subsection (a) of this section in the following circumstances:

(1) If such State is not authorized by law to make payments for an approved medical facility project from the payment to be made by the Secretary pursuant to subsection (a) of this section, or if the State so requests, the Secretary shall make the payment from the State allotment directly to the applicant for such project.

(2) If the Secretary, after investigation or otherwise, has reason to believe that any act (or failure to act) has occurred requiring action pursuant to section 300p–2 of this title, payment by the Secretary may, after he has given the State Agency notice and opportunity for hearing pursuant to such section, be withheld, in whole or in part, pending corrective action or action based on such hearing.

In no event may the total of payments made under subsection (a) of this section with respect to any project exceed an amount equal to the Federal share of such project.

(c) Additional amounts.

In case an amendment to an approved application is approved as provided in section 300o–3 of this title or the estimated cost of a project is revised upward, any additional payment with respect thereto may be made from the applicable allotment of the State for the fiscal year in which such amendment or revision is approved.

(d) Obligation of amounts.

In any fiscal year—

(1) not more than 20 per centum of the amount of a State's allotment available for obligation in that fiscal year may be obligated for projects in the State for construction of new facilities for the provision of inpatient health care to persons residing in areas of the State which have experienced recent rapid population growth; and

(2) not less than 25 per centum of the amount of a State's allotment available for obligation in that fiscal year shall be obligated for projects for outpatient facilities which will serve medically underserved populations.

In the administration of this part, the Secretary shall seek to assure that in each fiscal year at least one half of the amount obligated for projects pursuant to paragraph (2) shall be obligated for projects which will serve rural medically underserved populations. (July 1, 1944, ch. 373, title XVI, § 1611, as added Jan. 4, 1975, Pub. L. 93–641, § 4, 88 Stat. 2262.)

§ 300p–2. Compliance provisions.

(a) Finding of noncompliance with plan, etc., requirements.

Whenever the Secretary, after reasonable notice and opportunity for hearing to the State Agency concerned finds—

(1) that the State Agency is not complying substantially with the provisions required by section 300o–2 of this title to be included in its State medical facilities plan,

(2) that any assurance required to be given in an application filed under section 300o–3 of this title is not being or cannot be carried out, or

(3) that there is a substantial failure to carry out plans and specifications approved by the Secretary under section 300o–3 of this title,

the Secretary shall take the action authorized by subsection (b) of this section unless, in the case of compliance with assurances, the Secretary requires compliance by other means authorized by law.

(b) Withholding of payments.

(1) Upon a finding described in subsection (a) of this section and after notice to the State Agency concerned, the Secretary may—

(A) withhold from all projects within the State with respect to which the finding was made further payments from the State's allotment under section 300p of this title, or

(B) withhold from the specific projects with respect to which the finding was made further payments from the applicable State allotment under section 300p of this title.

(2) Payments may be withheld, in whole or in part, under paragraph (1)—

(A) until the basis for the finding upon which the withholding was made no longer exists, or

(B) if corrective action to make such finding inapplicable cannot be made, until the State concerned repays or arranges for the repayment of Federal funds paid under this part for projects which because of the finding are not entitled to such funds.

(c) Investigation of recipients for compliance with assurances; remedies available for finding of noncompliance.

The Secretary shall investigate and ascertain, on a periodic basis, with respect to each entity which is receiving financial assistance under this subchapter or which has received financial assistance under

subchapter IV of this chapter or this subchapter, the extent of compliance by such entity with the assurances required to be made at the time such assistance was received. If the Secretary finds that such an entity has failed to comply with any such assurance, the Secretary shall take the action authorized by subsection (b) of this section or take any other action authorized by law (including an action for specific performance brought by the Attorney General upon request of the Secretary) which will effect compliance by the entity with such assurances. An appropriate action to effectuate compliance with any such assurance may be brought by a person other than the Secretary only if a complaint has been filed by such person with the Secretary and the Secretary has dismissed such complaint or the Attorney General has not brought a civil action for compliance with such assurance within 6 months after the date on which the complaint was filed with the Secretary. (July 1, 1944, ch. 373, title XVI, § 1612, as added Jan. 4, 1975, Pub. L. 93–641, § 4, 88 Stat. 2263.)

§ 300q–1. Allocation among States of total amount of principal; criteria; availability of unobligated amounts; reallotment.

(a) For each fiscal year, the total amount of principal of—

(1) loans to nonprofit private entities which may be guaranteed, or

(2) loans which may be directly made,

under this part shall be allotted by the Secretary among the States, in accordance with regulations, on the basis of the population, financial need, and need for medical facilities projects described in section 300o of this title of the respective States. The population of the States shall be determined on the basis of the latest figures certified by the Secretary of Commerce.

(b) Any amount allotted to a State for a fiscal year under subsection (a) of this section and remaining unobligated at the end of such year shall remain available to such State, for the purpose for which made, for the next two fiscal years (and for such years only), in addition to the amounts allotted to such State for such purposes for such next two fiscal years; except that any such amount which is unobligated at the end of the first of such next two years and which the Secretary determines will remain unobligated at the close of the second of such next two years may be reallotted by the Sec-

retary, to be available for the purposes for which made until the close of the second of such next two years, to other States which have need therefor, on such basis as the Secretary deems equitable and consistent with the purposes of this subchapter. Any amount so reallotted to a State shall be in addition to the amounts allotted and available to the State for the same period. (July 1, 1944, ch. 373, title XVI, § 1621, as added Jan. 4, 1975, Pub. § 300q–2. General provisions.

(a) Loan guarantees; criteria for approval; recovery of payments by United States; modification, etc., of terms and conditions; incontestability.

(1) The Secretary may not approve a loan guarantee for a project under this part unless he determines that (A) the terms, conditions, security (if any), and schedule and amount of repayments with respect to the loan are sufficient to protect the financial interests of the United States and are otherwise reasonable, including a determination that the rate of interest does not exceed such per centum per annum on the principal obligation outstanding as the Secretary determines to be reasonable, taking into account the range of interest rates prevailing in the private market for similar loans and the risks assumed by the United States, and (B) the loan would not be available on reasonable terms and conditions without the guarantee under this part.

(2) (A) The United States shall be entitled to recover from the applicant for a loan guarantee under this part the amount of any payment made pursuant to such guarantee, unless the Secretary for good cause waives such right of recovery; and, upon making any such payment, the United States shall be subrogated to all of the rights of the recipient of the payments with respect to which the guarantee was made.

(B) To the extent permitted by subparagraph (C), any terms and conditions applicable to a loan guarantee under this part (including terms and conditions imposed under subparagraph (D)) may be modified by the Secretary to the extent he determines it to be consistent with the financial interest of the United States.

(C) Any loan guarantee made by the Secretary under this part shall be incontestable (i) in the hands of an applicant on whose behalf such guarantee is made unless the applicant engaged in fraud or misrepresentation in securing such guarantee, and (ii) as to any person (or his successor in interest) who makes or contracts to make a loan to such applicant in reliance thereon unless such person (or his successor in interest) engaged in fraud or misrepresentation in making or contracting to make such loan.

(D) Guarantees of loans under this part shall be subject to such further terms and conditions as the Secretary determines to be necessary to assure that the purposes of this subchapter will be achieved.

(b) Loans; criteria for approval; terms and conditions; waiver of recovery of payments by United States.

(1) The Secretary may not approve a loan under this part unless—

(A) the Secretary is reasonably satisfied that the applicant under the project for which the loan would be made will be able to make payments of principal and interest thereon when due, and

(B) the applicant provides the Secretary with reasonable assurances that there will be available to it such additional funds as may be necessary to complete the project or undertaking with respect to which such loan is requested.

(2) Any loan made under this part shall (A) have such security, (B) have such maturity date, (C) be repayable in such installments, (D) bear interest at a rate comparable to the current rate of interest prevailing, on the date the loan is made, with respect to loans guaranteed under this part, minus 3 per centum per annum, and (E) be subject to such other terms and conditions (including provisions for recovery in case of default), as the Secretary determines to be necessary to carry out the purposes of this subchapter while adequately protecting the financial interests of the United States.

(3) The Secretary may, for good cause but with due regard to the financial interests of the United States, waive any right of recovery which he has by reasons of the failure of a borrower to make payments of principal of and interest on a loan made under this part, except that if such loan is sold and guaranteed, any such waiver shall have no effect upon the Secretary's guarantee of timely payment of principal and interest.

(c) Sale of loans; authority; amount; agreements with purchasers; deposit of proceeds.

(1) The Secretary shall from time to time, but with due regard to the financial interests of the United States, sell loans made under this part either on the private market or to the Federal National Mortgage Association in accordance with section 1717 of Title 12 or to the Federal Financing Bank.

(2) Any loan so sold shall be sold for an amount which is equal (or approximately equal) to the amount of the unpaid principal of such loans as of time of sale.

(3) (A) The Secretary is authorized to enter into an agreement with the purchaser of any loan sold under this part under which the Secretary agrees—

(i) to guarantee to such purchaser (and any successor in interest to such purchaser) payments of the principal and interest payable under such loan, and

(ii) to pay as an interest subsidy to such purchaser (and any successor in interest of such purchaser) amounts which, when added to the amount of interest payable on such loan, are equivalent to a reasonable rate of interest on such loan as determined by the Secretary after taking into account the range of prevailing interest rates in the private market on similar loans and the risks assumed by the United States.

(B) Any agreement under subparagraph (A)—

(i) may provide that the Secretary shall act as agent of any such purchaser, for the purpose of collecting from the entity to which such loan was made and paying over to such purchaser any payments of principal and interest payable by such entity under such loan;

(ii) may provide for the repurchase by the Secretary of any such loan on such terms and conditions as may be specified in the agreement;

(iii) shall provide that, in the event of any default by the entity to which such loan was made in payment of principal or interest due on such loan, the Secretary shall, upon notification to the purchaser (or to the successor in interest of such purchaser), have the option to close out such loan (and any obligations of the Secretary with respect thereto) by paying to the purchaser (or his successor in interest) the total amount of outstanding principal and interest due thereon at the time of such notification; and

(iv) shall provide that, in the event such loan is closed out as provided in clause (iii), or in the event of any other loss incurred by the Secretary by reason of the failure of such entity to make payments of principal or interest on such loan, the Secretary shall be subrogated to all rights of such purchaser for recovery of such loss from such entity.

(4) Amounts received by the Secretary as proceeds from the sale of loans under this subsection shall be deposited in the fund established under subsection (d) of this section.

(d) Loan and loan guarantee fund; establishment; amounts authorized to be appropriated; issuance, purchase, and sale of notes, obligations, etc.; interest rates; public debt transactions.

(1) There is established in the Treasury a loan and loan guarantee fund (hereinafter in this subsection referred to as the "fund") which shall be available to the Secretary without fiscal year limitation, in such amounts as may be specified from time to time in appropriations Acts—

(A) to enable him to make loans under this part,

(B) to enable him to discharge his responsibilities under loan guarantees issued by him under this part,

(C) for payment of interest under section 300q (b) (2) of this title on loans guaranteed under this part,

(D) for repurchase of loans under subsection (c) (3) (B) of this section, and

(E) for payment of interest on loans which are sold and guaranteed.

There are authorized to be appropriated from time to time such amounts as may be necessary to provide the sums required for the fund. There shall also be deposited in the fund amounts received by the Secretary in connection with loans and loan guarantees under this part and other property or assets derived by him from his operations respecting such loans and loan guarantees, including any money derived from the sale of assets.

(2) If at any time the sums in the funds are insufficient to enable the Secretary—

(A) to make payments of interest under section 300q(b) (2) of this title,

(B) to otherwise comply with guarantees under this part of loans to nonprofit private entities,

(C) in the case of a loan which was made, sold, and guaranteed under this part, to make to the purchaser of such loan payments of principal and interest on such loan after default by the entity to which the loan was made, or

(D) to repurchase loans under subsection (c) (3) (B) of this section, and

(E) to make payments of interest on loans which are sold and guaranteed,

he is authorized to issue to the Secretary of the Treasury notes or other obligations in such forms and denominations, bearing such maturities, and subject to such terms and conditions, as may be prescribed by the Secretary with the approval of the Secretary of the Treasury. Such notes or other obligations shall bear interest at a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States of comparable maturities during the month preceding the issuance of the notes or other obligations. The Secretary of the Treasury shall purchase any notes and other obligations issued under this paragraph and for that purpose he may use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, and the purposes for which the securities may be issued under that Act are extended to include any purchase of such notes and obligations. The Secretary of the Treasury may at any time sell any of the notes or other obligations acquired by him under this paragraph. All redemptions, purchases, and sales by the Secretary of the Treasury of such notes or other obligations shall be treated as a public debt transactions [1] of the United States. Sums borrowed under this paragraph shall be deposited in the fund and redemption of such notes and obligations shall be made by the Secretary from the fund.

(e) Transfers to an additional capitalization of loan and loan guarantee fund.

(1) The assets, commitments, obligations, and outstanding balances of the loan guarantee and loan fund established in the Treasury by section 291j–6 of this title shall be transferred to the fund established by subsection (d) of this section.

(b) Criteria for approval of applications.

PART E.—GENERAL PROVISIONS

§ 300s. Judicial review; petition; jurisdiction; record; review by Supreme Court.

If—

(1) the Secretary refuses to approve an application for a project submitted under section 300o–3 of this title, the State Agency through which such application was submitted, or

(2) any State is dissatisfied with, or any entity will be adversely affected by, the Secretary's action under section 300p–2 of this title, such State or entity,

may appeal to the United States court of appeals for the circuit in which such State Agency, State, or entity is located, by filing a petition with such court within sixty days after such action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Secretary, or any officer designated by him for that purpose. The Secretary thereupon shall file in the court the record of the proceedings on which he based his action, as provided in section 2112 of Title 28. Upon the filing of such petition, the court shall have jurisdiction to affirm the action of the Secretary or to set it aside, in whole or in part, temporarily or permanently, but until the filing of the record, the Secretary may modify or set aside his order. The findings of the Secretary as to the facts, if supported by substantial evidence, shall be conclusive, but the court, for good cause shown, may remand the case to the Secretary to take further evidence, and the Secretary may thereupon make new or modified findings of fact and may modify his previous action, and shall file in the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence. The judgment of the court affirming or setting aside, in whole or in part, any action of the Secretary shall be final, subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of Title 28. The commencement of proceedings under this section shall not, unless so specifically ordered by the Court, operate as a stay of the Secretary's action. (July 1, 1944, ch. 373, title XVI, § 1630, as added Jan. 4, 1975, Pub. L. 93–641, § 4, 88 Stat. 2269.)

§ 300s–1. Recovery by United States of proceeds from sale or transfer or termination of use of facility constructed, modernized, or converted with project funds; amount recoverable; waiver.

(a) If any facility constructed, modernized, or converted with funds provided under this subchapter is, at any time within twenty years after the completion of such construction, modernization, or conversion with such funds—

(1) sold or transferred to any person or entity (A) which is not qualified to file an application under section 300o–3 of this title or (B) which is not approved as a transferee by the State Agency of the State in which such facility is located, or its successor; or

(2) not used as a medical facility, and the Secretary has not determined that there is good cause for termination of such use,

the United States shall be entitled to recover from either the transferor or the transferee in the case of a sale or transfer or from the owner in the case of termination of use an amount bearing the same ratio to the then value (as determined by the agreement of the parties or by action brought in the district court of the United States for the district in which the facility is situated) of so much of such facility as constituted an approved project or projects, as the amount of the Federal participation bore to the cost of the construction, modernization, or conversion of such project or projects. Such right of recovery shall not constitute a lien upon such facility prior to judgment.

(b) The Secretary may waive the recovery rights of the United States under subsection (a) of this section with respect to a facility in any State—

(1) if (as determined under regulations prescribed by the Secretary) the amount which could be recovered under subsection (a) of this section with respect to such facility is applied to the development, expansion, or support of another

medical facility located in such State which has been approved by the Statewide Health Coordinating Council for such State as consistent with the State health plan established pursuant to section 300m–3(c) of this title; or

(2) if the Secretary determines, in accordance with regulations, that there is good cause for waiving such requirement with respect to such facility.

If the amount which the United States is entitled to recover under subsection (a) of this section exceeds 90 per centum of the total cost of the construction or modernization project for a facility, a waiver under this subsection shall only apply with respect to an amount which is not more than 90 per centum of such total cost. The Secretary may not waive a right of recovery which arose one year before January 4, 1975. (July 1, 1944, ch. 373, title XVI, § 1631, as added Jan. 4, 1975, Pub. L. 93–641, § 4, 88 Stat. 2269.)

§ 300s–2. State supervision or control of operations of facilities receiving funds.

Except as otherwise specifically provided, nothing in this subchapter shall be construed as conferring on any Federal officer or employee, the right to exercise any supervision or control over the administration, personnel, maintenance, or operation of any facility with respect to which any funds have been or may be expended under this subchapter. (July 1, 1944, ch. 373, title XVI, § 1632, as added Jan. 4, 1975, Pub. L. 93–641, § 4, 88 Stat. 2270.)

(2) The term "Federal share" means the proportion of the cost of a medical facilities project which the State Agency determines the Federal Government will provide under allotment payments or a loan or loan guarantee under this subchapter, except that—

(A) in the case of a modernization project—

(i) described in section 300o–3(b)(2)(B) of this title, and

(ii) the application for which received a waiver under section 300o–3(b)(2)(A) of this title,

Whenever the total of monthly benefits to which individuals are entitled under sections 402 and 423 of this title for a month on the basis of the wages and self-employment income of an insured individual is greater than the amount appearing in column V of the table in or deemed to be in section 415(a) of this title on the line on which appears in column IV such insured individual's primary insurance amount, such total of benefits shall be reduced to such amount; except that—

* * * * *

(2) when two or more persons were entitled (without the application of section 402(j)(1) of this title and section 423(b) of this title) to monthly benefits under section 402 or 423 of this title for January 1971 or any prior month on the basis of the wages and self-employment income of such insured individual and the provisions of this subsection as in effect for any such month were applicable in determining the benefit amount of any persons on the basis of such wages and self-employment income, the total of benefits for any month after January 1971 shall not be reduced to less than the larger of—

(A) the amount determined under the subsection without regard to this paragraph,

(B) the largest amount which has been determined for any month under this subsection for persons entitled to monthly benefits on the basis of such insured individual's wages and self-employment income, or

(C) if any persons are entitled to benefits on the basis of such wages and self-employment income for the month before the effective month (after September 1972) of a general benefit increase under this subchapter (as defined in section 415(i)(3) of this title) or a benefit increase under the provisions of section 415(i) of this title, an amount equal to the sum of amounts derived by multiplying the benefit amount determined under this subchapter (excluding part thereof determined under under section 402(w) of this title) for the month before such effective month (including this subsection, but without the application of section 422(b) of this title, section 402(q) of this title, and subsections (b), (c), and (d) of this section), for each such person for such month, by a percentage equal to the percentage of the increase provided under such benefit increase (with any such increased amount which is not a multiple of $0.10 being rounded to the next higher multiple of $0.10);

but in any such case (i) paragraph (1) of this subsection shall not be applied to such total of benefits after the application of subparagraph (B) or (C), and (ii) if section 402(k)(2)(A) of this title was applicable in the case of any such benefits for a month, and ceases to apply for a month after such month, the provisions of subparagraph (B) or (C) shall be applied, for and after the month in which section 402(k)(2)(A) of this title ceases to apply, as though paragraph (1) had not been applicable to such total of benefits for the last month for which subparagraph (B) or (C) was applicable,

(3) when any of such individuals is entitled to monthly benefits as a divorced wife under section 402(b) of this title or as a surviving divorced wife under section 402(e) of this title for any month, the benefit to which she is entitled on the basis of the wages and self-employment income of such insured individual for such month shall be determined without regard to this subsection, and the benefits of all other individuals who are entitled for such month to monthly benefits under section 402 of this title on the wages and self-employment income of such insured individual shall be determined as if no such divorced wife or surviving divorced wife were entitled to benefits for such month,

(4) notwithstanding any other provision of law, when—

then the total of monthly benefits for all persons on the basis of such wages and self-employment income for such particular month, as determined under the provisions of this subsection, shall for purposes of determining the total monthly benefits for all persons on the basis of such wages and self-employment income for months subsequent to such particular month to be considered to have been increased by the smallest amount that would

have been required in order to assure that the total of monthly benefits payable on the basis of such wages and self-employment income for any such subsequent month will not be less (after the application of the other provisions of this subsection and section 402(q) of this title) than the total of monthly benefits (after the application of the other provisions of this subsection and section 402(q) of this title) payable on the basis of such wages and self-employment income for such particular month, or

(1) The amount of an individual's excess earnings (as defined in paragraph (3) shall be charged to months as follows: There shall be charged to the first month of such taxable year an amount of his excess earnings equal to the sum of the payments to which he and all other persons are entitled for such month under section 402 of this title on the basis of his wages and self-employment income (or the total of his excess earnings if such excess earnings are less than such sum), and the balance, if any, of such excess earnings shall be charged to each succeeding month in such year to the extent, in the case of each such month, of the sum of the payments to which such individual and all other persons are entitled for such month under section 402 of this title on the basis of his wages and self-employment income, until the total of such excess has been so charged. Where an individual is entitled to benefits under section 402(a) of this title and other persons are entitled to benefits under section 402 (b), (c), or (d) of this title on the basis of the wages and self-employment income of such individual, the excess earnings of such individual for any taxable year shall be charged in accordance with the provisions of this subsection before the excess earnings of such persons for a taxable year are charged to months in such individual's taxable year. Notwithstanding the preceding provisions of this paragraph but subject to section 402(s) of this title, no part of the excess earnings of an individual shall be charged to any months (A) for which such individual was not entitled to a benefit under this subchapter, (B) in which such individual was age seventy-two or over, (C) in which such individual, if a child entitled to child's insurance benefits, has attained the age of 18, (D) for which such individual is entitled to widow's insurance benefits and has not attained age 65 (but only if she became so entitled prior to attaining age 60), or widower's insurance benefits and has not attained age 65 (but only if he became so entitled prior to attaining age 60), or (E) in which such individual did not engage in self-employment and did not render services for wages (determined as provided in paragraph (5) of this subsection) of more than $200 or the exempt amount as determined under paragraph (8).

• • • • •

(3) For purposes of paragraph (1) and subsection (h) of this section, an individual's excess earnings for a taxable year shall be 50 per centum of his earnings for such year in excess of the product of $200 or the exempt amount as determined under paragraph (8), multiplied by the number of months in such year, except that, in determining an individual's excess earnings for the taxable year in which he attains age 72, there shall be excluded any earnings of such individual for the month in which he attains such age and any subsequent month (with any net earnings or net loss from self-employment in such year being prorated in an equitable manner under regulations of the Secretary). The excess earnings as derived under the preceding sentence, if not a multiple of $1, shall be reduced to the next lower multiple of $1.

(4) For purposes of clause (E) of paragraph (1)—

• • • • •

(B) an individual will be presumed, with respect to any month, to have rendered services for wages (determined as provided in paragraph

(5) of this subsection) of more than $200 or the exempt amount as determined under paragraph (8) until it is shown to the satisfaction of the Secretary that such individual did not render such services in such month for more than such amount.

• • • • •

(8)(A) Whenever the Secretary pursuant to section 415(i) of this title increases benefits effective with the month of June following a cost-of-living computation quarter he shall also determine and publish in the Federal Register on or before November 1 of the calendar year in which such quarter occurs a new exempt amount which shall be effective (unless such new exempt amount is prevented from becoming effective by subparagraph (C) of this paragraph) with respect to any individual's taxable year which ends after the calendar year in which such benefit increase is effective (or, in the case of an individual who dies during the calendar year after the calendar year in which the benefit increase is effective, with respect to such individual's taxable year which ends, upon his death, during such year).

(B) The exempt amount for each month of a particular taxable year shall be whichever of the following is the larger—

(i) the exempt amount which was in effect with respect to months in the taxable year in which the determination under subparagraph (A) was made, or

(ii) the product of the exempt amount described in clause (i) and the ratio of (I) the average of the wages of all employees as reported to the Secretary of the Treasury for the calendar year preceding the calendar year in which the determination under subparagraph (A) was made to (II) the average of the wages of all employees as reported to the Secretary of the Treasury for the calendar year 1973, or, if later, the calendar year preceding the most recent calendar year in which an increase in the exempt amount was enacted or a determination resulting in such an increase was made under subparagraph (A), with such product, if not a multiple of $10, being rounded to the next higher multiple of $10 where such product is a multiple of $5 but not of $10 and to the nearest multiple of $10 in any other case. For purposes of this clause (ii), the average of the wages for the calendar year 1978 (or any prior calendar year) shall, in the case of determinations made under subparagraph (A) prior to December 31, 1979, be deemed to be an amount equal to 400 per centum of the amount of the average of the taxable wages of all employees as reported to the Secretary for the first calendar quarter of such calendar year.

Whenever the Secretary determines that the exempt amount is to be increased in any year under this paragraph, he shall notify the House Committee on Ways and Means and the Senate Committee on Finance within 30 days after the close of the base quarter (as defined in section 415(i)(1)(A) of this title) in such year of the estimated amount of such increase, indicating the new exempt amount, the actuarial estimates of the effect of the increase, and the actuarial assumptions and methodology used in preparing such estimates.

(C) Notwithstanding the determination of a new exempt amount by the Secretary under subparagraph (A) (and notwithstanding any publication thereof under such subparagraph or any notification thereof under the last sentence of subparagraph (B)), such new exempt amount shall not take effect pursuant thereto if during the calendar year in which such determination is made a law increasing the exempt amount is enacted.

(h) Report of earnings to Secretary.

(1)(A) If an individual is entitled to any monthly insurance benefit under section 402 of this title during any taxable year in which he has earnings or wages, as computed pursuant to paragraph (5) of subsection (f) of this section, in excess of the product of $200 or the exempt amount as determined under subsection (f)(8) of this section times the number of months in such year, such individual (or the individual who is in receipt of such benefit on his behalf) shall make a report to the Secretary of his earnings (or wages) for such taxable year. Such report shall be made on or before the fifteenth day of the fourth month following the close of such year, and shall contain such information and be made in such manner as the Secretary may by regulations prescribe. Such report need not be made for any taxable year (i) beginning with or after the month in which such individual attained the age of 72, or (ii) if benefit payments for all months (in such taxable year) in which such individual is under age 72 have been suspended under the provisions of the first sentence of paragraph (3) of this subsection. The Secretary may grant a reasonable extension of time for making the report of earnings required in this paragraph if he finds that there is valid reason for a delay, but in no case may the period be extended more than three months.

(A) the amount in column IV of the following table (or, if larger, the amount in Column IV of the latest table deemed to be such table under subsection (i)(2)(D) of this section) on the line on which in column III of such table appears his average monthly wage (as determined under subsection (b) of this section);

(i) Cost-of-living increases in benefits.

(1) For purposes of this subsection—

(A) the term "base quarter" means (i) the calendar quarter ending on March 31 in each year after 1974, or (ii) any other calendar quarter in which occurs the effective month of a general benefit increase under this subchapter;

(B) the term "cost-of-living computation quarter" means a base quarter, as defined in subparagraph (A)(i), in which the Consumer Price Index prepared by the Department of Labor exceeds, by not less than 3 per centum, such Index in the later of (i) the last prior cost-of-living computation quarter which was established under this subparagraph, or (ii) the most recent calendar quarter in which occurred the effective month of a general benefit increase under this subchapter; except that there shall be no cost-of-living computation quarter in any calendar year if in the year prior to such year a law has been enacted providing a general benefit increase under this subchapter or if in such prior year such a general benefit increase becomes effective; and

(C) the Consumer Price Index for a base quarter, a cost-of-living computation quarter, or any other calendar quarter shall be the arithmetical mean of such index for the 3 months in such quarter.

(2)(A)(i) The Secretary shall determine each year beginning with 1975 (subject to the limitation in paragraph (1)(B)) whether the base quarter (as defined in paragraph (1)(A)(i)) in such year is a cost-of-living computation quarter.

(ii) If the Secretary determines that the base quarter in any year is a cost-of-living computation quarter, he shall, effective with the month of June of such year as provided in subparagraph (B), increase the benefit amount of each individual who for such month is entitled to benefits under section 427 or 428 of this title, and the primary insurance amount of each other individual under this subchapter (but not including a primary insurance amount determined under subsection (a)(3) of this section), by an amount derived by multiplying each such amount (including each such individual's primary insurance amount or benefit amount under section 427 or 428 of this title as previously increased under this subparagraph) by the same percentage (rounded to the nearest one-tenth of 1 percent) as the percentage by which the Consumer Price Index for such cost-of-living computation quarter exceeds such index for the most recent prior calendar quarter which was a base quarter under paragraph (1)(A)(ii) or, if later, the most recent cost-of-living computation quarter under paragraph (1)(B). Any such increased amount which is not a multiple of $0.10 shall be increased to the next higher multiple of $0.10.

(B) The increase provided by subparagraph (A) with respect to a particular cost-of-living computation quarter shall apply in the case of monthly benefits under this subchapter for months after May of the calendar year in which occurred such cost-of-living computation quarter, and in the case of lump-sum death payments with respect to deaths occurring after May of such calendar year.

(C)(i) Whenever the level of the Consumer Price Index as published for any month exceeds by 2.5 percent or more the level of such index for the most recent base quarter (as defined in paragraph (1)(A)(ii) or, if later, the most recent cost-of-living computation quarter, the Secretary shall (within 5 days after such publication) report the amount of such excess to the House Committee on Ways and Means and the Senate Committee on Finance.

(ii) Whenever the Secretary determines that a base quarter in a calendar year is also a cost-of-living computation quarter, he shall notify the House Committee on Ways and Means and the Senate Committee on Finance of such determination within 30 days after the close of such quarter, indicating the amount of the benefit increase to be provided, his estimate of the extent to which the cost of such increase would be met by an increase in the contribution and benefit base under section 430 of this title and the estimated amount of the increase in such base, the actuarial estimates of the effect of such increase, and the actuarial assumptions and methodology used in preparing such estimates.

(D) If the Secretary determines that a base quarter in a calendar year is also a cost-of-living computation quarter, he shall publish in the Federal Register within 45 days after the close of such quarter a determination that a benefit increase is resultantly required and the percentage thereof. He shall also publish in the Federal Register at that time (along with the increased benefit amounts which shall be deemed to be the amounts appearing in sections 427 and 428 of this title) a revision of the table of benefits contained in subsection (a) of this section (as it may have been most recently revised by another law or pursuant to this paragraph); and such revised table shall be deemed to be the table appearing in such subsection (a). Such revision shall be determined as follows:

(i) The headings of the table shall be the same as the headings in the table immediately prior to its revision, except that the parenthetical phrase at the beginning of column II shall reflect the year in which the primary insurance amounts set forth in column IV of the table immediately prior to its revision were effective.

(ii) The amounts on each line of column I and column III, except as otherwise provided by clause (v) of this subparagraph, shall be the same as the amounts appearing in each such column in the table immediately prior to its revision.

(iii) The amount on each line of column II shall be changed to the amount shown on the corre-

sponding line of column IV of the table immediately prior to its revison.

(iv) The amounts on each line of column IV and column V shall be increased from the amounts shown in the table immediately prior to its revision by increasing each such amount by the percentage specified in subparagraph (A)(ii) of this paragraph. The amount on each line of column V shall be increased, if necessary, so that such amount is at least equal to one and one-half times the amount shown on the corresponding line in column IV. Any such increased amount which is not a multiple of $0.10 shall be increased to the next higher multiple of $0.10.

(v) If the contribution and benefit base (determined under section 430 of this title) for the calendar year in which the table of benefits is revised is lower than such base for the following calendar year, columns III, IV, and V of such table shall be extended. The amounts on each additional line of column III shall be the amounts on the preceding line increased by $5 until in the last such line of column III the second figure is equal to one-twelfth of the new contribution and benefit base for the calendar year following the calendar year in which such table of benefits is revised. The amount on each additional line of column IV shall be the amount on the preceding line increased by $1.00, until the amount on the last line of such column is equal to the last line of such column as determined under clause (iv) plus 20 percent of one-twelfth of the excess of the new contribution and benefit base for the calendar year following the calendar year in which such table of benefits is revised (as determined under section 430 of this title) over such base for the calendar year in which the table of benefits is revised. The amount in each additional line of column V shall be equal to 1.75 times the amount on the same line of column IV. Any such increased amount which is not a multiple of $0.10 shall be increased to the next higher multiple of $0.10.

(3) As used in this subsection, the term "general benefit increase under this subchapter" means an increase (other than an increase under this subsection) in all primary insurance amounts on which monthly insurance benefits under this subchapter are based. SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 402, 403, 423, 424a of this title; title 26 section 1402.

§ 423. Disability insurance benefit payments.

(a) Disability insurance benefits.

(1) Every individual who—

* * * * *

shall be entitled to a disability insurance benefit (i) for each month beginning with the first month after his waiting period (as defined in subsection (c)(2) of this section) in which he becomes so entitled to such insurance benefits, or (ii) for each month beginning with the first month during all of which he is under a disability and in which he becomes so entitled to such insurance benefits, but only if he was entitled to disability insurance benefits which terminated, or had a period of disability (as defined in section 416(i) of this title) which ceased, within the 60-month period preceding the first month in which he is under such disability, and ending with the month preceding whichever of the following months is the earliest: the month in which he dies, the month in which he attains age 65, or the third month following the month in which his disability ceases. No payment under this paragraph may be made to an individual who would not meet the definition of disability in subsection (d) of this section except for paragraph (1)(B) thereof for any month in which he engages in substantial gainful activity, and no payment may be made for such month under subsection (b), (c), or (d) of section 402 of this title to any person on the basis of the wages and self-employment income of such individual. In the case of a deceased individual, the requirement of subparagraph (C) may be satisfied by an application for benefits filed with respect to such individual within 3 months after the month in which he died.

(2) Except as provided in section 402(q) of this title, such individual's disability insurance benefit

for any month shall be equal to his primary insurance amount for such month determined under section 415 of this title as though he had attained age 62 in—

* * * * *

and as though he had become entitled to old-age insurance benefits in the month in which the application for disability insurance benefits was filed and he was entitled to an old-age insurance benefit for each month for which (pursuant to subsection (b) of this section) he was entitled to a disability insurance benefit. For the purposes of the preceding sentence, in the case of an individual who attained age 62 in or before the first month referred to in subparagraph (A) or (B) of such sentence, as the case may be, the elapsed years referred to in section 415(b)(3) of this title shall not include the year in which he attained age 62, or any year thereafter.

(b) Filing application.

An application for disability insurance benefits filed before the first month in which the applicant satisfies the requirements for such benefits (as prescribed in subsection (a)(1) of this section) shall be deemed a valid application only if the applicant satisfies the requirements for such benefits before the Secretary makes a final decision on the application. If, upon final decision by the Secretary, or decision upon judicial review thereof, such applicant is found to satisfy such requirements, the application shall be deemed to have been filed in such first month. An individual who would have been entitled to a disability insurance benefit for any month had he filed application therefor before the end of such month shall be entitled to such benefit for such month if such application is filed before the end of the 12th month immediately succeeding such month.

(c) Definitions; insured status; waiting period.

For purposes of this section—

(1) An individual shall be insured for disability insurance benefits in any month if—

(A) he would have been a fully insured individual (as defined in section 414 of this title) had he attained age 62 and filed application for benefits under section 402(a) of this title on the first day of such month, and

(B) (i) he had not less than twenty quarters of coverage during the forty-quarter period which ends with the quarter in which such month occurred, or

(ii) if such month ends before the quarter in which he attains (or would attain) age 31 not less than one-half (and not less than 6) of the quarters during the period ending with the quarter in which such month occurred and beginning after he attained the age of 21 were quarters of coverage, or (if the number of quarters in such period is less than 12) not less than 6 of the quarters in the 12-quarter period ending with such quarter were quarters of coverage; except that the provisions of subparagraph (B) of this paragraph shall not apply in the case of an individual who is blind (within the meaning of "blindness" as defined in section 416(i)(1) of this title). For purposes of subparagraph (B) of this paragraph, when the number of quarters in any period is an odd number, such number shall be reduced by one, and a quarter shall not be counted as part of any period if any part of such quarter was included in a period of disability unless such quarter was a quarter of coverage.

(2) The term "waiting period" means, in the case of any application for disability insurance benefits, the earliest period of five consecutive calendar months—

(A) throughout which the individual with respect to whom such application is filed has been under a disability and

(B) (i) which begins not earlier than with the first day of the seventeenth month before the month in which such application is filed if such individual is insured for disability insurance benefits in such seventeenth month, or (ii) if he is not so insured in such month, which begins not earlier than with the first day of the first month after such seventeenth month in which he is so insured.

Notwithstanding the preceding provisions of this paragraph, no waiting period may begin for any individual before January 1, 1957.

(1) For each fiscal year (commencing with the fiscal year ending June 30, 1975), there shall (subject to paragraph (2)) be allotted to each State

(from funds appropriated for such fiscal year pursuant to subsection (b) of this section) an amount, which shall be in addition to and available for the same purposes as the allotments of such State (as determined under sections 703 and 704 of this title), equal to the excess (if any) of—

EFFECTIVE DATE OF REPEAL

Section repealed by Pub. L. 92–223 effective Jan. 1, 1972, see section 4(d) of Pub. L. 92–223, set out as a note under section 1396a of this title.

§ 1320a–1. Limitation on use of Federal funds for capital expenditures.

(a) Use of reimbursement for planning activities for health services and facilities.

The purpose of this section is to assure that Federal funds appropriated under subchapters V, XVIII, and XIX of this chapter are not used to support unnecessary capital expenditures made by or on behalf of health care facilities or health maintenance organizations which are reimbursed under any of such

subchapters and that, to the extent possible, reimbursement under such subchapters shall support planning activities with respect to health services and facilities in the various States.

(b) Agreement between Secretary and State for submission of proposed capital expenditures related to health care facilities or health maintenance organizations, and procedures for appeal from recommendations.

The Secretary, after consultation with the Governor (or other chief executive officer) and with appropriate local public officials, shall make an agreement with any State which is able and willing to do so under which a designated planning agency (which shall be an agency described in clause (ii) of subsection (d)(1)(B) of this section that has a governing body or advisory board at least half of whose members represent consumer interests) will—

(1) make, and submit to the Secretary together with such supporting materials as he may find necessary, findings and recommendations with respect to capital expenditures proposed by or on behalf of any health care facility or health maintenance organization in such State within the field of its responsibilities.

(2) receive from other agencies described in clause (ii) of subsection (d)(1)(B) of this section, and submit to the Secretary together with such supporting material as he may find necessary, the findings and recommendations of such other agencies with respect to capital expenditures proposed by or on behalf of health care facilities or health maintenance organizations in such State within the fields of their respective responsibilities, and

(3) establish and maintain procedures pursuant to which a person proposing any such capital expenditure may appeal a recommendation by the designated agency and will be granted an opportunity for a fair hearing by such agency or person other than the designated agency as the Governor (or other chief executive officer) may designate to hold such hearings.

whenever and to the extent that the findings of such designated agency or any such other agency indicate that any such expenditure is not consistent with the standards, criteria, or plans developed pursuant to the Public Health Service Act (or the Mental Retardation Facilities and Community Mental Health Centers Construction Act of 1963) to meet the need for adequate health care facilities in the area covered by the plan or plans so developed.

(c) Manner of payment to States for carrying out agreement.

The Secretary shall pay any such State from the Federal Hospital Insurance Trust Fund, in advance or by way of reimbursement as may be provided in the agreements with it (and may make adjustments in such payments on account of overpayments or underpayments previously made), for the reasonable cost of performing the functions specified in subsection (b) of this section.

(d) Determination of amount of exclusions from Federal payments.

(1) Except as provided in paragraph (2), if the Secretary determines that—

(A) neither the planning agency designated in the agreement described in subsection (b) of this section nor an agency described in clause (ii) of subparagraph (B) of this paragraph had been given notice of any proposed capital expenditure (in accordance with such procedure or in such detail as may be required by such agency) at least 60 days prior to obligation for such expenditure; or

(B) (i) the planning agency so designated or an agency so described had received such timely notice of the intention to make such capital expenditure and had, within a reasonable period after receiving such notice and prior to obligation for such expenditure, notified the person proposing such expenditure that the expenditure would not be in conformity with the standards, criteria, or plans developed by such agency or any other agency described in clause (ii) for adequate health care facilities in such State or in the area for which such other agency has responsibility, and

(ii) the planning agency so designated had, prior to submitting to the Secretary the findings referred to in subsection (b) of this section—

(I) consulted with, and taken into consideration the findings and recommendations of, the State planning agencies established pursuant to sections 246(a) and 291d(a) of this title (to the extent that either such agency is not the agency so designated) as well as the public or nonprofit private agency or organization responsible for the comprehensive regional, metropolitan area, or other local area plan or plans referred to the section 246(b) of this title, and covering the area in which the health care facility or health maintenance organization proposing such capital expenditure is located (where such agency is not the agency designated in the agreement), or, if there is no such agency, such other public or nonprofit private agency or organization (if any) as performs, as determined in accordance with criteria included in regulations, similar functions, and

(II) granted to the person proposing such capital expenditure an opportunity for a fair hearing with respect to such findings;

then, for such period as he finds necessary in any case to effectuate the purpose of this section, he shall, in determining the Federal payments to be made under subchapters V, XVIII, and XIX of this chapter with respect to services furnished in the health care facility for which such capital expenditure is made, not include any amount which is attributable to depreciation, interest on borrowed funds, a return on equity capital (in the case of proprietary facilities), or other expenses related to such capital expenditure. With respect to any organization which is reimbursed on a per capita or a fixed fee or negotiated rate basis, in determining the Federal payments to be made under subchapters V, XVIII, and XIX of this chapter, the Secretary shall exclude an amount which in his judgment is a reasonable equivalent to the amount which would otherwise be excluded under this subsection if payment were to be made on other than a per capita or a fixed fee or negotiated rate basis.

(2) If the Secretary, after submitting the matters involved to the advisory council established or designated under subsection (i) of this section, determines that an exclusion of expenses related to any

capital expenditure of any health care facility or health maintenance organization would discourage the operation or expansion of such facility or organization, or any facility of such organization, which has demonstrated to his satisfaction proof of capability to provide comprehensive health care services (including institutional services) efficiently, effectively, and economically, or would otherwise be inconsistent with the effective organization and delivery of health services or the effective administration of subchapter V, XVII, or XIX of this chapter, he shall not exclude such expenses pursuant to paragraph (1).

(e) Treatment of lease or comparable arrangement of any facility or equipment for a facility in determining amount of exclusions from Federal payments.

Where a person obtains under lease or comparable arrangement any facility or part thereof, or equipment for a facility, which would have been subject to an exclusion under subsection (d) of this section if the person had acquired it by purchase, the Secretary shall (1) in computing such person's rental expense in determining the Federal payments to be made under subchapters V, XVIII, and XIX of this chapter with respect to services furnished in such facility, deduct the amount which in his judgment is a reasonable equivalent of the amount that would have been excluded if the person had acquired such facility or such equipment by purchase, and (2) in computing such person's return on equity capital deduct any amount deposited under the terms of the lease or comparable arrangement.

(f) Reconsideration by Secretary of determinations.

Any person dissatisfied with a determination by the Secretary under this section may within six months following notification of such determination request the Secretary to reconsider such determination. A determination by the Secretary under this section shall not be subject to administrative or judicial review.

(g) Definition.

For the purposes of this section, a "capital expenditure" is an expenditure which, under generally accepted accounting principles, is not properly chargeable as an expense of operation and maintenance and which (1) exceeds $100,000, (2) changes the bed capacity of the facility with respect to which such expenditure is made, or (3) substantially changes the services of the facility with respect to which such expenditure is made. For purposes of clause (1) of the preceding sentence, the cost of the studies, surveys, designs, plans, working drawings, specifications, and other activities essential to the acquisition, improvement, expansion, or replacement of the plant and equipment with respect to which such expenditure is made shall be included in determining whether such expenditure exceeds $100,000.

(h) Applicability to Christian Science sanatoriums.

The provisions of this section shall not apply to Christian Science sanatoriums operated, or listed and certified, by the First Church of Christ, Scientist, Boston, Massachusetts.

(i) National advisory council; establishment or designation of existing council; functions; consultations with other appropriate national advisory councils; composition; compensation and travel expenses.

(1) The Secretary shall establish a national advisory council, or designate an appropriate existing national advisory council, to advise and assist him in the preparation of general regulations to carry out the purposes of this section and on policy matters arising in the administration of this section, including the coordination of activities under this section with those under other parts of this chapter or under other Federal or federally assisted health programs.

(2) The Secretary shall make appropriate provision for consultation between and coordination of the work of the advisory council established or designated under paragraph (1) and the Federal Hospital Council, the National Advisory Health Council, the Health Insurance Benefits Advisory Council, and other appropriate national advisory councils with respect to matters bearing on the purposes and administration of this section and the coordination of activities under this section with related Federal health programs.

(3) If an advisory council is established by the Secretary under paragraph (1), it shall be composed of members who are not otherwise in the regular full-time employ of the United States, and who shall be appointed by the Secretary without regard to the civil service laws from among leaders in the fields of the fundamental sciences, the medical sciences, and the organization, delivery, and financing of health care, and persons who are State or local officials or are active in community affairs or public or civic affairs or who are representative of minority groups. Members of such advisory council, while attending meetings of the council or otherwise serving on business of the council, shall be entitled to receive compensation at rates fixed by the Secretary, but not exceeding the maximum rate specified at the time of such service for grade GS–18 in section 5332 of Title 5, including traveltime, and while away from their homes or regular places of business they may also be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703(b) of such Title 5 for persons in the Government service employed intermittently. (1) only when, and to the extent, medically necessary, as determined in the exercise of reasonable limits of professional discretion; and

(2) in the case of services provided by a hospital or other health care facility on an inpatient basis, only when and for such period as such services cannot, consistent with professionally recognized health care standards, effectively be provided on an outpatient basis or more economically in an inpatient health care facility of a different type, as determined in the exercise of reasonable limits of professional discretion.

(Aug. 14, 1935, ch. 531, title XI, § 1151, as added Oct. 30, 1972, Pub. L. 92–603, title II, § 249F(b), 86 Stat. 1429.)

§ 1320c–1. Professional Standards Review Organizations.

(a) Designation.

The Secretary shall (1) not later than January 1, 1974, establish throughout the United States appropriate areas with respect to which Professional Standards Review Organizations may be designated, and (2) at the earliest practicable date after designation of an area enter into an agreement with a

qualified organization whereby such an organization shall be conditionally designated as the Professional Standards Review Organization for such area. If, on the basis of its performance during such period of conditional designation, the Secretary determines that such organization is capable of fulfilling, in a satisfactory manner, the obligations and requirements for a Professional Standards Review Organization under this part, he shall enter into an agreement with such organization designating it as the Professional Standards Review Organization for such area.

(b) Qualified organizations eligible for designation.

For purposes of subsection (a) of this section, the term "qualified organization" means—

(1) when used in connection with any area—

(A) an organization (i) which is a nonprofit professional association (or a component organization thereof), (ii) which is composed of licensed doctors of medicine or osteopathy engaged in the practice of medicine or surgery in such area, (iii) the membership of which includes a substantial proportion of all such physicians in such area, (iv) which is organized in a manner which makes available professional competence to review health care services of the types and kinds with respect to which Professional Standards Review Organizations have review responsibilities under this part, (v) the membership of which is voluntary and open to all doctors of medicine or osteopathy licensed to engage in the practice of medicine or surgery in such area without requirement of membership in or payment of dues to any organized medical society or association, and (vi) which does not restrict the eligibility of any member for service as an officer of the Professional Standards Review Organization or eligibility for and assignment to duties of such Professional Standards Review Organization, or, subject to subsection (c)(i) of this section,

(B) such other public, nonprofit private, or other agency or organization, which the Secretary determines, in accordance with criteria prescribed by him in regulations, to be of professional competence and otherwise suitable; and

(2) an organization which the Secretary, on the basis of his examination and evaluation of a formal plan submitted to him by the association, agency, or organization (as well as on the basis of other relevant data and information), finds to be willing to perform and capable of performing, in an effective, timely, and objective manner and at reasonable cost, the duties, functions, and activities of a Professional Standards Review Organization required by or pursuant to this part.

(c) Order of eligibility; renewal of agreements.

(1) The Secretary shall not enter into any agreement under this part under which there is designated as the Professional Standards Review Organization for any area any organization other than an organization referred to in subsection (b)(1)(A) of this section prior to January 1, 1978, nor after such date, unless, in such area, there is no organization referred to in subsection (b)(1)(A) of this section which meets the conditions specified in subsection (b)(2) of this section.

(2) Whenever the Secretary shall have entered into an agreement under this part under which there is designated as the Professional Standards Review Organization for any area any organization other than an organization referred to in subsection (b)(1)(A) of this section, he shall not renew such agreements with such organization if he determines that—

(A) there is in such area an organization referred to in subsection (b)(1)(A) of this section which (i) has not been previously designated as a Professional Standards Review Organization, and (ii) is willing to enter into an agreement under this part under which such organization would be designated as the Professional Standards Review Organization for such area;

(B) such organization meets the conditions specified in subsection (b)(2) of this section; and

(C) the designation of such organization as the Professional Standards Review Organization for such area is anticipated to result in substantial improvement in the performance in such area of the duties and functions required of such organizations under this part.

(d) Agreement expiration; prior termination.

Any such agreement under this part with an organization (other than an agreement established pursuant to section 1320c–3 of this title) shall be for a term of 12 months; except that, prior to the expiration of such term such agreement may be terminated—

(1) by the organization at such time and upon such notice to the Secretary as may be prescribed in regulations (except that notice of more than 3 months may not be required); or

(2) by the Secretary at such time and upon such reasonable notice to the organization as may be prescribed in regulations, but only after the Secretary has determined (after providing such organization with an opportunity for a formal hearing on the matter) that such organization is not substantially complying with or effectively carrying out the provisions of such agreement.

(e) Waiver of those review, certification, and similar activities now covered by Professional Standards Review Organizations.

In order to avoid duplication of functions and unnecessary review and control activities, the Secretary is authorized to waive any or all of the review, certification, or similar activities otherwise required under or pusuant to any provision of this chapter (other than this part) where he finds, on the basis of substantial evidence of the effective performance of review and control activities by Professional Standards Review Organizations, that the review, certification, and similar activities otherwise so required are not needed for the provision of adequate review and control.

(f) Agreement notice; objection by doctors; poll.

(1) In the case of agreements entered into prior to January 1, 1978, under this part under which any organization is designated as the Professional Standards Review Organization for any area, the Secretary shall, prior to entering into any such agree-

ment with any organization for any area, inform (under regulations of the Secretary) the doctors of medicine or osteopathy who are in active practice in such area of the Secretary's intention to enter into such an agreement with such organization.

(2) If, within a reasonable period of time following the serving of such notice, more than 10 per centum of such doctors object to the Secretary's entering into such an agreement with such organization on the ground that such organization is not representative of doctors in such area, the Secretary shall conduct a poll of such doctors to determine whether or not such organization is representative of such doctors in such area. If more than 50 per centum of the doctors responding to such poll indicate that such organization is not representative of such doctors in such area the Secretary shall not enter into such an agreement with such organization.

(g) Statewide Professional Standards Review Organization; criteria for designation; nonapplicability.

(1) In any case in which the Secretary has established, within a State, two or more appropriate areas with respect to which Professional Standards Review Organizations may be designated, he shall, prior to designating a Professional Standards Review Organization for any such area, conduct in each such area a poll in which the doctors of medicine and doctors of osteopathy engaged in active practice therein will be asked: "Do you support a change from the present local and regional Professional Standards Review Organization area designations to a single statewide area designation?". If, in each such area, more than 50 per centum of the doctors responding to such question respond in the affirmative, then the Secretary shall establish the entire State as a single Professional Standards Review Organization area.

(2) The provisions of paragraph (1) shall not be applicable with respect to the designation of Professional Standards Review Organization areas in any State, if, prior to December 31, 1975, the Secretary has entered into an agreement (on a conditional basis or otherwise) with an organization designating it as the Professional Standards Review Organization for any area in the State. (Aug. 14, 1935, ch. 531, title XI, § 1152, as added Oct. 30, 1972, Pub. L. 92–603, title II, § 249F(b), 86 Stat. 1430, and amended Dec. 31, 1975, Pub. L. 94–182, title I, §§ 105, 108(a), 89 Stat. 1052, 1053.)

Section 108(b) of Pub. L. 94–182 provided that:

"The amendments made by subsection (a) [amending subsecs. (c)(1) and (f)(1) of this section] shall not apply in any area designated in accordance with section 1152(a)(1) of the Social Security Act [subsec. (a)(1) of this section] where—

"(1) the membership association or organization representing the largest number of doctors of medicine in such area, or in the State in which such area is located if different, has adopted by resolution or other official procedure a formal policy position of opposition to or noncooperation with the established program of professional standards review; or

"(2) the organization proposed to be designated by the Secretary under section 1152 of such Act [this section] has been negatively voted upon in accordance with the provisions of subsection (f)(2) thereof [subsec. (f)(2) of this section]."

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 300*l*, 300*l*–2, 1320c–16, 1320c–18 of this title.

§ 1320c–2. Review pending designation of Professional Standards Review Organization.

Pending the assumption by a Professional Standards Review Organization for any area, of full review responsibility, and pending a demonstration of capacity for improved review effort with respect to matters involving the provision of health care services in such area for which payment (in whole or in part) may be made, under this chapter, any review with respect to such services which has not been designated by the Secretary as the full responsibility of such organization, shall be reviewed in the manner otherwise provided for under law. (Aug. 14, 1935, ch. 531, title XI, § 1153, as added Oct. 30, 1972, Pub. L. 92–603, title II, § 249F(b), 86 Stat. 1432.)

§ 1320c–3. Trial period for Professional Standards Review Organizations.

(a) The Secretary shall initially designate an organization as a Professional Standards Review Organization for any area on a conditional basis with a view to determining the capacity of such organization to perform the duties and functions imposed under this part on Professional Standards Review Organizations. Such designation may not be made prior to receipt from such organization and approval by the Secretary of a formal plan for the orderly assumption and implementation of the responsibilities of the Professional Standards Review Organization under this part.

(b) During any such trial period (which may not exceed 24 months), the Secretary may require a Professional Standards Review Organization to perform only such of the duties and functions required under this part of Professional Standards Review Organization as he determines such organization to be capable of performing. The number and type of such duties shall, during the trial period, be progressively increased as the organization becomes capable of added responsibility so that, by the end of such period, such organization shall be considered a qualified organization only if the Secretary finds that it is substantially carrying out in a satisfactory manner, the activities and functions required of Professional Standards Review Organizations under this part with respect to the review of health care services provided or ordered by physicians and other practitioners and institutional and other health care facilities, agencies, and organizations. Any of such duties and functions not performed by such organization during such period shall be performed in the manner and to the extent otherwise provided for under law.

(c) Any agreement under which any organization is conditionally designated as the Professional Standards Review Organization for any area may be terminated by such organization upon 90 days notice to the Secretary or by the Secretary upon 90 days notice to such organization. (Aug. 14, 1935, ch. 531,

title XI, § 1154, as added Oct. 30, 1972, Pub. L. 92–603, title II, § 249F(b), 86 Stat. 1432.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 1320c–1 of this title.

§ 1320c–4. Duties and functions of Professional Standards Review Organizations.

(a) Responsibility for review of professional activities; case criteria; patient profiles; physician review of hospital care; involvement of reviewing physicians.

(1) Notwithstanding any other provision of law, but consistent with the provisions of this part, it shall (subject to the provisions of subsection (g) of this section) be the duty and function of each Professional Standards Review Organization for any area to assume, at the earliest date practicable, responsibility for the review of the professional activities in such area of physicians and other health care practitioners and institutional and noninstitutional providers of health care services in the provision of health care services and items for which payment may be made (in whole or in part) under this chapter for the purpose of determining whether—

(A) such services and items are or were medically necessary;

(B) the quality of such services meets professionally recognized standards of health care; and

(C) in case such services and items are proposed to be provided in a hospital or other health care facility on an inpatient basis, such services and items could, consistent with the provision of appropriate medical care, be effectively provided on an outpatient basis or more economically in an inpatient health care facility of a different type.

(2) Each Professional Standards Review Organization shall have the authority to determine, in advance, in the case of—

(A) any elective admission to a hospital, or other health care facility, or

(B) any other health care service which will consist of extended or costly courses of treatment,

whether such service, if provided, or if provided by a particular health care practitioner or by a particular hospital or other health care facility, organization, or agency, would meet the criteria specified in clauses (A) and (C) of paragraph (1).

(3) Each Professional Standards Review Organization shall, in accordance with regulations of the Secretary, determine and publish, from time to time, the types and kinds of cases (whether by type of health care or diagnosis involved, or whether in terms of other relevant criteria relating to the provision of health care services) with respect to which such organization will, in order most effectively to carry out the purposes of this part, exercise the authority conferred upon it under paragraph (2).
